NORTHCLEIFFE NOT GUEST AT EMBASSY

Says Curzon Has Carried the Fight to Washington.

Declares Minister is Employing Methods used in India Against Newspaper Men Who Went Against Him.

Washington, July 29.—Because "for reasons of which he is not aware," an invitation to stay at the British embassy while in Washington has been withdrawn, Lord Northcliffe, the British publisher, now visiting the U. S. is listed among the patrons of a local hotel today. Disclosure that embassy hostilities previously tendered had been barred to the British publisher, made in a statement issued by him after his arrival in Washington yesterday, and on being asked as to rumors that invitations to stop at the embassy and attend a dinner there last night had been withdrawn on instructions from London.

That Lord Northcliffe, views the incident as the outgrowth of recent editorial attacks on the royal George and Lord Curzon, the British foreign secretary, in the London Times, the chief Northcliffe paper, opposing the suggestion that officials represent Great Britain at the Washington disarmament conference, is left in little doubt by the publisher's statement.

"Knowing the methods in India of Lord Curzon," the statement declared, "Lord Northcliffe is pretty certain that Lord Curzon has adopted those methods here."

The editorial attacks were followed down on the privileged news rights enjoyed there by the Times for years. "In India while vicerey," Lord Northcliffe's statement continued, "Lord Curzon cut off the news supply of newspapers that criticized him and placed a social embargo on their writers. On the present occasion Lord Northcliffe says Lord Curzon is not dealing with Indian natives or the owners of small Indian newspapers."

Beyond the statement that the reported circumstances of the withdrawal of the invitation were "inappropriate," the embassy had nothing to say about it. Lord Northcliffe added in his statement that he was "somewhat concerned" concerning the "cancelled embassy dinner," by the fact that he will meet at a private dinner with the British ambassador.

The British Embassy was in semi-darkness last night. It was learned that the invitation to Lord Northcliffe to make his home at the British Embassy during his visit to Washington was extended by Ambassador Geddes several months ago and long before the London Times criticized Lord Curzon as an unfit person to represent Great Britain at the disarmament conference called by President Harding. As set out in Lord Northcliffe's statement, he and his friends of long standing and it was understood that the extension of hospitality in the embassy and his staff was on a purely personal footing.

MAXIMUM FEE FOR OPERATION \$1,000

Physicians Attending Hospital Patients \$35 a Week—Dictum of Johns Hopkins Trustees.

Baltimore, July 29.—The board of trustees of the Johns Hopkins Hospital yesterday issued the following dictum: "The maximum fee that any surgeon ought to charge for an operation, no matter how wealthy the patient may be, is \$1,000. The maximum charge that any physician ought to make for attending patients in a hospital is \$35 a week. The dictum takes on the force of an order to physicians and surgeons practicing in the hospital, limiting fees. The ruling was issued after long consideration of all the conditions surrounding physicians and surgeons, the cost of living, scale on which physicians and surgeons required to live, and the like. It is in many eminent scientists at the hospital concurred."

DEATH WINS IN RACE WITH AIRSHIP

Lima, Ont., July 29.—Death won in a cross continental airplane race when Timothy Spellacy aged sixty-three, a Los Angeles oil man, died here in hospital as his brother, Michael, raced eastward from Tulsa, Okla., to his bedside.

Fifteen minutes after receiving a message that the death of his brother was imminent, Spellacy had engaged an airplane and the race began. Death came yesterday before the Tulsa man reached Lima.

IN COUNTY COURT.

THE GOVERNMENT'S POLICY

Three harbor commission acts were passed before the St. John act was proposed.

If the government found it could not live up to the terms of any of them, why put the same terms in the St. John act? Was it because Mr. Ballantyne says that hereafter the government policy will be to call upon all the harbor commission ports to live up to those terms? But those terms applied to St. John would prevent the development the citizens desire. Defeat the act and call for a square deal.

MORE FIRES IN PROVINCE WOODS

General Situation Again is Precarious.

June was Record Month for Marriage in New Brunswick—Fredericton Men Chased by Moose on North Shore.

Fredericton, N. B., July 29.—Conditions generally are as precarious in most parts of the province. Newcastle experienced some showers yesterday and heavy rain fell at the Bald Mountain look-out. A shower fell here this morning between six and seven o'clock. Fires still continue to break out. The telephone lines are out of order.

Another blaze near Minto burned over fifty acres, but is now under control. This fire started yesterday afternoon.

A fire reported from Rockwell yesterday is now extinguished. Only one acre was burned over. Reports have not been received from two other fires reported by the department of Lands and Mines yesterday.

