

FIRE AND PILLAGE

Cuban Insurgents are Carrying Out Their Threat to Burn the Plantations.

Spanish Spy Nearly Causes Wreck of the Filibustering Steamer Laurada.

Havana, Sept. 18.—The band of Juan Delgado is reported to have burned the farms of Gatera, Chinal and Tiroboque on the canal, and several settlements in the near vicinity of Los Vegas. The insurgents burned several farms in Havana province because the owners refused to pay the taxes levied by the insurgents. Near Pinos, in Matanzas, the insurgents have burned the tobacco plantations of Herculano and Esperanza, causing a loss of \$400,000. In the last few days they have also burned a large amount of property near Puerto Principe.

Several soldiers of the battalion of Los Navas, guarding the steamer, have been recently killed by the insurgents. The first 1000 soldiers of the reinforcement recently arrived from Spain have arrived at Jucaro.

It is reported from Palos, Matanzas, that in consequence of his unbecomable and his immediate drinking, Insurgent leader, La Lucha, was abandoned by his followers several days ago.

The steamer Santo Domingo arrived here last night, having on board 20 officers and 750 soldiers of the reinforcements from the work of transferring the boys from the asylum of Bonifacio to the seminary was commenced, while the girls were to-day removed to the asylum of Santa Clara. The sick soldiers are being removed to the asylum of Bonifacio, which has been arranged for a hospital.

There is a report in circulation that Maximo Gomez has left his camp at Guasimas with Agronomic, to form a direction of Santa Clara, to form a direction with Majal and Rodriguez in Sancti Spiritus. It is also rumored that Rodriguez has arrived in that district.

A balloon which it is claimed can be lowered or raised at pleasure without the use of ballast, has been offered to the government and will be examined by a committee.

The news is confirmed that the insurgent leader, Maximo, whose influence in the revolution has been great, has died of wounds received in a skirmish in Matanzas with Col. Molina.

New York, Sept. 18.—The Herald publishes the following special correspondence from Kingston, Jamaica, Sept. 6: "The circumstances point to the fact that on her voyage the steamer Laurada included among her crew a Spanish agent and spy. So far as is known his identity has not been discovered. The Laurada was carrying a filibustering expedition to Cuba on this trip, and it is beyond all doubt, although there will probably be great difficulty in proving the fact, for the Spanish agent, who it is now well known was on board, was actually seen to reveal himself in the witness box."

If the party is known no action will be taken against him, and he will not be disposed to carry out to the end, the fact he has been playing as a hired spy. The explanation is simply that the man attempted to wreck the vessel, and should be held responsible for the filibustering party of the voyage, he was to face a charge on this point.

If his identity has been ascertained no legal action will be taken against him, as that might bring up the question as to his possible testimony regarding the landing of the filibustering expedition in modern times. The facts in connection with the stranding of the steamship at Port Antonio, so far as the Herald's correspondent was able to ascertain, are as follows:

On the arrival of the Laurada at Port Antonio, some person unknown gave information to the customs authorities that she had been engaged in a filibustering expedition and that there was a large quantity of rifles still on board, which had not been declared, and which would be put ashore on the return voyage. The ship was searched before she proceeded to the out ports to take her cargo of fruit, but the arms were not found.

The informant thereupon secretly procured one of the customs officers that the vessel's return from the out ports would find means to discover the secret plans in which he was convinced Captain Murphy had concealed the arms, since they had not left the vessel.

On the night of the 1st instant, as the Laurada was entering Port Antonio and the Luma was going out, the two vessels passing each other in the deep, intricate channel of the Luma bar, the Laurada was struck by the Luma, which was put ashore on the return voyage. The ship was searched before she proceeded to the out ports to take her cargo of fruit, but the arms were not found.

Of course, to all outward seeming, the whole thing had the appearance of an accident. But it was an accident that was planned by the Laurada. She was placed between collision and being smashed on the coral reef, but escaped both and gently laid her nose in a little bed of soft sand. She had intended to get off, and this fact infuriated, for through it the Laurada was enabled to keep his word, a quantity of rifles having been found on the vessel this time.

The result was that Captain Murphy was promptly called before the district magistrate, and although the Laurada was so slightly damaged by her contact with the reef that she was able to proceed at once on her voyage, Capt. Murphy had to provide a surety bond before he could leave the Island. He made a cash deposit of \$300 to appear on the

A STRANGE STORY.

Mrs. Elizabeth Cavanaugh, of Frisco Tells a Queer Tale.

San Francisco, Sept. 17.—Through the filing of a suit in a superior court a story which seems almost incredible comes to light.

The plaintiff is Mrs. Elizabeth Cavanaugh, an aged woman who owns considerable property in the Mission and she designates as the defendants her son and her husband, Morris Cavanaugh. She charges them of having conspired together to rob her of her possessions and with having kidnapped her and caused her to be held a prisoner for four long months in a local private insane asylum.

Years ago Mrs. Cavanaugh took in washing. She saved her money and invested it in the then Mission and wastes. When the city grew and her property became valuable she was in comfortable circumstances. Then, to add to her poverty, she recently won quite a snug sum in a lottery.

Of this stroke of good fortune her troubles began, for her husband refused to work and her son induced her to execute a deed of trust placing all her property in his hands. He and his father then took her forcibly from the house one night and conveyed her to a private asylum, from which she was released by another son, a teacher in the Jesuit College, whom she managed to smuggle a letter.

