resident of the Toronto Veterans" of esident of the Toronto Veterans of Britain and other countries—all breath-66 Associations, a member of No. Ing the same spirit of loyalty and de-6 Company, Queen's Own Rifles, in 6 Company, Queen's Own Rifles, in the battle of Ridgeway, June 2, to go to the front in defence of their 1866.

conflict ever known in history, ere thrown upon their own resources, without occupation or employment. While the majority of these soldiers unickly resumed their old business or arming pursuits, yet there remained le a vast number of turbulent and stless spirits who were ready and lling to embark in any fillibusteredition that might present These men were all trained and ed veterans of both the Union

The Toronto Veterans of 1866 Asso-ciation (which was incorporated in 1897) is an organization of ex-volupteers who took part in the defence of Canada in those strenuous times, and Canada in those strenuous times, and they have done much to promote and keep brightly burning the spirit of pa-triotism and love of country which ani-mates the heart of every true Cana-dian. This feeling was fully demon-strated at the annual meeting of the association, which was held in the Ar-mouries on Wednesday evening last, when about 200 veterans gathered to elect their officers for the ensuing year and renew their old-time griendships. Letters were read from absent com-rades who are now resident in foreign rades who are now resident in foreign lands-many in the United States, others in Honolulu, Chili, Cuba, Great

was given the Canadian veterans of the Boer war, namely a grant of land in the Northwest. At this interview the Fenian raid veterans were kindly received by the premier, who stated that their petition would receive due considertaion, and the matter will pro-bably be dealt with at this session. There is no valid reason why the men who saved Canada in 1866, and made it possible that the Dominion govern-ment has now millions or acres of land to give away to foreigners, should not get their rightful portion of the heritage they protected in days of per-il, and the people of Canada to-day will no doubt be in hearty accord with such a tangible recognition of their such a tangible recognition of their

Still Young in Spirit.

Still Young in Spirit. While many of these veterans are well up in years, still a majority are able and willing to settle on these lands. Again, the majority of them have stalwart sons and sons-in-law who would be glad to locate on the lands that the government might grant their sires. And what better class of settlers can be found than our native-born Canadians? They are equal to any emergency, always self-reliant and any emergency, always self-reliant and capable, and will manfully do their part in working out the destiny of his rising young nation.

WILLIAM GIBSON, Financial-secretary of the Toronto Veterans of '66 Association, a member of the Queen's Own Rifles, in the battle of Ridgeway on June 2, 1866.

This building is proposed to be erected about the N. E. Corner of Yonge and Wellesley Sts. The, location is considered a very de-sirable one in as much as it is not only convenient for Club purposes but is considered very advantageous in its location for the letting

and Confederate armies—soldiers who were inured to the hardships and riof many campaigns and fierce arties, and thousands of them realy enrolled themselves under the Fenian banners in anticlpation of a war being inaugurated against the British nation, with the invasion of Canada as the first step. The defence of our Canadian fron-

tier depended mainly upon the volun-teer militia force of the provinces, and to their patriotism and gallantry In springing to arms when their ser-vices were urgently needed to defend their native land may be ascribed the slory of frustrating the attempts of the Fenian invaders to establish themlver on Canadian soil.

It may be truthfully asserted that the political destiny of our present grand Dominion was determined during the first week of June, 1866, for had it not been for the unfluching trage and firmness of purpose which was evinced by our Canadian volunteers in the battles of Ridgeway and

Poland Breed, and Much Sought After.

of apartments.

LONDON, Feb. 12 .- China has become a factor in providing England with foodstuffs. The steamship Graf Muravief, from Woosung, at the mouth of the Yangtse Kiang, arrived at this port the other day with 3647 Chinese pigs and several thousand head of Man-churian poultry, all of which quickly gravitated down Billingsgate market

way. "Oh, yes, the Chinese pig trade now may be considered as fully established,' said the manager of the Union Cold Storage Company. "There are constant consignments on the way to this country. The pigs are of the well-known China-Poland breed, such as were imported into Denmark and which have found great favor in the United States. As a rule they are too large to sold in the ordinary way in joints for the table, so they are used chiefly for making bacon."

