

The Evening Times and Star

The St. John Evening Times is printed at 27 and 29 Canterbury Street every evening (Sunday excepted) by the St. John Times Printing and Publishing Co. Ltd., a company incorporated under the Joint Stock Companies Act.

KEEPING THE LID ON. With elaborate politeness, and an utter absence of abusive epithets, in very striking contrast to its tone of two days ago, the Standard of this morning tells Mr. E. S. Carter that if he will make a charge against any member of the government or legislature it will be at once investigated.

Two days ago the Standard told Commissioner Chandler that he could not properly investigate the charges made by Mr. Carter. Yesterday the Commissioner told Mr. Carter that the charges did not come within the scope of his enquiry. That settles it so far as Commissioner Chandler is concerned, and the facts must be brought out in another way.

But the government and its friends will not be able to keep the lid on Mr. Carter's charges as true, and will be substantiated in spite of the government's brazen refusal to have the matter investigated. The failure of the government to order an investigation merely deepens the unpleasant impression this whole scandalous affair has made upon the public mind.

The government has been given the opportunity to prove the truth of its loud professions of a desire to expose and punish all political wrong-doers, and has proved instead its utter insincerity. When all the facts are laid bare the person who will understand why an enquiry has been refused. And the facts will be laid bare. Neither threats nor cajolery will prevent that result.

PUT TO THE TEST Today's Standard says: "The Standard can state on the authority of the government of New Brunswick that no member of the government, or of the legislature, has received, demanded, asked for or solicited any contributions of money from liquor dealers in the city of St. John, or from any other person; that no campaign fund has been received, demanded, asked for or solicited, directly or indirectly, from these people or from any others."

MORE RECRUITS NEEDED. In the city of Halifax a special recruiting campaign is in progress with a capable publicity committee at work, and systematic effort to fill up the ranks of the Nova Scotia Battalion at Valcartier. The Echo very truly says that as long as the ranks of the battalion are not filled there is a reflection upon the province of Nova Scotia.

CHILDREN'S OUTING. An outing referred to in the Times a few days ago as having been given to the children of St. Vincent's orphanage, was given to the children of the Good Shepherd Monastery.

If we approve of the decision to fight we must help to make that fight victorious. It can only be done by sending enough men and munitions to the front, and, if recruiting falls off, where are the men to be got? Not only should the people on Aug. 4th reaffirm their approval of Britain's course, but re-dedicate themselves to the prosecution of this war as the chief business of Canada until the victory has been won.

CHEERING CROP OUTLOOK Canadian Pacific Railway officials are very optimistic about the crops in the west and the good effect a great harvest will have upon the country. The Montreal Gazette says: "In 1909 the crop in the west totalled 144,000,000 bushels, and was thought to be a bumper one. It is expected that this year the crop will be between 225,000,000 and 240,000,000 bushels—that is the figuring out of the agents who report regularly to the C. P. R. headquarters. Mr. Bury, vice-president of the C. P. R., has found in the west that the increased acreage averages 25 per cent over the country. Mr. Morley Donaldson, the general manager of the Grand Trunk Pacific, said a day or two ago to The Gazette that he had seen a stretch of waving wheat 1,000 miles in extent, while in the reports received by the C. P. R. from day to day it is mentioned that in one instance there is a field 6,000 acres in extent—a single field of wheat, and the wheat 42 inches high and headed out. There are, of course, many fields from 2,000 to 3,000 acres in extent, but a field of 6,000 acres is worth noting."

The Gazette adds that there is a general conviction that the crop will be all over the country. Mr. Morley Donaldson, the general manager of the Grand Trunk Pacific, said a day or two ago to The Gazette that he had seen a stretch of waving wheat 1,000 miles in extent, while in the reports received by the C. P. R. from day to day it is mentioned that in one instance there is a field 6,000 acres in extent—a single field of wheat, and the wheat 42 inches high and headed out. There are, of course, many fields from 2,000 to 3,000 acres in extent, but a field of 6,000 acres is worth noting."

