### AT THE WINTER FAIR

# **ONTARIO FARMERS**

Dr. G. C. Creelman Addresses Farmers at Guelph Fair Luncheon.

#### MANY ATTRACTIONS

Judging of Angus Cattle the Big Feature of Program Yesterday.

Ontario Provincial Winter Fair.

Speaking at the noon day directors' luncheon Dr. G. C. Creelman, president of the Ontario Agricultural College balled for co-operation among the agriculturists of Ontario. He rereferred to the benefits derived thru co-operation and the grain growers' association by the farmers of the western provinces and he said that "Never again shall the farmers of these provinces be dominated by any political party, but they are going to be big enough in producing the raw materials for the empire to nandle the affairs of agriculture and the affairs of state from this time on."

Canada's Debt.

He referred to Canada's immense ferred to the benefits derived thru

State from this time on."

Canada's Debt.

He referred to Canada's immense debt as a result of the war which he estimated would not be less than \$500,000,000 which at 5 per cent. required that Canadians must pay an annual interest of \$25,000,000 when the war was over and farmers would have to bear their share of the burden. In order to pay this the farmer could not be called on to work harder as he was already working hard, nor was it necessary to tell him to save, but he would advise them to avoid waste.

"Canada," he said, "after supplying her own needs has not anything like a fair portion of her share to supply to the empire. This is perhaps due to our haphazard methods. We must do everything in the way of producing cattle in order that we can help pay that \$25,000,000 when the war is over."

He referred to the importance of drainage and said that 150,000 acres had been drained in the province by the help of the agricultural college, but there were yet 5,000,000 acres in this province that urgently needed drainage. This land was in most cases the best land on the farm and would the best land on the farm and would yield large crops.

The meeting was presided over by the best land on the farm and would by Staff Reporter.

Guelph, Dec. 5.—The winners of first prizes in the various events for one W. W. Ballantyne and included in the gathering were many prominent dairymer and fruit growers of the province.

#### COMPLETE JUDGING OF ABERDEEN ANGUS CATTLE

Much Competition, Especially in Class for Sters and Heifers.

By a Staff Reporter. Guelph, Dec. 5.-Judging of the Aberdeen Angus class of cattle was completed this afternon. The list was long and the competition was paricularly keen, especially in the class for steers or heifers, one year and under two. There were six exhibits and honors were bestowed upon the heifer Middlebrook Pride, bred and exhibited by John Lowe, of Elora. This animal was later declared the champion cov of the pure bred Aberdeen Angus class. Eye-Opener, owned by Ralph Fried, of New Dundee, was a close rival Blue King, exhibited by James Leask and Sons, of Seagrave, is champion over Aberden Angus pure breds and grades the three animals the get of one sire, exhibited by James Bowman, of Guelph, were the winners in this class. Bowman was also the owner of the winning breeder's herd, consisting of a bull calf, two yearing heifers and two heifer calves. The Aberdeen Angus society specials for grade steer or heifer, one year and under two, were awarded as follows: James Leask, Seagrave, won first, second and fourth prizes, and T. A. Russell, of Downsview,

Stone, Seagrave, second. AID BRITISH SAILORS.

St. Thomas, Dec. 5.—At a meeting of the city council this evening, the recommendation of the finance committee was adopted and \$2000 voted to the British Sailors' relief fund and another grant of \$1000 was made to the Y.M.C.A. overseas work fund.

was third. Awards under one year, James Leask, first and third; Joseph

#### STOMACH MEDICINES ARE DANGEROUS

DOCTORS NOW ADVISE MAGNESIA. Just how dangerous it is to indiscriminately dose the stomach with drugs and medicines is often not realized until too late. It seems so simple to swallow a dose of some special mixture or take tablets of soda, pepsin, bismuth, etc. after meals, and the felly of this drugging is not apparent until perhaps years afterward, when it is found that gastric ulcers have almost eaten their way through the stomach walls. Regrets are then unavailing: it is in the early stages when indigestion, dyspepsia, heartburn, flatulence, etc., indicates excessive acidity of the stomach and fermentation of food contents that precaution should be taken. Drugs and medicines are unsuitable and often dangerous—they have little or no influence upon the harmful acid, and that is why doctors are discarding them and advising sufferers from indigestion and stomach trouble to get rid of the dangerous acid and keep the food contents bland and sweet by taking a little pure bisurated magnesia instead. Bisurated Magnesia is an absolutely pure anticald which can be readily obtained from any drug store. It is absolutely harmless, is practically tasteless and a teaspoonful taken in a little warm or cold water after meals, will usually be found quite sufficient to instantly neutralize excessive acidity of the stomach and prevent all possibility of the food fermenting. Just how dangerous it is to indiscriminately dose the stomach with drugs and medicines is often not realized until too late. It seems so simple to swallow a dose

