

FOKKER TRIES OUT NEW MONOPLANE

Machine Designed for Use in America — Completed in Holland, Also a Novel Instruction Plane.

The Hague, Sept. 18.—A trial flight of Fokker's latest invention, the F-4 monoplane, which, it is said, has been constructed especially for use in America, and for which many orders already have been received from a large American company, has been made.

Since his trip to America, Fokker apparently has become very ambitious. He has started a large, new factory at Vre, and parts formerly made in Germany will be constructed in Holland.

The F-4 is the first machine made entirely in this factory. It has a 400-horsepower Liberty motor, and the pilot's seat is next to the motor, affording a good view. The monoplane is very roomy and comfortable and carries twelve passengers or their equivalent weight in goods, making a speed of 110 miles an hour.

The benzine tank holds 450 litres, sufficient for a six-hour trip. It is constructed at such a height that the benzine will flow naturally without pumping or air pressure.

Fokker has just turned out a new instruction plane in which teacher and pupil sit side by side and are able to converse and demonstrate a double steering wheel. This machine also is for America. It is equipped with a Curtiss motor of ninety-horsepower and can fly with an auxiliary motor.

MEN'S COLLARS TO BE LOWER IN PRICE, NOT STYLE

But Old "Fifteen-Cent, Two-for-a-Quarter" Days Have Not Yet Returned.

Men's collars, like women's skirts, are to be lower this season. That is, the price is to lower, says the New York Times.

A reduction of more than four cents a collar, wholesale, has been put into effect by manufacturers of the three more popular brands, Cluett, Peabody & C., Earl & Wilson, and George P. Lyle & Co., and collars which formerly sold at \$2.10 a dozen, wholesale, are now quoted at \$1.60.

While this means the wholesale price of a collar is now down to 13.3 cents, the old pre-war fifteen-cent collar, two for a quarter, has yet to put in an appearance over the retailer's counter. The prevailing retail price is twenty cents straight, while some dealers will part with four for seventy-five cents.

33

years ago an ulcer appeared on my ankle," writes Mrs. Jeffrey, of Methuen, Mass. "In spite of all the remedies I used, it spread to my knee, and developed into an open sore. I had medical treatment for twenty-five years, but only got temporary relief. The pain I suffered was terrible, and for years I was unable to leave the house."

"One day I saw in a newspaper an account of a bad ulcer having been cured by Zam-Buk. Although I was skeptical, now, of anything curing me—having tried so many remedies in vain—I decided to give Zam-Buk a trial. I applied the balm freely every day and to my delight the sore soon showed some improvement. Gradually the inflammation was drawn out, the pain was ended, and, after thirty years of suffering, I realized I was on the road to recovery. With perseverance, the awful sore was finally completely healed, and, although that was three years ago, there has not been the slightest trace of the ulcer returning."

Zam-Buk is the best remedy, also, for eczema, boils, pimples, blood-poisoning, piles, burns, scalds and cuts. All dealers, or Zam-Buk Co., Toronto, 50c. box, 3 for \$1.25.

Zam-Buk

CAN'T RUN BECAUSE OF HANNA'S ORDER

Renfrew, Sept. 20.—A. H. Johnston, Grant Trunk agent at Glasgow Station, and member of the Glasgow Station branch of the U. P. O. as candidate for the federal parliament. It was thought that he would be acceptable to the farmers and union labor alike. Mr. Johnston has notified the party that on account of his position with what is now a government road, the order of president Hanna prohibiting employees of the government-owned roads from running for office applies to him, and therefore he cannot permit his name to go before the convention.

SHORT CHANGE THE RAILWAY

Two London Conductors Have New Trick, but Plead Guilty.

London, Ont., Sept. 20.—William Watson and Alfred Britton, conductors employed by the London & Port Stanley Railway, appeared in the Police Court, charged with theft, the information having been laid by General Manager J. E. Richards. Both men pleaded guilty, and were remanded for sentence. It is charged that they knocked down cash fares on the line by means of a manipulation of the punching of the tickets. Thus if the passenger bought a ticket to St. Thomas, he would be given a slip punched correctly for the distance, but the duplicate would be punched separately for a shorter ride, and the conductor would pocket the difference.

STOLEN POLICE AIRPLANE IS WRECKED IN FLIGHT

Chicago, Sept. 20.—An airplane which was part of the Evanston Police Department equipment, but was owned by W. C. Burmeister, was stolen from his hangar by Frank Strand, who gave his address as Sioux City, Iowa.

