STREET CARS
TO THE PARK
 Horticultural Association Will
 Bring This Matter Before St.
 John Railway Co.

At the annual meeting of the Horticultural Association yesterday, a committee was appointed to wait on the directors of the St. John Railway Company to see what arrangements could be made to extend their line to Rockwood Park. A suitable minute was ordered to be drawn up in view of the death of James Reynolds, a prominent member of the board.
 The chair was occupied by the president, J. D. Hazen. In the absence of the secretary, the chairman read the minutes of last annual meeting. He then read the report of the gardeners, J. A. Stevens, which showed a favorable summer for blooms. Some vines of Virginia creeper and ornamental shrubs were planted along the drive from Mouth Pleasant opposite Judge Barker's residence and more will be set out in the spring. About 7,500 bulbs were planted last fall for spring flowers, 8,000 of which were new. The gardeners' report concluded by asking more greenhouse space, the installation of a drinking fountain in the gardens and painting the fence.
 Taking up the suggestions in the report, the chairman said he thought the one regarding a drinking fountain in the garden was especially good.
 Joseph Allison's report as treasurer showed total receipts \$5,841.67; total expenditures, \$5,106.18; balance on hand, \$735.49.
 The auditors' report, which was signed by R. B. Emerson, chairman, certified the accounts correct.
 The chairman reminded the directors that the bonds in the Bank of New Brunswick had not been disposed of. These bonds were secured by a mortgage on the whole property and the rent paid by the ice company is sufficient to pay the interest. He thought them a good safe investment for anyone.
 The report on construction work, which was submitted by G. S. Fisher, showed that the average force employed was three men, besides the two permanent men. A good deal of work was done around Lily Lake, and the new drive from the west of that lake to the new lakes and Sandy Point road will be completed soon. The report went on to say that great credit was due to Ald. Lewis for the trouble he has taken in looking after the prisoners in connection with their work, which was quite extensive. Speaking of the work for the present year, Mr. Fisher's report said

that after the drives and walks and other regular work are attended to there is a great deal of unfinished work in various parts of the park, considerable on the slope of the dam and perhaps the drive across the upper dam, making a round drive out into the Sandy Point drive. If funds would permit doing so, something might be done in the way of erecting pavilions for places of rest and of shelter from the sun or rain; they need not be very expensive.
 All these reports were received and left to the consideration of the incoming board of directors.
 Dr. G. U. Hay read the report of the Arboretum committee. This being all the reports the meeting proceeded to the election of three new directors. The following were unanimously appointed: John Russell, Jr., Ald. Bullock and Mayor Sears. One vacancy on the board of associate members was filled by the appointment of Mrs. David McLellan.
 It was then ordered that a suitable resolution of regret at the death of James Reynolds, who was a member of the board of directors, be entered on the minutes. The president next reported that the agreement between Frank White and the Horticultural Association had been signed. Some discussion followed on the prospects of inducing the street railway to extend their line to Rockwood Park, and it was decided to appoint a committee to confer with the directors of the St. John Railway Company, with a view of inducing them to undertake the work. The chairman appointed Joseph Allison, Colonel Armstrong, G. S. Fisher and C. H. Peters on the committee, and the meeting then adjourned.

The only complete and perfect food is milk. In it are flesh-formers and heat makers in the right proportions properly balanced.
 Milk taken every morning and evening in conjunction with Orange Malt which, according to Prof. Harcourt's determination, is 50% more valuable as a food than bread, supplies the most perfect and evenly balanced food that human subject can secure. Build up children on Nature's food.

THE SALVATION ARMY
CHARTERS TWO LINERS

Two Big Steamers Engaged to Carry Salvation Army Emigrants to Canada.

Montreal, Feb. 6.—A special London cable says:
 The Salvation Army has chartered the steamers Southwark and Vancouver, of the Dominion line, for the exclusive use of emigrants going to Canada in the spring under their auspices.

ST. JOHN THE HOME
OF FAST SKATERS
 Some of the Men Who Have Bright Honors to St. John in Skating Championships - - - Fred Logan
 the Present Champion Has Speed and Endurance

St. John in welcoming Fred Logan home as a champion skater who has won laurels for his native city as well as for himself, is doing nothing strange for this "city by the sea" is the home of fast skaters, and many champions have been sent out from here. Starting back in the old days there was "Hughie" McCormack, who in his younger days held the championship of the world, and is even yet able to show some of them his heels on a straightaway on the river.
 Fred Logan was also a world beater and in a number of hard fought contests he showed the men from other parts of the

FRED LOGAN

world that down here in New Brunswick were men who could run away from them all. Other members of the Logan family who also made good were Wilson and Hudson, both of whom held championships in their palmy days.

G. Wilfred Campbell also was one who could show his heels to the best of them. Charlie Gillespie, who is now in Toronto, and Will Lockhart held the championship for backward skating, and several crack-jack fancy skaters have also gone forth from this city. In later years the skaters at Parker, Price, Duffy, Logan, Baird, Evans and others have been prominent and all have victories to their credit.

Pen Parker, who has given up skating, made them all hustle in his time, and showed up well in the Montreal events in which he skated in 1903. It is believed by many that had Parker not been crippled through rheumatism, he would have developed into a world beater.