On Thursday afternoon a blaze was reported from Woodland on the Nashua River. Owing to a defective fuse the house of John Pond, of that place, caught fire and the flames soon spread to the two barns, both of which were destroyed. The strong wind carried burning shingles to the wood in the vicinity and started a fire there. About two acres of woodland were burned over. The fire is now extinguished.

The department of health of New Brunswick reports 987 births, 382 marriages and 383 deaths during June. The month shows the great number of marriages and a very low death rate.

J. H. Grisdale, of Ottawa, deputy minister of agriculture, and J. A. Ruddick of the Dairy and Cold Storage Commission, arrived in Fredericton Thursday afternoon on a tour of inspection of creameries and farms in the upper St. John Valley. They state that Madawaska and Victoria counties have crops superior to Carleton and Victoria counties and compare very favorably with those of Ontario and Quebec. Harvey Mitchell, deputy minister of agriculture for New Brunswick, accompanied them. Mr. Grisdale returned to Ottawa and Mr. Ruddick went to Prince Edward Island.

Leslie Wood, N. B. poultry superintendent, and J. K. McIntyre, have returned from the North Shore where they were working in the interests of poultry. They report wild game plentiful. They were chased some distance in a road by a bull moose.

LABOR MINISTER HAS CRITICISM OF SOME MERCHANTS

Says Some Manufacturers and Retail Men Cry Buy in Canada and Charge War-Time Prices.

Hamilton, Ont., July 29.—Domestic manufacturers and retail merchants who cry "Buy in Canada" and yet hold out for war-time prices for their goods, were warmly criticized by Hon. Walter Rolfe, minister of labor, at a mass meeting of unemployed.

To such business he strongly commended the attitude of manufacturers and retail merchants of the United States, who had accepted their losses courageously, he said, because they believed that the sooner they did so the more quickly would industry and commerce be rehabilitated.

CAUTION NEEDED TO PREVENT RUPTURE

Relations of England and France Over Silesia.

General French Public Not Apprehensive But in Some Circles View is Taken That Entente Has Ceased to Exist as Originally Planned.

Paris, July 29.—The instance of both Premier Briand of France and David Lloyd George, on their divergent views as to the procedure to be adopted in settling the Upper Silesian question is being followed in political circles, with intense interest. It has not, however, caused any apprehension on the part of the general public or serious consequences foreshadowed by the pessimists a week ago.

The mere fact that the question of procedure has become the subject of cabinet deliberations in both countries is being emphasized, that, according to the meaning that both sides consider the negotiations have almost reached a deadlock and require complete direction to prevent a rupture.

The opinion being more and more freely expressed in circles not particularly pre-British is that the Entente has ceased to exist as originally planned, that British statesmen no longer, with the original object of the Entente, is eliminated in the British mind, while divergent interests make the maintenance of such an understanding difficult.

Official circles do not encourage the idea that a rupture of the Entente would be a matter of indifference for France. They maintain optimism with respect to Franco-British relations, on whose co-operation a solution of many problems is held to depend. Lord Hardinge, however, is foreshadowed by unofficial political critics.

Paris, July 29.—Great Britain's reply to the latest French note on the Upper Silesian question was delivered at the foreign office this morning by Lord Hardinge, British ambassador in Paris. The cabinet will meet at 3:30 o'clock to consider the British reply.

The British Note. London, July 29.—Great Britain's note to France regarding the Silesian problem refutes the allegation that Great Britain is not in agreement with the French and was thereby strengthening the German attitude. Officials describe the note as a friendly character, in marked contrast to the attitude displayed in the French note to which it is a reply.

The note states that the French declaration, is still anxious to consider any means by which the French can be met, but it is not prepared to accept the terms being received in London, there is no danger threatening the French position in the Upper Silesian area, as reinforcements are being sent, as the French have contended.

The note calls attention to what is described as "the extraordinary action on the part of France" in endeavoring to act independently of the supreme council in insisting upon the immediate dispatch of troops. It points out that this is an impossible basis upon which to pursue any future policy together and that no good purpose will be served by further insistence upon a policy which the note further expresses the view of the British government that "it is not in the best interests of the world that the French note represented the considered opinion of the French government."

WORD OF CHEER FOR HILTON BELVEA

The Mayor Sends a Telegram of Encouragement—Good Weather at Course for Today's Race.

Mayor Schofield this morning sent a wire to Hilton Belvea, wishing him luck at the aquatic regatta in St. Catharines this afternoon and encouraging him to keep up the good work for the honor of St. John.

St. Catharines, Ont., July 29.—Weather is perfect for the Canadian Henley this morning, cool and windless though rain threatening. The Henley course is smooth and some of the oarsmen were out early.