The plane was found, badly damaged, on the Evanston Golf Club course this morning. Charles Heinz, a farmer living near by, reported that he helped disengage the aviator from the wreckage and took him to a doctor's office. Police arrested Strand, who admitted taking the plane.

MRS. OYSTER ATTACKS WILL Young Widow of Aged Supposed Millionaire Charges Undue Influence.

Washington, Sept. 20.—An action protesting the validity of the codicil to her husband's will by which she is given \$25,000 in lieu of her dower rights to his estate was filed in the Probate Court here by Mrs. Cecile R. Oyster of Syracuse, N. Y., twenty-six-year-old widow of George M. Oyster, Jr., aged eighty-one.

Oyster died three months after his wedding, and the codicil was executed four days before his death. The widow charged the codicil was written because of undue influence or under duress at a time when her husband lacked testamentary capacity to execute such a document. No particular person is named. Mrs. Oyster was said to have been estranged from her husband and was not with him when he died.

Miss Ella Johnson Tells How Cuticura Healed Pimples

"My trouble began as small pimples and in a few months they got worse and my forehead was just a mass of large pimples. They were hard and red and caused me to scratch, and I was disgusted for the time. They made me embarrassed when out in company. I tried sassafras tea but it was of no help. I saw a Cuticura Soap and Ointment advertisement and sent for a free sample. After using them I bought more, and when I had used one cake of Cuticura Soap and one box of Cuticura Ointment for about a month I was completely healed." (Signed) Miss Ella May Johnson, Box 65, Camas, Idaho, March 9, 1920.

Cuticura Soap, Ointment and Talcum promote and maintain skin purity, skin comfort and skin health often when all else fails.

See 2c. Boxes 25 and 50c. Talcum 25c. Sold throughout the Dominion. Canadian Depot: James Limited, 24 St. Paul St. W., Montreal.

Cuticura Soap shaves without soap.

A PICTOU CO. BOY SHOT AND KILLED

Westville, N. S., Sept. 19.—Bruce Joyce, seven-year-old son of George Joyce and Mrs. Joyce, Westville, was shot and instantly killed when a rifle with which he and other children of the family were playing was discharged. The little fellow was struck by the bullet in the neck.

An unknown woman was borne through the rapids at Niagara Falls yesterday and carried over the falls. Her body was recovered soon after. In a purse found on the shore was the name "Mrs. Wyant," and an address in Buffalo. By this means the body may be identified.

PROTOVIM

Brings strength and energy. Restores lost vitality. The greatest and quickest restorative known. Provim will make you strong and robust. Weaklings are transformed into men of strong nerves with plenty of will power. Price per box, Three dollars.

Sold by J. Benson Manony, corner Dock and Union streets, St. John, N. B.

CANDY MAKERS HAVE THE SWEETEST IDEA

They Just Want Everybody to Eat Candy — So They Would Set Aside October 8 to Give Sweet Toothy a Feast.

(New York Post)

The lid is off the sugar bowl and the cup of molasses runneth over. Pass around the lollypops and give baby a heaping tablespoonful of soothing syrup. Naw, children, gather 'round and you shall hear the sweetest story that you ever sharpened your sweet-tooths on. It's all about the Sweetest Day in the Year, Candy Day, and you'll never guess who invented it—no, never, never, never. The Sugar Loaf Fairy? No. The Rock Candy Man? No. The Beet Sugar Giant, who lives 'way out West when he isn't in Washington fighting the Cane Sugar Dragon? No, try again. Sausy Jack Frost or Little Domino, who comes in two-pound cartons? Wrong again.

You'll never guess. The right answer is the National Confectioners' Association of the United States, 111 West Washington street, Chicago, Ill.

Think of all the happy holidays in the year — of Christmas, New Year's Day, the Fourth of July, Moving Day, Thanksgiving, the opening day of the World Series. The very thought of these may send a responsive thrill to the roots of your right upper sweet tooth, but they are as nothing compared to the gastronomic, not to say disaccharide, delights in store for one and all on October 8, the date set aside by the good fairy with the long name out in Chicago for the nationwide celebration of Candy Day.

Another lollypop, if you please. You see, the good fairy out in Chi. has been applying the sugar test to all the other holidays of the year and finds them underweight. They don't assay 100 per cent. saccharine. There is, he finds, always some bitter with the sweet, some sand in the sugar barrel of happiness.

