MEN'S SUMMER SUITS  
MARKED DOWN

Here is an opportunity for a  
number of men to add to  
their wardrobes.

Certainly it will be years be-  
fore desirable suits, such as  
these, can be produced and  
sold at the prices these were  
originally marked. Now that  
many of them are a third less  
it would appear to be an op-  
portunity worth taking ad-  
vantage of. All that are left  
of our Summer suits; regu-  
lar and pinch back models;  
colors from dark to light;  
regular prices \$15 to \$30.  
Sale prices, \$10, \$12.50,  
\$15, \$20.

Gilmour's, 68 King St.

Open Friday Evenings! Close Sat-  
urday 1 p. m. June, July and Au-  
gust.

to Mr. Gray's opinion, a reliable and  
good living man.

Was Not Working Late.

Thinking that the employees of the  
New System Laundry on Lansdowne  
avenue, who as a rule work up until  
a late hour on Monday and Tuesday  
evenings, might have seen a person  
who would excite their suspicion. The  
Standard visited the plant last evening  
to make inquiries. It was learned  
that on Tuesday evening the plant  
closed down about 10 o'clock and  
none of the employees remained after  
that hour.

Excellent Character.

There have been different sugges-  
tions as to revenge, robbery and  
business spite, but in each case some-  
thing has cropped up to put an end  
to further investigation. The most  
likely of motive has, of course, in-  
volved a woman, as might have been  
expected, but in this present instance  
the splendid character given Mr. Wil-  
liams by everyone who knew him,  
together with detailed information as  
to his whereabouts during the sum-  
mer, precludes the possibility of  
complications along this line. If there  
was a woman in the case a great deal  
more has to be learned than is now  
known. Mr. Williams, so far as the  
Standard has been able to ascertain  
has missed the six o'clock evening  
train for Nerepis on only two or  
three occasions during the summer,  
and on other occasions the ship was  
seen by him on his boat.

Mrs. Wilkins and Daughter.

Inquiries have also been made as  
to the woman, Mrs. Wilkins, who  
states that she heard cries. Mrs.  
Wilkins is not a very strong woman  
and it is not surprising that her physical  
condition might be expected to suffer  
readily from nervous excitement.  
She was under treatment at the Public  
Hospital not very long ago and it  
is stated that even now her health  
is none too good. So that in the  
anxiety as to her daughter's where-  
abouts, while sitting alone in her  
house at a late hour on the night in  
question, she may have been more  
affected by trivial happenings, than a  
person in the best of health would  
have been. Miss Wilkins, too, is de-  
scribed as rather delicate, suffering  
from an anemic condition. She was  
studying nursing in Maine and came  
home several months ago because of  
her mother's condition. She has been  
desirous of obtaining employment as  
a nurse here, but so far as is known  
has not a permanent position in this  
line.

Medical Opinion.

Harry Williams was murdered on  
Tuesday night, so far as can now be  
ascertained, at between eleven thirty-  
five and eleven forty-five. He was alive  
and well at half past eleven. At five  
minutes to twelve he had been dead  
for some minutes. The Standard has  
had conversations with a number of  
medical men who saw the body within  
a very short time of the discovery of  
the crime. Their experience goes to  
show this, that the amount of blood ap-  
pearing on the floor of the building in  
which the crime was committed would  
exude from a wound of this nature in  
from ten to fifteen minutes. They had  
listened to the statements of those who  
discovered the body and made their  
estimates on the information so ob-  
tained. Besides this, and although  
the wound had been the flow had the  
wound severed one of the larger body  
arteries. Keeping this in mind and  
judging from experience in similar  
cases these medical men are of the  
opinion that rigor mortis in this par-  
ticular case would have set in at from  
twenty minutes to one hour from the  
time of death. It is impossible to state  
the time accurately. But that is their  
best opinion. And from the time of the  
finding of the body until it was seen  
by medical men a very short time  
elapsed. Indeed, when Detective Dun-  
lop put his hand on the dead man's  
flesh after being summoned by the  
young men who found the body, the  
flesh was still warm. And when a  
Standard man went into the shop and  
shortly after that the blood flowing  
from the wound was still giving off  
vapor in spite of the warmth of the  
night.

Time of Discovery.

The murder was discovered at ex-  
actly five minutes to twelve. At that  
time the two clerks from Durick's drug  
store were on their way home. One of  
them (Continued on page 8)

## THE RECEPTIONS FALL AGAIN IN ATTEMPTED RAIDS

FRENCH GAIN FURTHER  
GROUND NORTHWEST OF  
BIXSCHOOE, FLANDERS

British Repulse Attempted Raids by Hostile Con-  
tingents at Several Points on Their Front, Ac-  
cording to Official Statement.

