

GOOD THINGS COMING TO THEATRES OF ST. JOHN

"JACK AND THE BEANSTALK" HERE

Imperial to Show Monster Fairy Tale Production Tomorrow Afternoon Only as Special Easter Feature

Late afternoon the Imperial managed to snap up a special matinee attraction for old and young tomorrow afternoon, which will be the last picture show to be given in the Imperial before Friday owing to the engagement of the dramatic company putting on "Tea for Three."

This grand Easter matinee feature will be a stupendous ten-reel version of the well-known fairy tale "Jack and the Beanstalk"—the adventurous fiction of brave little Jack, the fierce giant and all the other fairyland creatures. It is a Fox feature in which the wonderful little Lee children take part.

Therefore, let it be clearly understood that tomorrow afternoon starting at two o'clock and again at 8.45 there will be two amazing shows of ten reels each warranted to transport the children and grownups into the fancied realm of good and bad fairies, giant and midgits with a musical programme in connection with it which will turn the Imperial and its patrons into one grand holiday house party.

ALL NEW TONIGHT AT OPERA HOUSE

The regular change of vaudeville programme at the Opera House tonight offers Stoddard and Hynes in a novelty musical act, "The Absent-Minded Professor," Charlie Martin, the singing cowboy; Scanlon, Demmo and Scanlon, in a variety dancing novelty; Mona Gray and Sister, in a high class vocal and piano offering; Harry Gonsion, character comedian; and the twelfth chapter of the serial "The Iron Test." This evening at 7.30 and 9 o'clock; tomorrow afternoon at 2.30.

"VOICE OF WARMTIE"
Concerning Miss Katherine La Sheek who is coming here May 8 and 9 with New York Light Opera Singers the Cedar Rapids Republican says:
"Katherine La Sheek, contralto, was soloist at the evening concert, it was a great pleasure to listen to her rich contralto tones, a voice that has warmth and much beauty."

Hear these singers at the New Theatre in Cliff street in the new Catholic school.

IN WALL STREET.

New York, April 22.—Fractional recessions in United States Steel, Marine Preferred and several other leaders detracted from the general strength of the stock market at the opening of today's session. In the main, however, gains predominated, motors and their subsidiaries, oils, equipments and leathers showing a firm to strong tone. Rails also hardened under guidance of Southern Pacific, Reading and St. Paul, with a further inquiry for low-priced issues.

Non Report.

Rails assumed a dominant position later, especially secondary coals and shares of railways traversing ore-bearing sections of the west and south. Gains of one to three points were scored by Chesapeake and Ohio, Baltimore and Ohio, Pittsburg and West Virginia, Missouri Pacific, consumer and preferred, Kansas City Southern, Rock Island, St. Louis and San Francisco, St. Louis Western Preferred, Colorado Southern, New Haven and Erie. Among investment rails Pacifics and grangers and cotton carriers were one to two and a half points higher. Movements elsewhere were extremely erratic, reactions of one to four points occurring in shipings, steels, equipments, motors, oils and tobacco.

SEES LITTLE CHANCE OF RETURN TO THE FIVE CENT LOAF

Chicago, April 22.—New high price records for the season continued to be scored today in the corn market. The principal fresh incentive to buyers was a statement from the federal wheat director that he saw little chance for a return of the five cent loaf of bread, and that European supplies of foodstuffs would be even smaller this year than last year. On the advances which ensued, heavy profit-taking sales developed and led to setbacks. Opening prices, which ranged from the same as yesterday's finish to 1 1/2 cent higher with July \$1.85 1/2 to \$1.90 and September \$1.64 1/2 to \$1.65, were followed by moderate further gains and then a series of reactions. Oats duplicated the action of corn. After opening 1/4 cent off to 1/2 cent advance with July 70 cents to 70 1/2 cents, the market hardened a little and then tended to sag.

Provisions were somewhat easier despite upturns in the value of corn and hogs. Aggressive support was lacking.

HARBOR WHISTLES WELCOME AUSTIN

"American Boat" Comes Into Port After Years of Absence Because of War

Amidst a great blowing of whistles and sirens the S.S. Calvin Austin steamed up the harbor this morning and docked at 1.40 (new time) at the Eastern Steamship Company's wharf.

This is the first trip made on this route since Nov. 22, 1917, when the North Star sailed from here under Captain Ingles, who is now in command of the Calvin Austin.

The Austin made a very pretty sight as she gracefully glided into her berth. She has been completely overhauled and painted from bow to stern and looks like a vessel on her maiden voyage.

There were about fifty passengers on board and 300 tons of freight. The Austin made the trip from Boston in seven hours and will leave again tomorrow on her return journey. Her welcome was a hearty one from the "American boat" was one of the institutions of the harbor and it was given, even to the demands of war-time.

A LIQUOR CASE

Matthew Ramsey was in the old court this morning charged with supplying liquor to Howard Robinson, who was arrested by Inspector McAlister in his room in the Prince Albert Hotel on charge of having liquor in his possession. Ramsey said that he did not know Ramsey and had never seen him before. He said he bought liquor from a man and gave the bottle to the inspectors but that was not the man. John Sime gave evidence that Robinson was a lodger in his hotel and had been for some time and that he was very quiet and calm, although at one time he did find a bottle of liquor in his room and warned him not to let it out again or else he would have to ask him to leave the hotel. The case was postponed until Friday at 2 o'clock. Ramsey is out on deposit and Robinson and another man named Long, who were arrested in the hotel, were remanded to jail. W. M. Ryan appeared for Ramsey.

U. S. AND CANADIAN CASUALTIES

(Toronto Globe.)

A correspondent asks whether the total casualties suffered by the United States army were greater than those suffered by the Canadians in the great war. The United States army casualty list up to April 11, 1918, was—Killed, 196,884; prisoners of war, 4,534; missing, 4,228; total, 205,646. There was also a Marine Corps casualty list of 8,851, making the total for army and navy 214,497.