Last night there was a little gathering of C. C. A. O. members at the Club, at which Mayor Lovelace welcomed the oarsmen to the city, expressing the hope that the added interest and extra efforts put forth by St. Catharines this year to provide proper accommodations for oarsmen would result in the Royal Canadian Henley becoming a permanent fixture in St. Catharines, as was the intention when the course on the Welland Canal was first chosen about a score of years ago. Mayor Church, Toronto, replied briefly.

THE JINNEYS.

A set of by-laws is now being prepared by the city covering the parking of Jinnys in the public streets. So soon as these have been put into effect, the cars will be moved from in front of the shops in King street to the regularly appointed parking place on the north side of King square. Robert Harris, who was recently appointed inspector, was today engaged in checking up the drivers of vehicles for chauffeurs' licenses, and warning those not in possession of a certificate that it must be obtained immediately from W. H. McQuade, provincial inspector of taxation.

As Hiram Sees It

Two women were seen as they got old Pete Hicks out to the Settlement to vote for the dog.

"I do not believe I did," said the reporter. "They told him," said Hiram, "that it wouldn't apply to his dog. I spoke to him here in St. John now he'd vote for harbor commission because somebody told him it didn't mean the harbor commission act."

"Very likely," said the reporter. "I am sure that there are Hicks in the city. The advocates of the commission act say so, and I suppose."

"Mebbe they don't know," said Hiram. "Mebbe they are only guessin'."

"Well," said the reporter, "we will know on Monday."

"I said here in St. John now he'd vote for harbor commission because somebody told him it didn't mean the harbor commission act."

LOSS MAY PROVE NEAR MILLION

Trail of the Missing Bank President Leads Towards Alabama.

Chicago, July 29.—With the trail of Warren C. Spurgin, missing president of the closed Michigan Avenue Trust Company, apparently leading to the vicinity of Mobile, Ala., and authorities predicting a speedy apprehension, attorneys and investigators today continue their delving into affairs of the defunct institution and its president.

Jas. McShane, assistant state's attorney, said that Spurgin, another man as the closed Michigan Avenue Trust Company, apparently leading to the vicinity of Mobile, Ala., and authorities predicting a speedy apprehension, attorneys and investigators today continue their delving into affairs of the defunct institution and its president.

Spurgin left Chicago on July 15, today intimated that the loss would be in the neighborhood of \$1,000,000. That depositors might expect to retrieve sixty-five cents on the dollar.

The conference reaffirmed the scheme whereby each dominion is responsible for its own coast defence. The British Meighen will sail for Canada tomorrow on the Carmania. Hon. C. B. Callaghan, Canadian minister of marine, will sail on the Empress of France on August 4.

CIVIL WAR IN CHINA HEAR

Fear Uprising Along Yangtze-Kiang River.

Southern Government Sends Invading Troops Into Province Under Control of the Peking Government.

Peking, July 29.—Fear of a general uprising along the Yangtze-Kiang river is felt here as a result of hostilities between the provinces of Hunan and Hupeh, the former under control of the Canton or southern Chinese government, and the latter under jurisdiction of the Peking or duly constituted Chinese government.

Troops from Hunan have invaded Hupeh with the evident intention of ousting Wang Chan-Yuen, inspecting commissioner of the two provinces, whose authority, however, is not recognized by Hunan. Wang Chan-Yuen is one of the three "war lords" who met recently at Tien-Tsin, to impose their will upon the Peking government, causing a re-organization of the cabinet.

Dispatches from Canton, seat of the southern government, would seem to indicate that the invasion is prompted by Dr. Sun Yat-Sen, head of that government, and in line with his plan to establish a coalition of the Yangtze-Kiang and southwestern provinces against Peking.

Canton, July 29.—The constitutionalist government here has issued instructions to the provinces of Hunan, Sze-Chuen, Kwan-Tung, Yün and Szechwan to cooperate in efforts to abolish the military domination of the Yangtze-Kiang river territory by the Peking government.

Troops from Hunan and Sze-Chuen provinces are advancing for the purpose of eliminating Wang Chan-Yuen. In addition to these troops, the Canton government has dispatched forces from three other directions with Dr. Sun Yat-Sen, head of the Canton government reported to be personally leading one division.

RED JELLYFISH STING BATHERS

Thousands Driven from Nantasket Beach and 150 Sent to Hospital.

Boston, July 29.—More than 150 bathers were treated in a hospital and thousands more driven from Nantasket beach and adjoining beaches yesterday when a school of red jellyfish drifted ashore and severely stung all who came in contact with the tentacles.