Mr. John J. Robichaud, his cook and cooker, have been making highway his toey in Gloucester county. Commissioner Chandler is getting it on the record, with Mr. Veniot's able assistance.

German societies in the United States are passing resolutions protesting against President Wilson's last note. If Uncle Sam finally goes to war these gentlemen will have to stop passing resolutions or pass them behind the wire fence of an internment camp.

The suggestion of the Ottawa Citizen that Sir Robert Borden's Nationalist friends in the cabinet should go down into Quebec province and make some recruiting speeches in Montreal, and wherever their friend Mr. Bourassa's teachings have stirred up trouble, must surely commend itself to those patriotic gentlemen. Hon. Messrs. Blondin and Severyn might set the pace. They have discussed the British flag with much vigor in times past. Why not now?

Canadians will not "celebrate" Aug. 4. They will celebrate victory at the end of the war, but there is too much serious work to be done for any celebration at present. Rather let the people on Aug. 4 solemnly re-dedicate themselves to the cause of the Empire in a way that still threatens its existence and still calls for patriotic service in some capacity from every citizen. One good way to signalize the day would be to announce that the ranks of the 55th Battalion had been filled. Can that be done?

Every 10c Packet of WILSON'S FLY PADS WILL KILL MORE FLIES THAN 58<sup>00</sup> WORTH OF ANY STICKY FLY CATCHER

LIGHTER VEIN. "I believe," said the impatient man of the Washington Star, as he put aside the telephone, "that I'll go fishing."

"Humor of the Schoolroom," contributed by teachers to the Associated Sunday Magazines, we read: The subject for the hour was physiology. I was explaining the nature of the spinal column to a class of twelve-year-olds. After finishing the discussion I said to a little Irish boy—"Now, Michael, what is the spinal column?"

Laps. Father—Why did you and John talk about last night, dear? Daughter—Oh, we talked about your new hat. Small Brother—Yeth, pop, I heard em—he selt, Kin I hev a kith? and she says with you kin? Old Lady (having run upon a street light)—"Dear, dear! what's going on out there, my man?"

The Enterprise "Blazer" Hot Air Furnace for 1915 Many people are now considering the best way to heat their homes this winter. We invite your attention to the "BLAZER" as one of the best furnaces yet produced. It embodies the latest ideas in construction and has many new features, including a patent fire pot, which in itself is one of the most important features ever introduced in a furnace.

This is The Range That Advertises Itself! The New Champion Steel Range is snug, plain and handsome. In finish it can't be beat. It has all modern improvements desired in a range. The patent fire back gives you more heat with less fuel than other stoves. We are selling these stoves to people who have seen them in use, where we have installed them, and are fully convinced that The New Champion Steel Range is a baker, a fuel saver and an ornament to their kitchen.

SWIFT RETRIBUTION General Oscar, governor of Port Au Prince, Hayti, was executed by a mob at the entrance to the Dominican legation, Port Au Prince, yesterday. A fusillade of rifle shots ended the career of the governor who had put to death 160 political prisoners following the revolutionary outbreak. The mob attempted to kill President Guillaume, but he took refuge under the French flag.

To Discard Freckles, Tan, Pimples, Wrinkles The use of creams containing animal substance sometimes causes hair to grow. You run no risk of acquiring superfluous hair when you use ordinary mercurized wax. There is nothing better for a discolored skin, as the wax actually absorbs the offensive cuticle. The latter is naturally replaced by a clear, smooth, healthy complexion, full of life and expression. It's the sensible way to discard a freckle, faded, over-red, blotchy or pimpled skin. Get an ounce of mercurized wax at any drugstore and apply nightly like acid and water. If it takes a week or so to complete the treatment, it is worth the wait. The ideal wrinkle remover is made by dissolving an ounce of powdered ancolite in a half pint witch hazel. Bathing the face in this solution brings almost instantaneous results.
