COBALT---Mining Shares Less Active But the Markets Are Firm---COBAL

MINING MARKETS ARE FIRM HARGRAVES SHOW STRENGTH

City of Cobalt Has Sharp Rise But Reacts Later-Undertone Good-

World Office,
Thursday Evening, May 20.
Local mining markets subsided into a quieter line of business to-day. The market still continues firm and the undertone is strong.
The feature of the day was the rise in City of Cobalt and Hargrave, but while the latter maintained its price, the former lost much of its early gain. At one time during the morning board City sold up to 49 and closed round 45. Hargrave was bid for at 61 and closed steady at about 60. There is a closed steady at about 60. There is a report that a second strike has been made on this company's eastern property.

Beaver was again the most active stock and Temiskaming showed more signs of life.

La Rose and the other higher priced issues were strong, with little change in price.

Dealings in Peterson Lake were fairly frequent, the report being considered quite satisfactory by traders and outsiders generally.

Hoster-500 at 36, 500 at 36, 500 at 38, 500 at 38, 500 at 38, 500 at 15½, 200 at

in price.

Dealings in Peterson Lake were fairly frequent, the report being considered quite satisfactory by traders and ed quite satisfactory by traders and outsiders generally.

The undertone of the market is still good and in the opinion of many a number of the issues are selling far below their real value.

Tenniskaming—500 at 1.31, 100 at 1.334, 500 at 1.32, 100 at 1.32, 200 at 1.31, 100 at 1.32, 100 at 1.31, 200 at 1.31, 200 at 1.31, 200 at 1.31, 200 at 3.34, 100 at

ness can be opened up with the Lon-don Exchange. Efforts are being made owards this end. The market closed firm.

THREE SLEEPERS ON SPECIAL Traffic Increasing on Road to Silver-

Steadily the movement into silverland is gaining in volume. The Grand Trunk Railway, which has shown every consideration to the traveling public, have now three Pullman sleepers mightly on the "Cobalt Special." The company's policy has been to increase the car accommodation as the business expands in order to ensure the comfort of the passengers.

expands in order to ensure the fort of the passengers.

Many of the passengers are bound for Latchford, Elk City and Gowganda. Cobalt provides still the majority, while others are bound for Halleybury. New Liskeard, Englehart, Matheson and Cochrane. Many of the passengers this week have been hotel managers and staffs, who will cater to the in-

WILL TRENCH TWELVE THOUSAND FEET, HE SAYS

Gow Ganda Mine Owner Leaves For the North With a Staff of Men

Capt. H. T. Munn arrived in the city yesterday from Winnipeg, en route to Gow Ganda. He is taking in a staff of twenty or twenty-five workmen. "What plan of development do yo

purpose following?" was asked.
"Trench," he said emphatically. "I'm going to trench our properties from claim, M.R. 1816 end to end, and, bank on what I say, Mines, Limited. by the time I have uncovered the rock for 12,000 feet there will be discoveries perty as Cameron instead of Campbell. that will startle even those who know and the reason of the mistake is that

of men in there now where there was campbell claim, which not more than a handful before the confusion of names. snow fell last winter. We know what six weeks' prospecting disclosed last year-strong silver veins on the Bartlett, Reeve, Mann, Boyd, Armstrong, Milne and Welsh. This season systematic prospecting will accomplish wonders, for it cannot be assumed that the prospectors accidentally stumbled on the only silver veins in the camp. Work on the Bartlett has disclosed rich values below the surface and on the Boyd-Gordon as well. It took Cobalt two years to be advanced as far as

Gow Ganda has in nine months. I be lieve it is going to be one of the great-Cobalt Lake—500 at 16½, 100 at 17, 1000 at 16½; B. 60 days, 2000 at 18½.

It is a Tonic you want! Physicing lowers the system and makes it more susceptible | Bank. to disease. The winter months have been a great strain upon your vitality and unless you put the blood in good condition all manner of evils will overtake you. PSYCHINE is the Greatest of Tonics and should be taken by every one at this season of the year. PSYCHINE assists the gastric juices and ferments in their digestion of the food, cleanses the mucous membrane of the Stomach, and has an invigorating and beneficial effect on the muscles and nerves. For catarrh of the Stomach, Ulceration or Weak Stom-

ach, Dyspepsia, the use of PSYCHINE is strongly advisable. PSYCHINE acting on the Stomach restores it to a healthy condition, then acts through the stomach upon all the vital organs, creates an appetite, bringing renewed vitality and strength to the entire system and enables it to throw off disease of every kind. It is the greatest health-giver known to medical science.

THE GREATEST OF TONICS FOR HEALTH AND ENERGY

with most satisfactory results.

and are, in addition, adding to their ore reserves, I understand, at a rate of about 500,000 ounces a month.
"The Lawson, which adjoins the Har-

grave on the west, is a veritable treasure house. I saw their main vein, which was about a foot wide on the urface and looks like hammered metal. They have also opened another vein leading south nearly as wide and apparently as rich. They must have 1400 ing, and directed the eyes of the mining fraternity in that direction.

Work went on, and the Beaver causting make the first strike that set South Coleman rejoicing, and directed the eyes of the mining fraternity in that direction. time. The second vein I have mentioned the next sensation, and now two ed runs south in the direction of the mines have the real bona fide material.

Hargrave.
"The developments on the East Harvery great importance. It has been found that the 'Jacobs' vein continues It was uncovered in East Hargrave on Monday. It is six inches wide and ing has shown it up. On Wednesday a most important find was made, when a new vein 18 inches wide, composed of calcite, cobalt bloom, cobalt, smaltite and niccolite, was discovered. About 60 feet of the vein was uncovered to the vein was uncovered. ere yesterday. It seems to run nearly and is found at 800 feet.

What a chance have Cobalt mines?
They are the best in the world. to the east, and gives every evidence of being a most important find. It is the strongest vein in the district, with possibly the exception of the big vein of Crown Reserve. This find was considered by Manager Neelands of such mportance that he gave instructions to have a shaft sunk on it at once,

and this was started on Wednesday night. "The famous Jacobs vein, which is proving such a great revenue producer, is now uncovered about 1120 feet. North Hargrave and East Hargrave have about 800 feet of it, and the Kerr Lake Company have about 320 feet of it, It cuts across the southeast corner of the Kerr Lake property and enters the South Hargrave on the south, and the East Hargrave at the northeast."

O'KELLY MINES, LTD.

Strike Reported on the Cameren Property at Gowganda Was in Reality on Campbell

The rich strike that was reported in one of the evening papers last week, to have been made on the Sutcliffe and Neeland property in Gowganda, was in reality on the Campbell or Pindar claim, M.R. 1816, owned by the O'Kelly

Gow Ganda. This is going to be Gow Ganda's year. There is a little army of men in there now where there was Campbell claim, which resulted in the

The strike was made on a 15-inch

Word was received yesterday from he management of the Little Ninissing Mine that rich ore is being taken out at the 160-foot level and it is ex-pected that a carload will be shipped