This species of red jellyfish is commonly known as "Stingaree" and sometimes the "Australian Stingaree," because it is commonly found in Australian waters. The tentacles exude a poisonous substance which infests the skin and causes swelling and pain.

The despised Sparrow, of the coast-guard station at Hull, said that never before in a lifetime spent on New England shores, had he seen so many jellyfish. He attributes their presence to unusually hot weather. Hospital physicians at Allerton assert that it is not likely that one of those stung would suffer more than 12 hours.

SOME DAYS BEFORE CABINET FORMED

May be Eight in Alberta Government—Woman may be Minister of Public Health.

Winnipeg, July 29.—Premier-Elect Greenfield of Alberta is not likely to announce his cabinet for ten days or a fortnight, according to some of the members-elect of the United Farmers of Alberta who have returned to Edmonton, says a special despatch from that city to the Manitoba Free Press.

According to present indications, says the despatch, the new cabinet will consist of eight instead of seven members as at present. Mr. Greenfield is likely to take over the portfolio of municipal affairs in addition to the premiership.

Public works and labor will likely be amalgamated under Alexander Ross, Labor M. L. A. for Calgary, or Y. E. Smith, U. F. A. member for Camrose, say the correspondent of the paper.

Hon. C. W. Cross, attorney-general under the Rutherford regime in Alberta ten years ago, is understood to be under consideration for the attorney-generalship, as is John Brownlee, U. F. A. counsel in Calgary.

The despatch says that Perrin Baker of Medicine Hat seems certain of the department of education, and Mrs. Pearlby, of that of public health.

The portfolios of provincial secretary and treasurer are likely to be amalgamated. J. C. Clark, former U. F. A. member at minister of agriculture, and Geo. Hoelzer, who was spoken of as a possibility for the premiership, is now said to be the choice for speaker.

ABOUT TAXATION

It is darkly hinted that if the people reject the harbor commission act taxes will go up.

What about the \$175,000 to \$200,000 additional burden put upon the harbor before a new dollar is spent? Do not forget that harbor revenue must provide three and a half per cent on the cost of the grain elevator and government wharves, including the marine wharf, and must also provide the increased cost of administration. Whether you call it direct or indirect taxation there it is. How much will be left to provide interest and sinking fund of new expenditures? Think it over.

JAP DECISION WELCOME ONE

London Newspapers on Acceptance of U. S. Invitation for Conference.

London, July 29.—Liberal newspapers here are expressing hearty approval of the Japanese government's decision to accept President Harding's invitation to discuss limitation of armaments and the Far Eastern question.

The "Times" says "Japan's best friends knew that she would accept the invitation but the fact that her acceptance was actually on record is a relief to all who realize the magnitude of the issues with which the conference will be confronted."

Speaking of the constant temptation "politicians with the narrow motives," will find to drag subsidiary questions from the conference, "in order to make capital for themselves," the Times says every precaution must be taken to guard against such proceedings in Washington.

"From this viewpoint, Japan's desire to limit the scope of the agenda is to be approved," the newspaper declares. The writer also is complimentary that Japan is making reservations as to what shall be discussed at the conference is not acting merely from a desire to safeguard her present interests in the Pacific, but also under a strong impulse to reduce the burden of naval armaments. The editorial concludes with the hope that "friendship tried and proved in alliance, may be broadened and deepened in a greater union that will be a sure bulwark for peace."

Washington, July 29.—Informal negotiations over the date for the disarmament conference have begun here by the U. S. government suggesting September 11, 1922, and Japan replying that a time not later than armistice day, November 11.

U. S. SHIPPING BOARD AGGRESSIVE

Adopt Measures for "Fair Treatment" in Trading Privileges in Foreign Ports.

Washington, July 29.—Aggressive measures have been adopted by the shipping board to insure fair treatment for U. S. merchant ships in the award of trading privileges in foreign ports.

Although partially revealed by negotiations now in progress, the board's policy is understood to rest on the proposition that other nations must give every proper opportunity to ships which risk of encountering retaliatory measures placed within the prerogative of the board by the new shipping act.

A situation which has brought the board's policy into prominence exists at Alexandria, Egypt, in relation to contracts for the carriage of Egyptian cotton to the United Kingdom and the U. S.

In view of the board officials, the unreasonable attitude toward admission of U. S. vessels to that trade and strong representations have been made which confidently are expected to have the desired result.

A delegation of representatives of the Lumbermen's Association of the province will not appear before the government meeting at Fredericton next week, as announced previously, but will be heard at a special meeting of the executive council which will be held in St. John some time during the second week in August. It is understood that the lumbermen will ask that the stumpage rate be reduced on account of the present business conditions.
