# THE HUMAN BODY IS AN ELECTRIC BATTERY

Startling New Discoveries Prove Beyond All Doubt That "Electricity is Life"

Men of Science Demonstrate the Value of Electricity as a Cure for Disease

Remarkable New Invention Meets With Great Success

That the human body is electrical is no longer a mere theory among scientists and up-to-date physicians. It is generally conceded to be an absolute fact. Professor Edgar L. Larkin, discussing the new physiology, writes as follows: "A man, brain and body, is a battery, and nerves correspond to wires. It is now certain that transmission of sensation over them is electric. Nerves have been cut and a galvanometer inserted. The needle moved, proving that nerve power is electric. The human system is an electro-chemical battery and the life principle is electrical. The electric age is here. Drugs are hard hit on all sides, and an intelligent physician tells me he has almost entirely stopped their use. The word health now means a normal supply of electricity in the body, and the word disease means an insufficiency of that power."

Dr. Albert J. Atkins, the eminent California scientist, is still at work proving that every principle in what we call our electrical system is merely borrowed from the human body. We propel railroad trains, and automobiles by means of electricity and think it wonderful, but the human dynamo has always known how to propel itself and with skill and almost absolute safety in either walking or running, and now Dr. Atkins shows us that the millimetre in his automobile and the hobo on foot are alike carried forward by electrical force.

"With a man's stomach as the only electric battery," Dr. Albert J. Atkins and E. J. Lewis recently charged an ordinary telephone apparatus so that it conveyed sound, says a San Francisco morning paper. "It demonstrates that the human body is an electrical battery."

"The experiment consisted in the swallowing of two platinum electrodes, so that they touched the walls of the living stomach. "By means of copper wires the electrodes were connected with a telephone and a microphone, a sensitive instrument which greatly intensifies sound. "There was absolutely no mechanical or chemical battery in the circuit, yet the moment the electrodes were swallowed sufficiently to touch the walls of the stomach, human electricity flowed over the wires, rendering audible sounds. The electric charge measured from seven to eight volts on a western galvanometer."

## Finds Cure for Appendicitis

Dr. Harvey Archibald, of New York City, has discovered that appendicitis yields to the action of electricity pretty nearly as misers are dissipated by the sun. When a case of appendicitis comes to Dr. Archibald's office, the physician trains the powerfully penetrating electric ray upon the sore spot. Right away the swelling goes down and the excruciating pain stops short. And after five or six days, Dr. Archibald says, the cure is always complete.

## Electricity the Basis of Human Vitality

Professor Jacques Loeb, after 10 years' research and experiment, made this statement: "A part of the chemical energy of foodstuffs is transformed into electrical energy, which in turn gives energy to the muscles and organs of the body. Electricity, and not heat, is the life of the body. These discoveries are going to upset the theories of medicine as administered by the physicians of today, as it is settled that electricity is the basis of human vitality."

## The New Cure for Rheumatism

The new cure is nothing more or less than the process of bombarding the congested about the appendix with electric rays and a high-frequency current. The treatment causes the blood to return to the central circulation system, the congestion departs after the simple reason that the cause of the congestion has been removed—and that's the end of the appendicitis.

## Keeps Old Age at Bay

"Electricity will restore elasticity and buoyancy of youth," declares a famous New York physician, writing in the Medical Times. "No matter how old a man may be, no matter how young, whenever his arteries begin to harden, to resist the increased pressure of the blood, then he

actually is old. Then the electric treatment must be applied, and after a few times nature takes up the work and carries it on, and the patient gets young again—or at least he is able to resist the encroachments of old age. "By electric stimulus the system is energized, the blood made to circulate equally, the digestion aided, the waste products stimulated, the repair tissues are assisted and the normal working of the bodily functions restored."

## Electricity Will Supersede Drugs

I maintain that electricity is the power which runs the human body—the force that keeps the heart going, the blood circulating and the various organs performing their functions like so many machines. I claim that electricity works the miracle of digestion and assimilation and converts the food into blood and bone, tissue and muscle and supplies the brain with power to think.

I have had my theories confirmed by the world's most learned scientists and today the use of electricity as a curative agent is spreading to every corner of the civilized world. While others were speculating and arguing over the merits of electric treatment, I have gone ahead achieving results, and I can point with pride to men and women in all walks of life who have gained their health and strength through the use of my Electric Body Battery.

Before I talk further regarding the use of my appliance you must understand that the human body is an electric dynamo, deriving its motive power from the digestion of food in the stomach. This electric force generated in the stomach is taken up by the nerves and conveyed to the different organs of the body and is their life. So long as there is sufficient electric energy to satisfy the demands of nature, the vital organs perform their regular functions properly, but just as soon as the natural electric force is overtaxed in any way the organs become weak and inactive and sickness or disease is the result. Now, you can't cure the trouble until you restore the lost force. Nature must have more electricity, or vitality, as it is termed by medical men, in the ailing part. You can not renew this force by dosing the stomach with poisonous drugs, which only help to drain away the vitality that you have. When every organ of the body has all the motive power—electricity—it needs, weakness and disease can not exist.