HEAVY RAIN STORM ONCE  
MORE PREVAILS IN FLANDERS

Germans Arrange to Leave French and English  
Prisoners in Exposed Places Where Attacks Are  
Made by Airplanes of Entente Allies.

London, Aug. 9.—To the northwest  
of Bixschooe the French gained fur-  
ther ground against the Germans dur-  
ing the day, while the British repulsed  
attempted raids by hostile contingents  
at several points on their front, accord-  
ing to the official communica-  
tion issued last night. A heavy rain is again  
falling in Flanders, the statement  
adds.

British Statement.

London, Aug. 8.—The text of the  
British official communication issued  
tonight follows:  
"A heavy rain is again falling. Our  
allies gained further ground during  
the day northwest of Bixschooe. Hostile  
raiding parties were repulsed last  
night and this morning north of Rebec  
in the neighborhood of Oppy."  
"The enemy's artillery continued to  
show great activity east of Ypres."  
"Yesterday, in spite of continuous  
wind, airplanes bombed the enemy  
railway tracks, sidings and trains  
four miles behind the German lines,

causing much damage, derailing one  
train and blowing up another. Bombs  
also were dropped the previous night  
on an enemy ammunition depot. One  
of our machines is missing."

Huns Expose Prisoners.

Paris, Aug. 8.—The French authori-  
ties learn that at night, July 31, when  
French airplanes bombed Treves and  
Essex, the Germans forced French  
and English prisoners, both officers  
and men, to leave their quarters and  
stand in the open where they most prob-  
ably would be hit in case Karlsruhe was  
raided. The men were compelled to remain  
in these places until all danger had pas-  
sed.

Submarines Destroyed.

Paris, Aug. 9.—During a recent Ital-  
ian aerial raid on Pola, the Austrian  
naval base on the Adriatic, two air-  
planes, with bombs, destroyed two  
Austrian submarines which were be-  
ing repaired there.

H. L. WILLIAMS WAS KILLED  
BY AN UNKNOWN LUNATIC

(Continued from page 2)  
them, Leo McMinan, had been suffer-  
ing from weak ankles and to ease  
the discomfort, stooped on his toes  
when passing the Williams store.  
While in this momentary position he  
glanced under the blind of the Main  
street window as the ship was still  
lighted, and in that glance he saw a  
man's head. He stooped still lower and  
seeing the body lying there spoke to  
his companion McGuire. The two look-  
ed in, and being averse to acting on  
their own initiative in what seemed  
a serious case, started to look for a  
policeman. They found Detective Dun-  
can who happened to be walking up  
Main street, and within a minute after  
the tragedy was first discovered the  
detective was in the shop. Physicians  
were immediately summoned but of  
course could do nothing as the unfor-  
tunate victim was already dead. They  
however noted the warmth of the body  
and the flow of blood and reached the  
conclusion above stated, that the death  
of Mr. Williams had been caused with-  
in fifteen minutes of the discovery of  
the body. All this goes to indicate  
that the crime was committed with-  
in a few minutes of the discovery of  
the body. It is ascertained that twenty  
or twenty-five minutes to twelve o'clock.  
And at that time there were at least  
twenty people within fifty yards of the  
shop who are known to the Standard  
and who heard no sound although the  
night was calm and quiet. Of course  
there is the condition that the dis-  
charge of an automatic makes a sound  
only like a cough and would not be  
heard at a distance.

Wilkins Family Knew Nothing.

The actions of Miss Gertrude Wil-  
kins on the night of the murder and  
the mysterious man who drove so reck-  
lessly from the direction of Fairville,  
down Main street to Mill, and then re-  
turned, have caused no little comment.  
Many persons were inclined to be-  
lieve that the furiously driven horse  
might have some connection with the  
murder, but the whole matter has  
been investigated by the Standard and  
is exploded.

The Fast Driven Horse.

It has been learned on fairly good  
authority that on Tuesday night last  
Miss Gertrude Wilkins was out for an  
automobile ride, that something hap-  
pened in the way of a breakdown with  
the car, and a man whom she is said  
not to know very kindly offered to  
drive her into the city. She accepted  
the invitation and the driver of the  
horse drove it furiously into the city,  
down Main street, and after leaving  
Miss Wilkins on Mill street, where  
she went to join a girl friend, the  
driver of the horse returned up Main  
street and out Douglas Avenue, still  
driving at a fast rate.

Post Mortem Comment.