Jimmy Price, who also seems to have given up the sport, was a whirlwind and won the one-mile championship at Montreal two years ago. Price was another of the St. John lads of whom great things were expected, and it is to be regretted that he has dropped out of the game.

Neil Dalton, who is now skating on rollers this year, has made them all skate, winning places in almost every event he has skated in, and doing especially well at New York and Montreal two years ago.

Mike Walsh, the well known Carleton flyer, who has not been heard from this winter, holds a number of records. He skated 220 yards four years ago in 18 seconds.

W. Whitebone is still skating and is going fast this winter. He skated a half mile on January 26th in 1:26, defeating ten other skaters.

Bart Duffy is the only skater representing St. John at the national championship, which are to be held at Charlottetown this year. Duffy holds the half-mile record for the Victoria rink, going the distance in 1:21 1/2, when he defeated Parker in 1903.

Len Daley, who was at one time a favorite with St. John lovers of speed skating, has also given up racing.

Logan was entered in many races here in the past few years and his victories and defeats were pretty evenly divided. Last year he showed a marked improvement and this year he had so far advanced in the game as to be able to show his heels to the best of them at Saranac Lake and Montreal.

For such a small fellow it is a wonder to many here he gets his speed, but he is a great worker, never gives up until the finish line is reached, and displays good judgment and cleverness in his races.

Hilton Belyea, who finished second to Logan in the three-mile event at Montreal, is in the St. John ranks, and in the amateur ranks and, judging from the time he made in his races, it is just a question if he is not faster than the professional champions.

Though short and stocky built, he can make his legs go like a machine, he is both the speed and endurance to outdo the longer chaps, who apparently have an easier time with their long stroke.

St. John may well feel proud of the honors he has brought here and his future on the steel blades will be watched with interest.

A telegram from Dr. J. W. Daniel, M. P., calling the mayor's attention to the action of the C. P. R. in asking for full running powers over the I. C. R. and suggesting that his worship should ask for assurance from Hon. H. R. Emmerson that the winter port business would not be affected, was received at city hall yesterday.

FEN PARKER

JIMMY PRICE

A despatch was sent to the minister of railways requesting information, but at midnight no reply had been received.
 The situation was somewhat complicated as the first telegram received from Dr. Daniel was not punctuated, and was open to more than one interpretation. It ran: Ottawa, Feb. 6, 1907.
 Mayor Sears, St. John, N. B.:
 Shaughnessy backed by Fielding with Emmerson's Protest against any arrangement that will endanger winter business.
 The following query was rushed over the wire to Ottawa:
 St. John, N. B., Feb. 6, 1907.
 Your despatch ambiguous, unpunctuated, Emmerson with Shaughnessy and Fielding interfering with our winter port arrangements.
 EDWARD SEARS, Mayor.

A prompt reply explanatory of his first telegram came from the St. John member: Feb. 6, 1907.
 Mayor, Sears, St. John, N. B.:
 P. R. asking full running powers, including local business over I. C. R. Cannot tell effect on winter business without assurance from minister and Shaughnessy. I want you to get that assurance.
 W. DANIEL.

In accordance with Dr. Daniel's wishes the mayor at once wired Hon. H. R. Emmerson, asking for the assurance and explanation desired. The telegram was as follows: St. John, N. B., Feb. 6, 1907.
 Hon. H. R. Emmerson, Minister of Railways and Canals, Ottawa:
 Will you inform the mayor what are the demands of the C. P. R. and how much the government are willing to concede to them, and how our winter port business is likely to be affected? St. John anxious to preserve what she has secured.
 EDWARD SEARS, Mayor.

CHAMPLAIN FUND

The fund for the Champlain monument was increased yesterday by \$85. The total to date is well up to \$7,300, leaving a little more \$2,700 yet to be subscribed. The indications are that the fund will be greatly augmented today by individual subscriptions.

Among the subscriptions yesterday was a check from Dr. W. W. White, ex-mayor of the city, for \$50. Dr. White testified in this handsome manner his approval of the scheme for the erection of the statue of the great French discoverer.

In the afternoon the Canada Permanent Corporation sent in a check for \$25. Ald. Baxter and Alexander McMillan contributed \$5 each.

It is desirable that all citizens who intend to contribute should do so as quickly as possible. All sums so received will be acknowledged through the press. It is hoped that the city and provincial government will view this matter in a generous spirit and that their grants towards the erection of the Champlain statue in St. John, which would do so materially to the beauty of the city and be a source of genuine delight for future generations will be proportionately large. The contributions to date are:

Have You Got It?
 THE LOOSE LEAF SYSTEM
 General storekeepers and dry goods merchants cannot afford to ignore the value of a simplified system of book-keeping. No business man should attempt to run his business without what has come to be known as the loose leaf or continuous ledger system. This system into his business should do it today.
 It will be the cheapest investment he ever made. No matter if you look after your own books or employ bookkeepers it will cut down expenses and save time. In this way the system pays for itself over and over again. More general storekeepers have failed through lack of system than from any other cause—Dry Goods Record.
 Write us a card or telephone 214 and we will send our expert, who will fully explain this system to you, and install one if you want it.
