

BUILDING LOT, AVENUE ROAD, ON THE... We are offering a desirable lot close to Upper Canada College. The street at this point is 120 feet wide; exceptionally fine surroundings. Location for gentleman's residence. H. H. WILLIAMS & CO., 26 Victoria St., Toronto.

PROBS. Fresh westerly wind; fair; not much change in temperature.

**TAMMANY ELECTS A MAYOR FOR GOVERNMENT**  
Gavnor's Plurality About 70,000—Results of Other Elections—Reform Victory in Philadelphia.

Elections were held yesterday in many of the United States and cities, with no national issue involved to bring about concerted party action.

In New York City Tammany Hall scored a triumph in the mayoralty election, Judge William J. Gaynor rolling up a plurality of upwards of 70,000, but lost the control of the board of estimates, a defeat.

In Philadelphia another battleground on reform issues, Samuel P. Rotan, Republican, was elected district attorney over D. Clarence Gibbons, representing the Law and Order Society and the reform element. Rotan's majority exceeded that in a previous reform campaign, being estimated at upwards of 30,000.

The returns from San Francisco, where reform issues are uppermost, are meagre at a late hour, and give no indications of the outcome.

Mayor Tom Johnson, the picturesque publican, had been defeated by a decisive majority by Herman Baer, Republican.

In Massachusetts, the returns indicate that Gov. Eben B. Draper, Republican, had been re-elected over Jas. H. Vahey, Democrat, by a greatly reduced majority, estimated at 10,000. Gov. Draper's majority last year was 30,000.

In Rhode Island, Gov. Pothier, Republican, was re-elected over Oliver Arnold, Democrat, by a substantial majority.

In Virginia, returns indicate that the Democratic ticket, headed by Judge Mann for governor, has been elected by about the usual majority.

**MRS. STETSON DECLARES FEALTY TO MRS. EDDY**  
New York Christian Scientist Says She Had No Thought of Secession—Sensational Story.

NEW YORK, Nov. 2.—(Special.)—Mrs. Augustus E. Stetson in a letter to the press, announces her complete submission to the Boston officials of the Christian Science movement and denies she intended to secede from the Christian Science Church.

While Mrs. Stetson was preparing this statement her opponents in the First Church of Christ, Scientist, made public data they had gathered concerning her alleged infidelity to the church. Their statement included the charge that she had gathered twenty-five of her practitioners under discipline, in a meeting of the members of the First Church to be held Thursday to receive a report from the trustees who have been investigating her teachings.

In her letter she says: "I shall never secede from Christian Science, and no student of mine, with my approval, will ever secede from Christian Science, or disrobe the constituted authorities of our denomination. I was never more devoted to the cause of Christian Science, to which I have given my whole life for twenty-five years, I was never more grateful, loving and obedient to my revered leader, Mary Baker Eddy, discoverer and founder of Christian Science and the leader for ever of all true Christian Scientists."

Opponents of Mrs. Stetson said they had discovered that one source of her great power is the receipt by her of practitioners of a monthly list of the "diseases and sins" from which patients of these practitioners are suffering.

NEW YORK, Nov. 2.—(Special.)—The conflict which has been going on quietly over the vacant place on the board of directors of the Bank of Montreal, was brought to an issue to-day when Alfred Baumgarten, president of the St. Lawrence Sugar Refining Company, was appointed in the place of the late A. T. Patterson.

It is understood that those opposed to the nomination of the wealthy German resident, who is a graduate of a famous university in his own land, claimed that he was not a British subject, but that was settled to-day when Mr. Baumgarten declared that he had been a British subject for many years past.

In fact, Sir Edward Clouston stated the other day, that the charter only required a majority of the directors of the bank to be British subjects. Mr. Baumgarten is the possessor of twelve hundred shares.

**A RUSTY PAST**  
**WINDSORITES WHO HAD TO BUY NEW HEATING APPARATUS YEARS AGO LIKELY TO VOTE OTHER WAY.**

WINDSOR, Nov. 2.—(Special.)—Will Nemesis, in the form of his political record, follow W. J. McKee in the by-election contest which opened in North Essex yesterday? is a question which if answered would unfold the secret which political fate holds in this constituency.

W. J. McKee was chief Liberal whip of the Ontario Liberals in the last session but one of Liberal rule in Ontario. W. J. McKee, shrewd politician Windsor is, one of the public opinion on the natural gas question. It wrought his defeat. The Ontario Natural Gas Co., which was then exploiting the fields of South Essex, was exporting gas to Detroit, selling to an American distributing company at 15 cents per thousand cubic feet, while the Canadian consumers were charged 30 cents per thousand cubic feet. When the supply threatened to be soon depleted, if the then existing demands were continued, the Windsor consumers asked the Ontario Government to prevent the gas from being exported.

**BROTHERS ARE GUILTY ON REDUCED CHARGE**  
Trial For Manslaughter Ends in Conviction For Inflicting Harm and Prospect of Light Sentence.

BARRIE, Nov. 2.—(Special.)—Guilty of unlawfully inflicting grievous bodily harm on the late Michael Kelly was the verdict returned by a jury after three hours deliberation in the case of William and James Smith, who were tried on charge of manslaughter before Sir Wm. Mulock in the criminal assizes here to-day.

On Sunday, June 27 last, Michael Kelly, an aged man, stopped the Smith Bros., as they were driving past his house and began a quarrel over an impounded cow which ended in the Smiths striking him. He died during the night.

Other witnesses gave corroborative evidence and agreed that the brothers were peaceful and quiet. His lordship's charge to the jury was quite favorable to the prisoners.

