### HAD WEAK AND FAINTING SPELLS

Those feelings of faintness, those weak, "all gone" sinking sensations, which come over some people from time to time, are warnings that must not go unheeded. They mean an extremely weakened condition of the heart and a disordered nervous system.

When the system is in this condition there is no time for delay. One fainting spell may be recovered from—will the next? One dizzy spell may pass off, but the next may be more serious.

Those who are wise will start taking Milburn's Heart and Nerve Pills, before their case becomes deep rooted and perhaps hopeless. They will act directly on the disordered heart and weakened nervous system and restore them to full strength and vigor.

Miss Mary McCoy, Algoma Mills, Ont., writes:—"I was awfully troubled with fainting and weak spells, and I could never get any doctor's medicines to help me. One day a friend of mine was at the house when I took one of those pills, and she got me a box of Milburn's Heart and Nerve Pills. That was six years ago, and from that day to this I have never had any of those spells. I would not be without your pills for any money, and can highly recommend them to any one."

Milburn's Heart and Nerve Pills are sold at all dealers, or mailed direct on receipt of price by The T. M. Milburn Co., Limited, Toronto, Ont.

THE POTATO MARKET.  
(Fredericton, Glenae).  
Whenever the free entry of potatoes  
to the markets of the United States be-  
comes a reality, if it does, he looks for a  
price which will cause a more active  
market locally. Some time ago it was  
announced that potatoes would be given  
a free entry to the United States markets,  
but it had not yet materialized. When it  
does come about local dealers will be  
able to grant the farmers more than  
they are now able to pay.

The Boston market is today supplied  
largely by the Michigan and Wisconsin  
spuds, which are landed there much  
more cheaply than they can be landed  
either from Maine or New Brunswick.  
This very naturally helps to keep our  
prices down. Dealers here cannot pay  
more than \$2.25 to \$2.50 per barrel,  
which is not inviting to farmers of this  
section. Local shippers say they would  
gladly pay more if the outside markets  
encouraged it, but they do not.

Turnips only bring sixty cents a ear-  
nel for shipping purposes, and there is  
not much doing in that line.

MILK PROFITERS.

TO BE PROSECUTED.

New York, Dec. 1.—In a letter to Dis-  
trict Attorney Swann protesting against  
what he considers to be an unwarranted  
increase in the prices of milk, Mayor Hy-  
land stated that he thought milk pro-  
ducers should be prosecuted to the fullest  
extent of the law. The mayor asked the  
district attorney to lay proceedings be-  
fore Chief Magistrate McAdoo at once  
for this purpose, and stated that he had  
directed David Hirschfeld, commissioner  
of accounts, to investigate these  
"profiters." The results of the commis-  
sioner's inquiry will be turned over to  
the district attorney.

MILKED PROFITS FIXED.

There is a great deal of protest over the action of milk dealers throughout Ontario in raising the price of milk to thirteen and fourteen cents a quart. One year ago it was nine cents. More than one dealer declares there is no justification for the raise, holding that twelve cents gives good profit. Now, however, an order-in-council has been passed that dealers must not charge more than what the milk costs them, plus five cents a quart. As a result Kingston's milk inspector has warned the milk vendors that they should not collect more than twelve cents a quart. If they charge more than that they will be liable to prosecution.

DOMINION CANNERS.

Rumor has it that the recent advance in the preferred stock of Dominion Canners is the result of an expectation that a distribution of some kind is coming out for the shareholders. That the position of the company has greatly improved during the last three or four years there can be no doubt. In April last, it will be remembered, it was able to pay three years' deferred dividends. Nothing, however, has been paid on the common stock since March 31, 1914. The net profits of the company at the end of the last fiscal year were \$800,829, and the balance carried forward \$890,838, compared with \$488,415 in 1916.

## Fewer Bills Plus Comfort in Workingmen's Shoes

OLD-FASHIONED work boots had thick, heavy, stiff soles to give long wear.

But modern work boots—the boots for modern workingmen—now have comfortable soles, lighter soles; yet they wear even longer than the old-style heavy boots.

Now work shoes are equipped with Neolin Soles. That means you can now get work boots that are easy on the feet—comfortable from the start; boots that need no breaking in; boots that are waterproof.

—and boots that will give extra wear as well as extra comfort; boots that save money as well as health.

Proof? Millions have tried Neolin Soles. They're enthusiastic. Merchants all over Canada sell shoes of every kind soled with Neolin.

You will find, as thousands of workingmen have found, that shoe bills drop when they demand Neolin Soles.

—on your Sunday shoes; on children's school shoes; on women's shoes.

—but especially on their own work boots.

Your own shoe merchant has or can get all styles Neolin-Soled shoes. Repairmen will put half-soles or full-soles on the shoes you and your family are now wearing.

But be sure it is Neolin. See that the name "Neolin" is on the bottom of the sole.