#### **EDUCATE FARMERS TO NEEDS OF CONSUMERS**

MUST CO-OPERATE W. J. Bell, of Live Stock Department, Conducts Interesting Demonstration.

By a Staff Reporter.
Guelph, Dec. 5.—W. J. Bell of the Ontario live stock department is conducting a demonstration to show the different economic values of steers at different ages and at different condi-tions. He has in a pen three animals of different varieties and of different ages,and alongside he has carcasses of three animals which correspond very nearly to the living animals. A live steer of a Shorthorn and Hereford cross, which has been carefully fed and is in a finisher condition, is one to the living animals on exhibition. Guciph, Dec. 5.—Judging of Angus cattle and Percherons during the after-tile and Percherons during the animal. An unfinished steer of the rocr followed by the standard bred grade Angus variety weighs alive 1159 class in the vening were the leading pounds and dressed 594 pounds, or only features of the second day of the 51 3-4 per cent. A baby beef twelve months' old of a Shorthorn-Angus Among the Percherons the competition was especially keen many spleated animals being entered in each class and the quality uniformly excellent.

Large crowds of country and city

Large crowds of country and ci cross alive weighs 850 pounds and Large crowds of country and city people were on hand all day long the latter apparently taking as much interest in the various exhibits as the and incidentally what is in their own interest. The finished steer recently sold at a sale at the O.A.C. for 11c a pound and the baby beef for the same. The unfinished steer would be sold for only about 6 3-4c on the mar-

The following were the entries at the leading American exhibitions for the year 1915: Boston, 3004; New York, Madison Square, 3006; San Francisco World's Fair, 3857. The largest list for any one class is in the single comb White Leghorns with 350 entries. Of these 105 are cockerels, entries. Of these 105 are cockerels, the largest number ever shown at an exhibition of this character. The Leghorns total 564 birds, Plymouth Rocks 420, Wyandottes 400. There is also a large display of fancy birds. Sid Saunders of Ingersol Captured the challenge cup for the best four birds, cock, hen, cockerel and pulleting the challenge competing. These four all breeds competing. These four all breeds competing. These four birds were of the White Wyandott variety. Harry Johnston of Simco was awarded a cup for the best bir of the show. It was also a Whit

The Ontario Sheep Breeders' Association champion cup for short wooled sheep was won in John Kelly and Sons, of Shakespeare, for their pen of three Hampshires. The champion cup for long wooled sheep donated by the same association, was won by R. S. Robson and Son, Denfield, for their

DELIVERS ADDRESS. "Caponizing" Demonstrated by Officials of the Agricultural College,

By Staff Reporter. Guelph, Dec. 5.—A lecture and demonstration on "Caponizing" was de-livered today in the seed department by Mr. Burden, assisted by Miss Yates. The benefits derived from this operation, according to the speaker, were many. The bird would arrive at maturity earlier and the quality of the flesh would be improved by acquiring tenderness combined with a greater amount of flesh. The method of pre paring the bird for the operation consists of starving for 36 hours and shutting in a dark place.

SHOW CONTEST WINNERS. Jerseys, Ayshires and Holsteins Parade in Judging Ring at the Fair.

Guelph, Dec. 5.—A parade of the prize winners of the dairy contest in the judging ring at 11.30 today attracted much attention. In the parade were 10 Jerseys, 12 Ayrshires, 11 Holsteins, 3 grade Holsteins and 1 shorthorn. The parade was lead by the winner of the contest, the Jersey cow, Sunbeam of Edgeley, owned by James Bagg and Edgeley, owned by James Bagg and Second Edgeley. Son., of Edgeley.

acclamation as mayor of St. Boniface.