A great deal of comment was made  
yesterday out of the story told that at  
the post mortem examination made by  
Dr. Dunlop there was found in the  
wound in Harry L. Williams' neck  
traces of gun powder. This week  
least many to believe that the man  
who was discharged close to the unfor-  
tunate man's neck. This theory might  
work out well if the traces of anything  
other than gun powder were really gun  
powder, but there is good reason to  
believe that it might perhaps be some-  
thing else than gun powder, and would  
further bear out the Standard's theo-  
ry that the fatal shot was not fired at  
a very close range, but from some-  
where near the front door of the store.  
Before the Post Mortem.

It is a well known fact that long  
before any post mortem examination  
had been made on the body of Harry  
L. Williams it was freely handled by  
officials as if it lay bleeding on the  
store floor. A Standard reporter who  
was early on the scene saw the body  
being handled by one of the dead man's  
wives, and moreover it is known that  
Detective Duncan made an examina-  
tion of the wound before the physician  
who made the post mortem.

It is stated on the best of authority that  
the police officials probed the wound  
on the side of the dead man's neck  
with his finger or thumb, which was  
inserted well into the wound. What  
the motive of the officer was in doing  
so is better known to the Standard's  
readers. Perhaps it was to feel if the bullet  
was there and the official perhaps was  
right in making every anatomical exam-  
ination that he deemed necessary.

It might be possible that on the  
finger or thumb of the officer, that had  
been inserted in the wound, there  
might have been some tobacco ashes,  
or other dust, and this might quite  
easily have been mistaken for burnt  
gun powder.

At all events hardly any person  
believes other than it is a case of  
deliberate murder, and the Standard  
to one side any theory of suicide, for  
if the latter had been the case, the  
pietel would have been found near  
the body, and that, pietel has not yet  
been located.

It might possibly have happened  
that the murderer sneaked in the  
store quietly, and when getting up  
close to his victim fired the fatal shot,  
but it hardly seems possible that in  
what, well lighted store like the  
Williams store was on Tuesday night,  
that any person could make an en-  
trance without Mr. Williams having  
noticed the name of the same, therefore,  
it is still believed that the shot was  
not fired at a very close range, but  
from the front door entrance, and at  
a time when Mr. Williams was stand-  
ing at his desk working at his books,  
with the left side of his head towards  
the door. It is believed that he had  
no warning, but that he never knew  
what struck him, but was killed at  
most in the way of a blow to the floor  
in front of the desk where he had  
been working.

Inquest Tonight.

Dr. F. L. Kenney said last evening  
that the inquest would be opened at  
the court house at 8 p. m. today.  
There will be three or four witnesses  
and then an adjournment will follow  
said the coroner. The most important  
testimony this evening will be that of  
Dr. Dunlop, who will lay before the  
court and jury his findings at the post  
mortem examination of the body of  
the deceased conducted at Chamber-  
lain's undertaking rooms on Wednes-  
day evening.

GIRL DECIDES  
TO PUT ASIDE  
MALE APPAREL

Frederickton, Aug. 9.—The young  
girl who was arrested for masquerad-  
ing in boy's clothing some time ago  
and has since been at the county jail  
has decided to don the wearing ap-  
parel of the weaker sex and return to  
her home at Weaver's Sliding in the  
course of a day or two, when her  
father comes after her.

The young girl with another friend,  
were anxious to do their bit in the  
present war when women are playing  
such a prominent part and wrote to  
the office of The Daily Gleaner asking  
where they could offer their services  
as they were willing to do male at-  
tire and take the part of some of the  
slackers who were afraid to go over  
and fight. Not being able to get an  
opening, one of them decided to start  
out and at least do the work of a man  
so that one more could be released  
for service.

About four weeks ago she came to  
this city and made her way to Spring-  
hill, where she engaged with a farmer  
to work in the field. During the day  
she wore a man's suit and carried her  
curry hair and donned male attire.  
All went well until a valise of girl's  
clothing and locks of hair were found  
in the bushes a short distance from  
where she was hired. It was at first  
thought that she was a German spy  
and all sorts of rumors were afloat.  
Finally the police was notified and  
the young woman was arrested.

P. E. I. MAN  
GRAND MASTER

North Sydney, Aug. 9.—The Odd  
Fellows have about completed their  
business for the annual session and  
many of the delegates have already  
left for their homes.

The most interesting feature of to-  
day's programme was the visit to the  
works of the N. S. S. and Coal Com-  
pany at Sydney Mines. The arrange-  
ments were attended by the Grand  
Superintendent Brown and the visitors  
were given every facility for a  
thorough inspection of the company's  
extensive plant. The grand lodge will  
hold its next session at Kentville, N. S.

