Australia's patriotic participation in Australia's patriotic participation in the war has "placed the Commonwealth on the map" with English-speaking and allied people, Hon. Mr. Connolly pointed out. The Commonwealth has contributed nearly 400,000 troops, or about nine per cent. of its total population. If has accumulated a heavy war liability in the transport of its troops for over 16,000 miles, the payment of its soldiers and the allowance to their dependents. It proposes to meet its probsoldiers and the allowance to their dependents. It proposes to meet its problems by an energetic and enterprising after-the-war policy, in which immigration will play a large share. A complete scheme of land grants for returned soldiers has also been perfected, with financial assistance, free instruc-tion by the agricultural department, and technical training for those not fit to go upon the land.

Wages Regulated

Wages Regulated

Wages in Australia, said Mr. Connolly, were now regulated by an arbitration court presided over by a supreme court judge and comprising a representative nominated by the employes and another by the employers.

The minimum wage for unskilled labor. The minimum wage for unskilled labor is ten shillings (\$2.50) per day. Mr. Connolly also pointed out that, under existing Australian legislation, there is no incentive to would-be war profiteers to make war profits. A superhis state in the Australian Common-income tax was imposed on a graduat wealth. He has been a member of the scale which annexed for the state last two Liberal governments, first as share of all profits, in some cases fifty

# FATAL TO LIFE

Essentials of Life (5) From our experience there are a very large number of homes in which the present high price of foodstuffs is bearing so heavily upon people generally, and especially upon the nourishment of children, that it is the more difficult to get many women to put the substi-tution of other food for bread, beef and bacon ahead of the consideration of

We therefore respectfully suggest: (a) That the food controller endea-or to find means to effectively control, and if possible to reduce, the price of such vital foods as bread, butter and milk, and of all foods distributed through cold-storage plants, including the price of recommended substitutes;
(b) That all restrictions upon the importation and sale of oleomargarine be suspended during the continuance of the

war;
(c) That the food controller investigate the effect of curtailing the manufacture of ice cream and the use of milk otherwise than as a food; (d) That he consider the possibility of regulations making the price of bread one day old and of brown bread cheaper than that of fresh white bread;

(e) That he be requested to introduce regulations prohibiting the grinding of flour in Canada for Canadian consumption finer than, say, 75 per cent, of the weight of the wheat.

(6) We most respectfully urge that full publicity be given to any difficulties there may be as to the enforcement mmediately or at any time of any such regulations as the above, feeling conf

Gentlemen:

"Meeting your representative in the city a few days ago reminded me a public duty unperformed.

About four years ago I wrote you of my condition from Muscular and Inflammatory Rheumatism, and kidney Trouble and my efforts through travel and change of climate to rid myself of these unwelcome guests, and how I only found relief in Gin Pills lafter spending a lot of time and money in foreign lands.

Since then Gin Pills have been my sheet anchor. I find in advancing years a tendency of the kidneys to get out of order more easily than formerly but a few doses of Gin Pills puts them right and wards off other and more serious trouble. When I remember what I endured through Kidney Trouble and Rheumatism and the freedom from these which I now enjoy, I feel it not only a duty but a pleasure to recommend Gin Pills for Kidney and Bladder Troubles to my thousands of personal friends throughout Canada to whom I am well known as a commercial traveller of ever forty years' active service.

Yours truly,

People get a pain in the back or side, and they immediately have a vision of operations and big bills. In a vast number of cases the trouble comes from disordered Kidneys. We have received a number of letters such as the following:

Halifax, N.S.

"I suffered untold misery even when under treatment from the best doctors for over ten months and nothing seemed to do me any good or relieve my pain ful condition. My trouble was inflammation of kidneys and bladder. I finally determined to go to Victoria Hospital, Halifax, for treatment.

Two days before my intended departure a neighbor called and happened to have some Gin Pills with him and insisted on my taking them. I did so, and six hours after taking the fixed dose the effects were simply miraculous. Instead of going to the hospital result that I am a well man. I recommend Gin Pills to everyone suffering from kidney trouble."