No particular reason is given for setting October 8 as the date for the first Candy Day except that October 8 is Saturday, which enables all those who inadvertently swallow one too many gum drops to sort of rest up and get back to normal over Sunday.

GERMAN HOUSEWIVES BARRED AS LABOR UNION

Prussian Parliament Holds They Must Be Designated as Employers or Employees.

Berlin, Sept. 20.—The National Association of German Housewives has asked

ed the Prussian Parliament to recognize it formally as a labor union, but the request has been denied because the organization's constitution failed to specify whether the housewives were employers or employees.

The rejection disclosed differences of opinion among the members of the various branches, some asserting that women who did their own housework were employees, while housewives having maids or other hired servants were employers.

Objection, particularly by peasant members, to classifying married women whose household duties were performed by servants as "professional wives," brought about an attempt to evade the issue by the use of the words "professional calling," instead of laborers, in the constitution.

The Parliamentary spokesman stated that "an organization must justify under the statutes by its activities the right to be designated as composed of professionals."

In relation to the association's activities, which extend virtually to all towns and hamlets, with thousands of members, there is much discussion as to whether an attempt will be made to enforce full demands by strikes, lock-outs or arbitration. It is even suggested that the ultra-radicals supersede the present conservative officials. There is a probability that husbands will be asked to put their wives on a salary and recognize woman's equality by sharing in the work of cooking, washing and caring for the children.

Why People With Weak Nerves and Thin Blood So Often Fail in Life

and are trampled down by strong, keen, red-blooded men with nerves of steel.

Without strong nerves you lose your magnetism, force and courage. You feel your own weakness, and others know that you are weak. Trifling things annoy you—this is a sure sign of nerve exhaustion.

Some people are born with a very small amount of nerve-vital fluid, because their nerve force has been squandered by the lives lead by their ancestors. Others use up their nerve force faster than the body can make it.

When your nerve force becomes weakened, all the vital organs of your body lose their normal strength and vigor and as a result, all kinds of alarming symptoms may appear. From the pains across the back, one person thinks he has kidney trouble; another may think his spine is injured because of the tender spots which may occur thereon. The dull, heavy pain in the lower part of head leads another to think he is going to have paralysis and from the disagreeable fullness or pressure in the front of his head, another feels he is going to die from high blood pressure. Sleeplessness and nervous irritability, heart palpitation and indigestion are very common symptoms. Naturally your strength, vigor, endurance and brain power are all greatly weakened, and in such a condition you are in no position to compete with the strong, keen, red-blooded man with nerves of steel. When you lack nerve force, there is only one thing that is going to help you—and that is more nerve force. In such cases more stimulating medicines and narcotic drugs are often worse than useless; what you must have is something to furnish an increased supply of the nerve-vital fluid to your nerve cells. This is most effectively accomplished by the free use of Nuxated Iron. This valuable product contains the principal chemical constituent of active living nerve force in a form which most nearly resembles that in the brain and nerve cells of man. It also contains organic iron like the iron in your blood and like the iron in spinach, lentils and apples. This form of iron will not blacken nor injure the teeth nor upset the stomach. It is an entirely different thing from metallic iron which people usually take. Nuxated Iron may therefore be termed both a blood and a nerve food as it feeds strength-giving iron to your blood and the principal chemical ingredient of active living nerve force to your brain and nerve cells.

Over four million people are using Nuxated Iron annually. From the remarkably beneficial results which it has produced, the manufacturers feel so certain of its efficacy that they guarantee satisfactory results to every purchaser or they will refund your money. Beware of substitutes. Look for the word "Nuxated" on every package. Nuxated Iron for the blood and nerves is sold by all druggists.

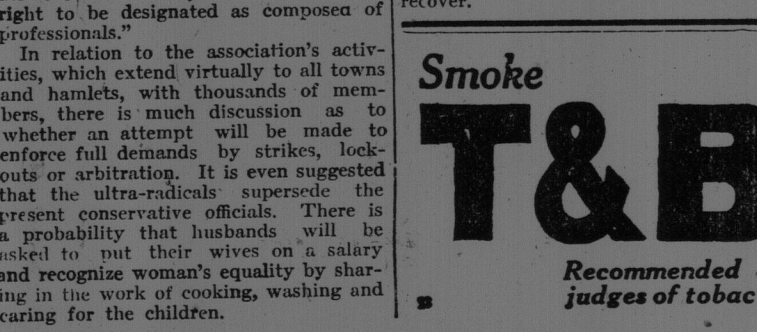

NUXATED IRON ENRICHES THE BLOOD—GIVES YOU NEW STRENGTH AND ENERGY

An Unfailing Way To Banish Hairs

(Beauty Notes)

Ugly hairy growths can be removed in the privacy of your own home if you get a small original package of depilatory and mix into a paste enough of the powder and water to cover the hairy surface. This should be left on the skin about two minutes, then removed and the skin washed and every trace of hair will have vanished. No harm or inconvenience can result from this treatment, but be sure you buy real depilatory.