**CANADIANS PAY HIGH**  
For Fish Caught in Own Waters—Chicago Reaps Benefit.

WINNIPEG, Nov. 2.—(Special.)—A special from Chicago to-day says that Manitoba whitefish is selling on that market at seven cents a pound wholesale, and nine cents retail, pickled, wholesale 7-12 cents retail.

The point is that yesterday Manitoba whitefish was sold in Winnipeg at a price of 12 cents a pound. The facts are interesting in view of the prospective trip of the federal fish commission, which has been looking into northern fisheries, to Chicago. The Lake people practically control the Lake Manitoba output and the price.

**ESSEX BY-ELECTION POSTPONED A DAY**  
On Returning Officer's Request the Polling Will Not Take Place Until Thursday, the 11th—Nomination Orators.

OTTAWA, Nov. 2.—(Special.)—Owing to representations made by the returning officer, the by-election will not take place in North Essex till Nov. 11, instead of the 10th, as at first assigned. Dr. Beland, member for Beauce, will speak at the nominations there on Thursday.

Hon. Mackenzie King and Mr. Blain, M.P. for Peel, will speak at the returning office, the by-election will not take place in North Essex till Nov. 11, instead of the 10th, as at first assigned. Dr. Beland, member for Beauce, will speak at the nominations there on Thursday.

This house must be sold by Nov. 31—owner going to Vancouver; eight rooms; brick; new including electric fixtures; would also sell furniture cheaply; situated in west end on beautiful street; location for gentleman's residence. H. H. WILLIAMS & CO., 26 Victoria-street, Toronto.

TWELVE PAGES—WEDNESDAY MORNING NOVEMBER 3 1909—TWELVE PAGES

**LA ROSE MINES TO REDUCE DIVIDENDS TO EIGHT PER CENT. AND SET ASIDE FUNDS FOR DEVELOPMENT OF PROPERTIES.**

D. Lorne McGibbon, president of the La Rose Consolidated Mines, Alexander Prince and Victor E. Mitchell, directors, of Montreal, were in the city yesterday conferring with prominent Cobalters relative to new business methods to be put into effect after the development of the La Rose Consolidated Mines.

It has been decided by the directors that it is the best of good business, and with this all Cobalters thoroughly informed regarding mining operations in New Ontario will agree, to put aside a largely increased amount for the development of the claims other than the La Rose Mine, the property of this company, in order to place them as rapidly as possible on a shipping basis.

It would appear as if the forces formerly at the helm of the La Rose Consolidated Mines devoted most of their time and money to the rapid production of ore on the La Rose property proper, and ignored the rich possibilities of the many other claims owned by this company.

To this end it is the intention of the new directors to reduce the dividend to 8 per cent. per annum, payable quarterly, that is, to 2 per cent. quarterly. The dividend at present is 10 per cent., with a bonus of 1 per cent. quarterly, making 11 per cent. per annum dividend. The money that was wasted in the treasury owing to this reduction of dividend will be devoted to the purpose of scientifically mining all the claims in the pastures of the company.

The business ability and integrity of Mr. McGibbon and his business associates in Montreal and Toronto promise that the La Rose Consolidated Mines will be put on a business basis second to none in the Cobalt camp, and that everything promised by the new order will be carried out to the letter, and the profitable benefit of the shareholders.

It requires no little courage to investigate, face the facts and then take a dividend that means perhaps immediate detriment to the shareholders so far as dividends are concerned, but which in the long run will mean greatly increased revenue to everyone who is financially interested in these valuable properties.

The official statement given out by the La Rose Consolidated Mines, elaborating the facts stated above, is as follows:

Company's Statement.  
Mr. D. Lorne McGibbon, president of the La Rose Consolidated Mines; Shirley Ogilvie, Alex. Pringle and Victor E. Mitchell, directors, have returned from Cobalt and the following official statement of the result of their inspection of the various properties of the company has been issued.

The directors of the Consolidated Company and thoroughly inspected their veins on the surface. They discussed fully with the company's general manager, Mr. R. B. Watson, the future development of the various properties of the La Rose Consolidated Mines, consisting of La Rose, La Rose Extension, Prince, La Rose, Fisher, Eplett, Silver Hill, Violet and over 90 per cent. interest in the University Mine.

The original La Rose claim, consisting of 100 acres, was systematically developed since it was taken over by the company, and the results have been so satisfactory that during the past year of the consolidated company's existence, it still showed an average equal to the reserves at the time the company was taken over. This claim is the only one of the properties which can be said to have been fairly well developed, and has been furnishing almost exclusively the money necessary for the development of the other properties of the consolidation, as well as providing the dividend to the shareholders.

In the close of the first year's operations, June 1, 1909, the estimated ore reserves in La Rose Mine were close to 5,000,000 ounces, not taking into consideration the large amount of milling ore on the dumps of the property.

The La Rose Extension adjoins the original La Rose claim on the north and consists of 40 acres lying on the conglomerate. This claim has been partially treasured on the surface, but no underground work whatever has been so far done on it. Considering its location and the fact that the La Rose veins strike towards this ground, it is reasonable to expect that this claim will develop well.

Princess.  
This mine is situated at the south end of the Hudson Bay.

Unique for Good Garments.  
Sometimes a thing that starts out as an imitation ends by making a place for itself on that merit. Such a fate has come to that new and excellent fur known as Hudson Seal. It is not only the aim of the perfectors of this skin to make it a close duplicate of Alaska Seal, they succeeded in that, but the Hudson Seal is in every way a fur that must sell on its own merits. Hudson Seal, though at a short distance it cannot be told from Alaska Seal, is somewhat stiffer in texture and heavier in weight. It is very excellent for wear in a Canadian winter. The Dineen Company have some splendid designs in jackets and coats of Hudson Seal. Call at the showrooms, corner of Yonge and Temperance-sts.
