New Rules

The following additional Rules de-line with the issuance of liquor to the sick, have been submitted by the Board of Control and approved by the Government. These rules have been designed to meet particular cases which it was felt the allowance under the former regulations were not sufficiently elastic to properly serve:

1. In acute illness such as Pneumonia, Typhoid, Septicæmia, etc., in which Alcohol is generally used and a larger prescription is needed than is provided under Section B (Rules and Regulations) the medical practitioner will be at liberty to prescribe any amount necessary for such patient, subject to the discretion of the Controller to the Practitioner's monthly allotment. The prescription must state nature of illness.

2. If in the opinion of the Medical Practitioner an aged person requires an extra amount to the 8 oz. prescribed under Section B (Rules and Regulations) then the Medical Practitioner may prescribe up to 14 oz. per week subject to the discretion of the Controller. The extra amount prescribed to be added to the practitioner's monthly allotment. The prescription must be marked "Aged person."

3. Section 25 of Prohibition Act, Cap. LX, June 5, 1915, shall be construed to mean that after the first day of January, 1918, licences shall be issued free of charge to Druggists and Medical Practitioners.