Now, the purpose of my invention, to restore this electric force in a natural, scientific way. When the stomach is unable to supply the demands of the vital organs you must assist nature by filling your nerves with galvanic electricity.

My appliance is a generator of a powerful but soothing current of electricity, worn about the body while you sleep. It sends a subtle stream of electric life coursing through the nerves and vitals for hours at a time. Its touch is gentle, without sting or burn. There is no shock. All you feel is a glowing warmth. Electricity fills the nerve cells with new life. It drives out pains and aches, builds up vitality and strength, and cures to stay cured such trouble as lumbago, nervousness, rheumatism, insomnia, female complaints, varicose veins, weakness of any kind and all stomach, kidney or bowel disorders.

## The Product of Experience

I have devoted years to the perfection of my appliance. I have removed defects as fast as they appeared in actual use, and have supplied new features from time to time, so that my appliance is in a class by itself. The current can be regulated to any degree of strength by the pressure of a finger upon the regulator arm.

Compared with mine, all other electric body appliances are products of the blacksmith's hammer.

It is not upon this point, however, that my success has been founded. My immense business is due to my knowledge of the effect of electricity upon the ailments to be treated and the best way to obtain that effect. I study the case of every sufferer who comes to me and explain how the appli-

cation of my appliances may be suited to the demands of each particular case. When you consider that electricity is life, to the organs into which my appliance sends it, you can see how we get our results. My success is due to the cures effected by my appliance. If it did not cure, my business would have died out long ago.

When I say that my appliance cures, I don't ask you to accept my word alone as evidence. I can refer you to people who got back their health through the use of my appliance, and they will tell you what it did for them.

## Here Is Proof

Rheumatism quickly removed. Electricity dissolves the acid and strengthens the kidneys.

Rheumatism Cured—Nerve Pain So Well for 30 Years.

Cochran, Ont. Dear Sir—No doubt you have forgotten me, for I bought my Belt from you twelve years ago, and after wearing it for three months, was cured, and have been well until this summer, when in July I took a stroke, losing the power in one arm and one leg. I have been under treatment with hot baths and have used an electric battery in my arm and leg, and although I could walk a little, still I had pain, so I thought I would try my old Belt, and to my great surprise after wearing the Belt for one night, I had no more pain, and after using the Belt one week, I started having and helped make fifty-two loads of hay, with only one man to help me. I have used the Belt every night, and have done a lot of work at harvesting since then. I know that my Belt gives me great strength, and I do not believe in using drugs.

## A Remarkable Cure of Paralysis

Blanche, Que. Dear Sir—No doubt you have forgotten me, for I bought my Belt from you twelve years ago, and after wearing it for three months, was cured, and have been well until this summer, when in July I took a stroke, losing the power in one arm and one leg. I have been under treatment with hot baths and have used an electric battery in my arm and leg, and although I could walk a little, still I had pain, so I thought I would try my old Belt, and to my great surprise after wearing the Belt for one night, I had no more pain, and after using the Belt one week, I started having and helped make fifty-two loads of hay, with only one man to help me. I have used the Belt every night, and have done a lot of work at harvesting since then. I know that my Belt gives me great strength, and I do not believe in using drugs.

Cured of Catarrh of the Bladder at 70 Years of Age.

Granby, Que. Dear Sir—Your Belt has done more good than all the drugs I have known of. I would not have lived much longer if I had not got it when I did. I just received it in the nick of time. I did me good from the start to the present and have, I believe, cured me of my ailments. It was a God-send to my old man.

Dear Sir—I wish to congratulate you on your success in inventing such a blessing to mankind, as your Electric Belt. I should have written to you about my Belt before. I wore it only three weeks, then all the soreness in my back and thigh left me and my bowels became regular. Wishing you continued success in your business, I remain, W. G. FRIZZELL, Municipal Home, St. John, N. B.

Dear Sir—I have worn your Belt for a month now and I am glad to say that I have received the greatest benefits from it. My back is a great deal stronger, and the pain in my legs and arms have gone and I am feeling like a new man already. You may use this letter in any way you wish. Wishing you every success, I remain, WILLIAM MCCONNELL, Bon Accord, Vic. Co., N. B.

Originals of above statements can be seen at my office, 237 Yonge Street, Toronto (Ont.). Copies of these and hundreds of others, together with an 84-page book telling all about this home electric treatment by my body appliance, are furnished free if you will send or call for them.

## Health Without Drugging

M. d'Arsonval, a well-known savant of the Physiological Institute of Paris, in an address at the institute, said that electricity would be the medicine of the future. He showed that it is excellent for certain maladies and described the difference between sudden shocks and the slow method by which it pervades the system without the patient's consciousness.

"THE WORD HEALTH NOW MEANS A NORMAL SUPPLY OF ELECTRICITY IN THE BODY AND THE WORD DISEASE MEANS AN INSUFFICIENCY OF THAT POWER."—Professor Edgar L. Larkin.

## Electricity is Nature's Medicine

Professor Andrew MacConnell, president of the Society of Universal Science, in a recent essay, made this statement: "The only difference between a well man and an invalid is that the invalid is not producing enough electric power to run the functions of his body and keep the vital organs up to the necessities of life."