John Crombie, aged seventy years and a resident of Apohaqui, was struck by the Maritime Express at Sussex last evening and severely injured. He started to cross the track at the station in front of the train and received a bad cut in the head. It is said that he may recover.

Teeth You Love to Show

Find out how millions get them

This offer is to women who desire to look their best. To men who find that tobacco stains, etc., make their teeth look dingy. To young folks who know what beauty lies in glistening teeth.

It is to all who have learned that old methods are wrong. And that, despite the tooth brush, tooth discolor and decay.

Clouded by a film

Teeth are clouded by a dingy film. At first it is viscous—you can feel it. It clings to teeth, gets between the teeth and stays.

Old ways of brushing do not effectively combat it. Much of the film remains. Then night and day it may do ceaseless damage. Most tooth troubles are now traced to film, and those troubles have been constantly increasing.

It is the film-coats that discolor, not the teeth. Film is the basis of tartar. It holds food substance which ferments and forms acid. It holds the acid in contact with the teeth causing decay.

Germs breed by millions in it. They, with tartar, are the chief cause of pyorrhea. Also of other serious troubles, local and internal.

Science combats it

Dental science, after long research, has found ways to combat film. Able authorities have amply proved them. Now leading dentists, here and abroad, advise their daily use.

These effective methods are embodied in

a dentifrice called Pepsodent. Thus one may twice a day apply them in a most delightful way. Millions already do this, and to them it has brought a new era in teeth cleaning.

Three other effects

Modern authorities find that a tooth paste should also bring other effects. This to cope with the average diet, rich in starch and low in fruit acids.

So Pepsodent stimulates the salivary flow—Nature's great tooth-protecting agent. It multiplies the starch digestant in the saliva—put there by Nature to digest starch deposits that cling. It multiplies the alkalinity of the saliva—Nature's neutralizer of the acids which cause decay.

These are natural results, but modern diet often fails to bring them. This tooth paste brings them, at least twice a day.

Note the white teeth

Note the glistening teeth you see. Ask how people get them. You will find, we think, that most of them are due to Pepsodent.

But this is more than a question of beauty. Those whiter teeth mean cleaner, safer teeth. To young and old they mean better tooth protection.

It means more to children than adults. Young teeth are most easily attacked. Very few children escape. So dentists advise that

Pepsodent be used from the time the first tooth appears.

Let one person try it in your home. Then show the results to all.

You'll quickly see

The Pepsodent results are very quickly apparent. Some are almost instant. A ten-day test is usually convincing.

Send the coupon for a 10-Day Tube. Note how clean the teeth feel after using. Mark the absence of the viscous film. See how teeth whiten as the film-coats disappear. Watch the other good effects.

The test will be a revelation. The book we send will explain each new effect. Then judge by results, and their scientific basis, what is best for you and yours. Cut out the coupon so you won't forget.

They are
**Happy
and Well**

You Should Be the Same

A LARGE number of women's ailments are not surgical ones. Serious displacements or radical changes have not yet taken place.

A tiny part in a fine clock may become loose and cause the clock to gain or lose. If not attended to in time, the part may fall from its place and cause serious trouble. So it is with women's ailments, they start from simple causes; but if allowed to continue, produce serious conditions.

When the warning symptoms are first noted, take Lydia E. Pinkham's Vegetable Compound to relieve the present troublesome ailment, and to prevent the development of serious trouble.

Kissick, Sask.—"My mother has taken Lydia E. Pinkham's Vegetable Compound and upon learning of my larynx which kept me in bed four or five days each month. I nearly went crazy with pains in my back, and for about a week at a time I could not do my work. I saw Lydia E. Pinkham's Vegetable Compound advertised in the Hamilton Spectator, and I took it. Now I have no pain and am quite regular. I keep house and do all my own work without any trouble."—Mrs. EMILY BEECROFT, 269 Victoria Ave., N., Hamilton, Ontario.

Many such letters prove the virtue of