The same steamship broke all records JOHN H. NOVERRE, Becording-secretary of the Toronto dred Siberian salmon. This fish, how Veterans of '66 Association, a ever, so it is held, can never compete member of No. 5 Company, Queen's Own Rifles, in the battle of Ridge-and it is held not to compare in quality

with the Canadian salmon. "Speaking of fish and things," re-marked the head of one of the largest ing with satisfaction the great progress that is being made in developing the ways tell what is in a name. but one that will be so ing accommodation for the Club, the greater portion of the building will be available for renting purposes, thus, the remuneration from the building will make it self-supporting.

The proposition is to erect a building that will not only answer the requirements of the North Toronto Conservative Club Association,

THE TORONTO WORLD

The location is about the centre of the North Toronto District, therefore it will be conveniently located for the members of the Club and the position one that will be very desirable for those seeking to rent apartments.

One of the considerations in erecting the building is to make it convenient for bachelor apartments. The advantage of this will be seen when it is remembered that there is a large number of the Members of Parliament, students, and others who come to the City every year, seeking just such apartments, therefore the building will readily lend itself to the convenience of those who wish to rent bachelor apartments.

The building will be situated on one of the leading thoroughfarcs, which leads direct to the Parliament Biuldings.

In planning this building every consideration, has been given to make the apartments the best appointed and the most convenient in

the city. In erecting the building under the auspices of the North Toronto Conservative Association it is not the intention that this association, as a Club, will place itself under obligation in the matter of expense in running the building, as the intention is to let all the different apartments, stores, restaurant, etc., to tenants and the Club will only be responsible for the running of their own apartment.

The following are some of the features that the different flats

BASEMENT:-The Basement will contain a large Billiard Room, with 16 tables (sixteen), three (3) Bowling Alleys, Barber Shop,

FIRST FLOOR .- The first floor will be laid out to contain Bank-Store Room, Etc ing Office, a large Restaurant and 5 stores, also there will be a Main Entrance to the Public Hall and Club on the Second floor, off Yonge Street, and a private entrance for the renting apartments off Wellesley Street, with elevator and staircase accommodation. This floor will also contain Kitchen and Serving Rooms, etc., in connection with the

Restaurant. SECOND FLOOR .- Second floor to contain a Public Hall to seat about 500 people, Supper Room, and Ladies' and Gentlemen's Retiring Rooms, Coat Rooms, Committee Rooms, Lavatories, etc. It is the intention to have the Hall so constructed that the Supper Room will open into same, so that, if required, it will increase the space of

planned to contain on each floor, 20 rooms, in all 80 rooms, and will be laid out in apartments, so the rooms can be rented singly or in suites or two or more apartments. Each apartment or room is so con-structed that the front portion of the room will form a sitting room with an alcove off same for the bed space. Each apartment will be provided with a Bathroom and a large Clothes Closet. Each room will be well lighted from the outside of the building. There will be no dark or badly lighted root.s in the building. The apartments are fitted up in the very best possible way with every convenience and perfect sanitary arrangements. Each flat will be reached by elevators and large staircases, and each flat so arranged that it will be shut off independently from the traffic of the stairs and elevators so that when a tenant reaches his flat his apartments will be shut off from the noise of the building

ROOF GARDEN .- The building is designed with a Roof Garden and possibly the first building that has been constructed with this idea in connection with an apartment building. The intention is to have the roof garden formed in such a way that it will be a recreation place for the tenants of the different apartments. It will be laid out with pergolas and plotted out with walks, shrubs and flower beds. Also it is the intention that the Roof Garden will be constructed with two (2) observation Dining Rooms, enclosed with glass partitions, one to be reserved for the use of the tenants, and the other for the public. This will give the tenants the option of either dining in the Restaurant on the ground floor, or in the observation Dining Room on the roof.

All arrangements have been made for proper Janitor's Apart-ments, Heating Appliances, abundance of Lavatory accommodation throughout the different portions of the building, also Fire Escapes, etc.

EXTERIOR.—The building is to be constructed fire proof and has been designed in modern classic architecture; it will be seven (7) stories in height, the three (3) first stories will be constructed of stone with plain substantial line mouldings. The upper four stories will be brick, emphasized with plasters and ornamented cornices, the Roof Garden or the top flat of the Building will be emphasized on the outside at one end of the building with the pergola timbered roots and the other end by the enclosed Dining Rooms with tiled roof and projecting bays.

The design of the building is plain in character and attractive in appearance, so that the purpose for which it is intended will be charac-teristic of the building. While no expense is being spared to make this building complete in all its appointments, there will be no unnecessary elaboration.