"With some 200 scientific experiments, MacConnell's experiments have been conclusively proved. "This power is electricity, that by understanding the laws governing the production and control of electricity in life, any human being can, in a few weeks, can increase his working capacity, can increase his vitality to the point of having an overflow of happiness and joy, and also that any person feeble from age may be in the same way reinvigorated himself."

How the Human System Converts Electricity to All Parts of the Body

## Telephoning With Power Furnished by the Human Stomach

nature's laws. If you continually overwork the stomach you will have stomach trouble. If you abuse any organ of your body you must suffer for it afterward. Then the real cause of disease is due to the weakness or inactivity of some part of the body machinery. The reason any organ breaks down or fails to work properly is because it has not enough vitality to withstand the strain when it is overtaxed. This vitality is nothing more than electricity, the motive power of the human body. Now, to cure the weakness of the part that causes the trouble. When this is done the disease cannot exist, for the cause is removed.

## Electricity for Weak Nerves

A great many people suffer from ailments caused by weak, impoverished nerves, and try to cure these troubles by dosing their stomachs with drugs. It is impossible. Drugs are poisons, and poisons wreck the nerves. If you are weak, run down, nervous and unambitious, if you suffer frequent headaches, and have spells of despondency, it means that your nerves are starving for new energy, electricity. That's all they need, and nothing else will restore them. My appliance saturates the nerves and vitals with electric life while you sleep. It builds up strength and vitality in the weakened organ and drives out pains and aches. If there was any nourishment in drugs, they might do some good, but you know there is not. Drugs are drugs, stimulants, narcotics, antidiotics, poisons, not food. Electricity is nerve food—nerve life. It soaks into the nerves, and is taken up by them just as a sponge absorbs water. It nourishes and vitalizes the parts which drugs cannot reach. Every dose of drugs that you put into your stomach, weakens your nerves. Every time you kill a pain or an ache, by stupefying the nerves with poisonous drugs, you are hurting them and anyone can see that in time by steady dosing, your nervous system will be completely broken down. You know that rheumatism is caused by uric acid in the blood. There's only

Human Electricity.

shock. When a man tries that method and finds that it does not help him, naturally concludes that electricity is no good. Now, my system is different. My plan a current is sent into the body for six or eight hours every day, usually while the patient sleeps. The delicate nerves are not jarred, shocked by this current, as it goes in, and as it is their very life, they grow strong with it. Four digestion, inactive liver, constipation, sluggish heart, slow thinking, dominant energy and laziness are all due to lack of electricity. Understand it, electricity is the motive power of the human machine, the power that keeps the organs active, and you will see what we mean. In such cases you see how my appliance will put energy into the body. It renews the life of the nerves, and transforms the sluggish into a bundle of vigorous energy.

Because you have experimented with faradic batteries and belts, or taken electric treatment from physicians without being cured, is no reason why my method should prove a failure. The doctor's battery can only be applied for a few minutes at a time, and that is not enough to effect a cure. Besides, that method is inconvenient and expensive. My appliance can be used all day or all night without interfering with your work or rest. It takes up none of your time.

Men Made Young at Sixty There is no excuse for men being old at 60, complaining about pains in the back, stiffness in the shoulders and legs, that "tired feeling," nervousness, indigestion, constipation and failure of vitality. Many started you with a constitution that ought to have held good until you are 80, and you ought to feel like a man again. You have overdone some things and wasted your vitality. You still have the constitution, but lack the force. That is electricity. My appliance will restore it. Look at the men who have used Electricity and you will see men of force, men of power and confidence, men who respect themselves and are respected and admired by their fellow men. Wouldn't you like to be the man you were years ago, to have the same ambitious spirit, the strength and vitality that you used to possess? Wouldn't you like to be free from pains and aches, and to feel that you are the equal in strength of any man of your age? You can be.

All that you lack is vitality—new life. You are like an engine without steam—you haven't the motive power to keep the machinery of your body working properly. Anything that will restore your "steam" will make a new man of you. Drugs have been tried and have failed. You know that my appliance will give you health and happiness.

Woman Saved From Dangerous Operation A large percentage of women's ailments are so perplexing that operations are often recommended by physicians. Such operations are not only dangerous, but they sometimes cause serious complications. Thousands of women are uselessly butchered who could be cured by Electricity in the privacy of their own homes.

In most cases all such women need is new strength, more vitality and nerve force. When the organs of the body are denied the vitality necessary to perform their proper functions, inactivity and disease result. My appliance renews the activity of the weak organs and builds up vitality and strength where it is needed by infusing the body with a glowing current of electric life.

Why My Appliance Cures A party asked the other day why it is that faradic batteries and static machines do not give such results as my electric body appliance. That's because you can't stand the treatment for more than a few minutes at a time. A nervous person can't endure it that long on account of the

shock. When a man tries that method and finds that it does not help him, naturally concludes that electricity is no good. Now, my system is different. My plan a current is sent into the body for six or eight hours every day, usually while the patient sleeps.