DYING FROM FEVER

Fifty Hundred Men Suffering from the Plague in the Hospitals of Cuba.

Many Desertions Reported from Weyler's Army—Cuban Patriot Arrested.

Havana, Sept. 19.—According to the official returns, the numbering of men suffering from yellow fever in the military hospitals throughout the island is 1,535. The death rate is said to be under 15 per cent. La Lucha this afternoon says the governor of the Spanish bank is responsible for the actual movement.

He went to the palace yesterday in order to confer with Capt. Gen. Weyler, but he was unable to see him, and it is rumored that the governor of the bank has been dismissed.

New York, Sept. 19.—A dispatch to the Herald from Havana says: Capt. Gen. Weyler's order, recently issued, putting nine officials in command of the irregular guerrilla and volunteer forces is bitterly resented, and in consequence thereof many desertions are occurring. At Sagua la Grande, where Capt. General Carrero, of the regular army, were lately appointed, one-third of the men have disappeared.

At Camerones, a Santa Clara town, the local Spanish guerrillas went over to the enemy in a body a few days ago, and, returning with the insurgents, assisted the latter to capture a government fort in the suburbs. Then they raided the town, looted stores and ransacked various private residences, seized the local archives and carried off the municipal seal.

At Bayamo, Santiago de Cuba, a mounted Spanish guerrilla force, armed with Mauser rifles at the expense of Bayamo merchants, recently went over to the rebels, joining Calisto Garcia, and obtained his commission from Martinez Campos, former captain general.

Capt. Carrero and Oliverette, of the Sagua la Grande guerrilla forces, who have long been the terror of resident naturalized Americans and native pacifics of that vicinity, have been relieved of their commands, and both thrown into a local fortress to await court-martial. Carrero is alleged to have captured and shot prisoners of war, as well as pacifics without the formalities of a trial.

A dispatch to the Herald from Madrid, Sept. 18, says the Herald's correspondent at Havana cables that there was much animation in the captain general's palace yesterday.

Capt. Gen. Weyler held a conference with various commanders of columns, also with the commanding officer of marine and the chief of the medical department. The Herald's correspondent adds that these conferences are the precursors of an approaching campaign, which is intended to be vigorous and resolute.

Captain General Weyler will assume personal command at Pinar del Rio, Ahumada and Palmera, taking charge respectively of military and political affairs at Havana.

Among other measures General Weyler thinks of adopting as a prelude to the campaign is the revocation of the edict of pardon, obliging families having connections in the ranks of insurgents to move into other provinces and making concentration in villages obligatory, considering all persons found in the country are enemies or supporters of the enemy. According to the latest information, Maceo has moved south of his former positions. No steps will be taken to follow him until the commencement of the concerted operations above referred to.

George Carlos Roloff, a Cuban, was arrested to-day on the charge of aiding and abetting the sending of filibustering expeditions to Cuba. He was formally held in \$2,000 bail by United States Commissioner Alexander. He is said to be a major general of the army of General Gomez. He came to this country about two months ago for the purpose of fitting out filibustering expeditions to aid the Cubans. He is charged with being connected with the Laurada expedition and others.

FIRST FALL FAIR

Wellington Agricultural and Industrial Society Holds its Second Annual Exhibition.

The Entries are Few but of Excellent Quality—The Prize Winners.

Wellington, Sept. 17.—To the Agricultural and Industrial Society, of the thriving town of Wellington, must be given the credit for setting the pace for all provincial exhibitions this year. Theirs was the first exhibition of the season, and if all the others are equally successful they are sure to be of the greatest benefit to the agricultural interests of the province.

The president, Rev. C. E. Cooper, M.A., the treasurer, Mr. Thos. E. Bate, the secretary, Capt. H. A. Dillon, and the other officers of the society, were indefatigable in their efforts to make the fair the success it undoubtedly was. The display of the agricultural products was not large, being confined to the residents of Wellington and districts, the different entries were of excellent quality and gave conclusive proof of the richness of the soil.

Mr. R. M. Palmer, inspector of fruits and pests, was present, and gave much valuable advice regarding the classification of fruit. The judges were: five stock, J. Lefevre and John Thomas; poultry, W. J. Jones; pigs, G. Barlow; dogs and pet stock, Dr. Walker, M.P.P.; vegetables, roots and grain, T. Hillier and J. Lefevre; dairy produce, T. Hillier; fruits and flowers, G. A. Foster; C. D. Oasid; fine arts, needlework and general ladies' work, Mrs. Campbell and Mrs. Davis.

In the afternoon there was a programme of field sports, the winners being: Race for girls under 10, M. Maxwell; 1 M. Foster; 2, R. Barlow; under 14, Ed. Hughes; 1, J. McNeill; 2, Running long jump, W. Marshall; 1, A. Morrison; 2, Vaulting with pole, A. Morrison; 1, W. Marshall; 2, High jump for boys under 14, J. Lefevre.

A dance in the exhibition hall in the evening brought a successful exhibition to a close.

Below is given the list of prize winners: Stock—Drainage horses, W. Fort; 1, R. J. Richards; 2, J. Lefevre; 3, J. Lefevre; 4, J. Lefevre; 5, J. Lefevre; 6, J. Lefevre; 7, J. Lefevre; 8, J.