PREMIER TO SPEAK.

Hamilton, Wednesday, Dec. 6 .-Premier Hearst will give an address on the war before the members of the local Canadian Club Friday night. Hon. Mr. Hearst will tell of his observations during his recent trip to the front.

### WHEAT UNDERGOES **DECIDED ADVANCE**

Chicago Prices Soar on Presidential Opposition to Embargo.

EXPORT SALES BIG

Recent Decline of Quarter of Dollar Proves Tempting for Buyers.

Chicago, Dec. Reports that foreigners were again active buyers brought about a decided advance today in wheat values which were also lifted by definite word that President Wilson would lirectly oppose any embargo on foodstuffs. The market closed strong, 3% to 4% c net higher with May at \$1.76% and July at \$1.46 to \$1.46%. Other leading staples, too, all showed gains; corn 2½ to 2% c, oats 1% to 1% c, and provisions 2½ to 77c.

After the close it was estimated that export buying of wheat in the last 48 hours would aggregate as much as 3.700-000 bushels. The purchases were made under cover, and the fact that they were going on was not generally suspected until the last half of the session. Gradually, however, evidence accumulated that the recent decline of 25c a bushel had been too tempting for European buyers to ignore, even tho war risk insurance rates on the ocean had risen about as high for neutral vessels as for belligerents. Traders where a disposition also in the last a result of which the different brokers are subouted which last half of the session also in the last a result of which the different brokers are showed a disposition also in the last a result of which the different brokers on the ocean had resen about as high for neutral vessels as for belligerents. Trad-ers showed a disposition also in the last half of the day to give more weight to reports about the stand which President Wilson was said to have taken against an

A Simple Way to Remove Dandruff

J. W. Cockburn was re-elected con-troller for seat "A." Candidates for failed to remove dandruff at once, and There is one sure way that has never other three controllerships are: Seat that is to dissolve it, then you destroy "B," A. W. Puttee, F. C. Hamilton it entirely. To do this just get about four ounces of plain, common liquid arvon from any drug store (this is all you will need), apply it at night when retiring; use enough to moisten the Arthur, F. C. Gray and Walter Wick- scalp and rub it in gently with the

By morning most, if not all, of your dandruff will be gone, and three or four more applications will completely dissolve and entirely destroy every single sign and trace of it, no matter how much dandruff you may have.
You will find all itching and digging

# **GOLD VEIN STRUCK**

Important Three Foot Vein Located by Drills at Inspiration Mine at Porcupine.

Timmins, Dec. 5.—(Special.)—Just as has been anticipated thruout this camp for over a week, the diamond important strike on Inspiration, and already a vein width of three feet carrying encouraging gold values has been passed thru. The camp is naturally somewhat excited, as successful developments at Inspiration mean an extending of the productive min-eralized zone of the Hollinger section

without any restrictions as to price, so anxious are the miners to "get in" on Inspiration, which they now agree is the most promising undeveloped property in the Township of Tisdale. It is likely the demand for this stock and learances at the seaboard during the rest of this month would clear away the rail congestion.

Improved domestic call as well as a better export demand tended to give strength to corn. Trade, which at first was small, broadened out, especially after wheat be surp'us offerings of oats. Export transactions were of greater volume than has recently been the case.

Higher outoations on hogs put provisions on the upgrade. Amivals of hogs thruout the west were much reduced in number as compared with a week ago.

Gold will become a mine of magnitude and under its present intelligent man agement compare favorably, within a reasonable period, with several of the large producers of this important part of the camp.

WINNIPEG WHEAT MARKET.

Winnipeg, Dec. 5.—Wheat closed 2%c nigher for December and 3%c up for May. lats were %c higher in December and %c in May. Barley was down 1 to 2c. lax gained 4c in December and 4%c in May.

The trade today was moderately heavy, without feature in the news. News of a big export trade in the south, both on Monday and today, encouraged a fair amount of speculative buying, while the local market is a heavy spreading proposition at present. The demand for barley was lacking, but oats and flax were wanted. Cash demand was fairly good for top grades of wheat.
