Notice to Contractors.

Bale Verte Canal.

TENDING Contractors are hereby informed
that about January next, Tenders will be re-
ceived for the works connected with the construc-
tion of what is called the BAIE VERTE CANAL,
to connect the Bay of Fundy and the Gulf of St.
Lawrence.

Commencing near the outlet of the River An-
Lau, the line follows in a South Easterly direction
to a point between Tongue's Island and Port
Cumberland; then in a nearly direct course along
the valley of the Missisquoi to a place between
two Hamstead Lake, and Miner's Point; thence
curving round still further to the South East
to the Main Line of the Tishish River, near
Chapel's Farm, where it takes a North Easterly
direction to near the mouth of the river, and then
crosses Tishish Head in an Easterly course to
deep water in Bale Verte.

The works will be divided into Sections suited
to circumstances and the locality.
The outline of the route above indicated will
enable Contractors to examine the dry portions of
the line before winter sets in, and those parts
through bogs after the ground is sufficiently frozen.

To facilitate this examination, a Lithographic
map of the locality will be furnished on applica-
tion by letter, or otherwise to this office.
When plans, specifications, and other docu-
ments are prepared, due notice will be given;
Contractors will then have an opportunity of ex-
amining them, and be furnished with Blank Forms
of Tender at this office, or at such places as may
be designated.

St. Andrews, Aug. 26, 1873. ly

Government House, Ottawa.
Saturday, 20th day of June, 1874.
PRESENT.
HIS EXCELLENCY THE GOVERNOR GENERAL
IN COUNCIL.

ON the recommendation of the Honorable the
Minister of Customs, and under the pro-
visions of the 4th Section of the Act passed in
the Session of the Parliament of Canada, held in
the 31st year of Her Majesty's Reign, chapter
5, and intitled "An Act respecting the Customs"
His Excellency, by and with the advice of the
Queen's Privy Council of Canada, has been pleased
to order, and it is hereby ordered, that the
following item in Schedule C of Customs Tariff
Act as amended by the Act 37 Vic. cap. 6, viz:—
"Woods manufactured when chiefly used in
dyeing" be and the same is hereby declared to be
intended to apply to "Woods" used for the pur-
pose mentioned in the said item, which may be
imported free when simply ground or chipped as
well as in solid pieces or sticks, such grinding
and chipping not being considered such a manu-
facturing as would take the article out of the ex-
emption.

And it is further ordered, under the authority
aforesaid, that the item "Ratan for char makers"
mentioned in the said list of free goods (Schedule
C) be, and the same is hereby declared to be, in-
cluded to cover Ratan imported for ship manu-
factures.

W. A. HIMS WORTH,
Clerk, Privy Council.
July 15—31

PROTECT YOUR BUILDINGS!

Which may be done with one-fourth the usual expense by using
GLINES' PATENT SLATE ROOFING PAINT.

Agents Wanted in Every Town.

A roof may be covered with a very cheap shingle, and by application of this paint be made to last
from 20 to 25 years. Old roofs can be patched and coated, looking much better, and lasting longer
than new shingles without the slate, for

One-Third the Cost of Re-Shingling.
The expense of slating new shingles is only about the cost of simply laying them. The Paint is
FIREPROOF against sparks or flying embers, as may be easily tested by any one, and appears from
the fact that Insurance Co's make nearly the

Same Tariff as for Slated Roofs.
For tin and iron it has no equal, as it expands by heat, contracts by cold, and never cracks nor
scales. For fences it is particularly adapted, as it will not corrode in the most exposed places. Roofs
covered with Tar Sheathing Felt can be made water-tight at a small expense. The Slate Paint is
EXTREMELY CHEAP!

Two gallons will cover a hundred square feet of shingle roof, or over four hundred of tin or iron. Price
ready for use is 80 cents per gallon, with a liberal discount to the trade.
No Tar is used in this Composition.
Therefore it does not affect the water from the roof, if turned off from the easterly before first few rains.

On decayed shingles it fills up the holes and pores, hardens them and gives a new substantial roof
that will last for years. Curled or warped shingles it brings to their place and keeps them there. It
fills up all holes in Tin or Felt roofs, and stops the LEAKS, one coat being equal to five of ordinary
paint. The color of the slate when first applied is dark purple, changing in about a month to a light
uniform slate color, and it is

To all intents and purposes, Slate.
The Paint has a very heavy body, but it is easily brushed on, and although a slow dryer, rain will not
affect it in the least one hour after applying. Roofs examined, estimates given, and when required
will be thoroughly repaired. Orders respectfully solicited. All our Paints are mixed ready for use.
(From the Manufacturer and Builder.)

"When first applied it is of a darker color than after a month's time, when it turns to a uniform
pleasing slate color, becoming in the course of time identical with slate, and the coating equivalent
to a single slab of slate, impervious to water and fire."
The following gentlemen have used this article in St. Andrews, viz:—Rev. Mr. Foley, Hon. B. R.
Stevenson, G. F. Campbell, Esq., H. H. Hatch, Esq., Messrs. J. W. Street & Co., Mr. E. Am-
strong, Locomotive Foreman. Also, by Trustees of Schools for School House, Dist. No. 1, and others