The latest available Canadian casualties were up to January 15, 1919, and were as follows: Killed, died or presumed dead, 59,147; wounded, 155,839; prisoners of war, 8,949; missing, 898; total, 214,833.

BUTTER PROFITEERING.

(Brookville Recorder.)

The butter situation in so far as the consumer is concerned is growing intolerable. The price is exorbitant. People cannot afford to pay the price demanded. The sum of sixty-seven cents demanded for a pound of butter is a price which is something amiss and some authorities are remiss in public duty. For according to a statement of the cost of living committee, the price of butter in 1918 was 47.67 higher than the same date in 1917. Butter started to advance in price after the 1st of September. It reached 67 cents per pound. Present indications are that it may go higher. The question arises why does the government allow such a price for butter? Is it to be sold in cold storage? Who are the gainers by such a course? Is there no regulation having the profit of butter or any other food commodity held in cold storage? The public want the butter and demand that the price be reduced. The situation demands a rigid and drastic change. Canada needs O'Connor or a man like him on the job. Profit in butter and other lines should be stopped.

(Continued from page 1)

Lt. Ryan (Croix De Guerre) a Brookville soldier, who enlisted in the 2nd divisional ammunition column, under Colonel Harrison, and served in France for more than three years. Lt. Ryan was gassed once. He described the trip on the Olympic as good, except for the last two days, which were foggy, making it necessary to run slow, so that the vessel was six days coming across. He said that the men were all well satisfied with the way they were used. He says that in Halifax the citizens did everything in their power to make it pleasant for them. Lt. Dodge, M. S. M., was also with Lt. Ryan in the same unit under Lt. Colonel Harrison.

S., St. John, one of the originals of the 10th battalion, served nearly four years, and was wounded once in the time, which made it necessary for him to be in hospital for some time. On being discharged from hospital he was sent back to France, where he served until the armistice was signed.

Corporal Robert Webb, 66 Guilford street, enlisted in 1914 and was transferred to the signalling corps and went to France with that corps. He was wounded severely. He wears the Mons medal and the service ribbon.

Sapper Philip Leo Harrington, brother of R. D. Harrington, plumber, Sydney street, was among the St. John soldiers to reach home this morning. He saw long and extensive service, having been overseas nearly five years. Although having gone through the whole fight he was only slightly wounded about a year ago. Sapper Harrington enlisted under Lieutenant P. E. Power, D. S. O., now O. C. of the signalling section at Ottawa, under whom he left St. John and crossed the Atlantic. He did not see any of the war and saw varied service overseas. Sapper Harrington has been through practically the whole war from the first shot fired in France to the signing of the armistice. He was given a hearty welcome home.

Gunner Peter E. Morrison, brother of Daniel Morrison, railway, and Morrison, Union street, returned this morning after four years of active service in France and Flanders. M., with bar and M. S. M., also a first contingent man, and Gunner J. J. RETAIL TRADE GOOD.

(Toronto Globe.)

So far as the wholesale dry goods trade is concerned this week, dealers report very little change. Business in a wholesale way is comparatively quiet in the face of reports from the retail trade which continue to be very optimistic. From every part of the country comes the statement that business is moving in a satisfactory manner, and merchants say that returns are well in keeping with those of previous years. This week particularly business has been good in preparation for the Easter holiday. The recent decline in the prices of cottons, varying from 17 to 20 per cent, is likely to be only transitory. Wholesalers state that war-time levels will prevail again shortly, for the reason that large orders are being given for export, and allotments already made are but a small part of what is to follow. Collections for the month to date have been very satisfactory.

LET HIM STAY ON GERMAN SOIL

(N. Y. Times, Editorial)

There are Germans in Germany, it seems, who, in counting over the various bits of outlying land, large and small, of which they think they should not be deprived by the League of Nations, include a certain desolate stretch of rock and ice down in the antarctic. Admittedly it was sighted and more or less explored or charted by German navigators, and the latter took possession of it in the way that has given what passes for good title in many parts of the world. And the Germans want it.

Now that this point has been raised, there is a useful suggestion in it as to what should be done with the interesting—and embarrassing—person who used to be the German Emperor. An approach to argument that he shall not be put to death has been reached by the arbiters of his fate, but they are still in doubt apparently, what to do with him—where and most conveniently can he be interned or sequestered for the rest of his life. Would it not be a variously happy solution of this problem to set him up in housekeeping with a few relatives and admirers somewhere on the coast of the great southern continent between Briscoe Island and Graham Land?

That is the region the Germans claim as theirs, and nobody would begrudge it to the most eminent representative of Germany. The climate is not very good, but life is possible there, and the penguins and seals are interesting subjects of study. Now and then an explorer would happen along to talk over old times with the ex-Kaiser, and the long nights would give him much leisure for thought about this and that. And it would be German soil, which Mr. Hohenzollern loves so much!

TEACHERS IN SESSION IN PROVINCE CAPITAL

Fredericton, N. B., April 22.—The executive of the N. B. Teachers' Association opened its meeting here last night and will continue its sessions until this evening. Westmorland and Albert counties were not represented on account of inability to return to the schools in time. It was reported that about forty-five teachers had joined the association and that about fifteen eligible to join had not. It was reported that the increase in membership was steady.

Last night and this morning attention was devoted to the preparation of a scale of salaries for teachers.

The intention is to have all members, present and future, sign an agreement to accept no salary lower than those named in the scale. If the school board do not grant such salaries, the teachers belonging to the association are to resign.

E. M. Carlyle, of Douglas, died suddenly this morning at the age of forty-four years from heart disease. His wife and two children survive; also four brothers.