The following grand officers were  
elected:

Grand Master, G. S. Ryan, Charlotte-  
town.  
Deputy Grand Master, R. H. McKay,  
Westville, N. S.  
Grand Warden, Dr. C. A. Murray,  
Mableton.  
Grand Secretary, J. J. McKinnon,  
Charlottetown.  
Grand Chaplain, J. S. Coffin.  
Grand Representatives: M. McKen-  
zie, Westville; Rev. Mr. Whitman,  
Grand Marshall, W. J. Campbell,  
North Sydney.

ALFRED G. VANDERBILT  
WAS WORTH \$17,000,000

K-ALFRED  
New York, Aug. 9.—Appraisal of the  
estate of Alfred G. Vanderbilt, who was  
lost on the Lusitania, May 7, 1915, filed  
today in the Supreme Court here,  
shows a total of \$17,369,522.

The chief beneficiary is his widow,  
Mrs. Margaret Emerson Vanderbilt,  
who is to receive \$5,000,000. William  
H. Vanderbilt, his son by his divorced  
wife, Elsie French Vanderbilt, is given  
power of appointment in a trust fund  
of \$4,612,086, a life interest in \$400,000  
and the medal which congress voted to  
Cornelius Vanderbilt.

George F. Vanderbilt and Alfred G.  
Vanderbilt, sons, are each given the  
interest on \$2,552,204 until they are 21  
years old, with a part of the principal  
to be paid every five years until each  
is 35 years old. Other legacies provide  
for amounts from \$500,000 to Mr. Van-  
derbilt's brother, Reginald C. Vander-  
bilt, to a year's salary for each person  
who had been in his employ five years.

The largest item of deduction from  
the total assets is \$2,000,000 left to  
Mrs. Vanderbilt in accordance with a  
prenuptial agreement that she would  
accept this in lieu of dower rights.

POLICE ASKED TO  
LOOK FOR BAD MAN

The police of the Maritime Provin-  
ces have received from New York in-  
structions to keep a lookout for several  
criminals who are wanted by the  
New York police. The persons wanted  
are: George Walter Stivers, age  
18 years, height 5 ft. 11 in., weight 160,  
shoulder face, gun shot wound at right  
shoulder. Shot patrolman Samuel  
Cunningham, 25th of May last. Gov-  
ernment of the United States. Ben Ri-  
zotti, Ben DeSoto, Ben Smith and Ben  
Tita, an Italian, aged 28, who shot  
and killed Barnett Baff in New York,  
November 24th, and Walter Pumes,  
alias Wilbert Pumes, for larceny of  
automobiles in Cambridge, Mass.

## 34 KILLED

Alexandria, Italy, Aug. 9.—Thirty-  
four persons were killed and 100 in-  
jured on Tuesday night in the derail-  
ing of the Genoa-Milan express at  
Arquata.

POISON PLOT  
AGAINST 1200  
U. S. SOLDIERS

Washington, Aug. 9.—Bold and un-  
scrupulous agents of the German gov-  
ernment, working in the nation's cap-  
ital, nearly succeeded in sending 1,200  
of the engineer troops of the United  
States to their deaths by poisoning.  
Learning that the 1st Regiment of  
Engineers was about to leave Wash-  
ington and that a large quantity of  
bread was to be baked for use upon  
their trip, some person or persons in  
the pay of Germany succeeded in get-  
ting a sufficient quantity of poison in-  
to the bread to have killed any man  
who got so much as a mouthful of it.  
News of this dastardly plot has been  
carefully guarded by the authorities,  
but the facts were unearthed today  
and have been substantiated by the  
statements of secret service officers  
who have been at work upon the case.  
Six thousand loaves of the bread  
had been baked for use during the  
trip from Washington to the point of  
destination. It was only at the last  
minute that the deadly character of  
the food was discovered. It was im-  
mediately ordered to be incinerated.

Agents of the department of justice  
and secret service agents of the de-  
partment, it is understood, are ex-  
erting every effort to discover the  
person or persons who so nearly ac-  
complished their murderous design.

FRENCH FORCE  
PENETRATES  
HUN LINES

Paris, Aug. 9.—The text of the  
French official statement reads:—  
"There has been penetration of both  
artilleries in the region of Pantheon  
and Epine-De-Chevrengy. A surprise  
attack by French troops to the east of  
Noye Parai resulted in their bringing  
back prisoners."  
"In the region of Epargues, to the  
north of Vaux-les-Palmes, one of  
our detachments penetrated the Ger-  
man trenches, and after spirited en-  
gagements in the course of which it  
inflicted heavy losses on the enemy  
and broke up his organizations, it re-  
turned without losses to our lines."  
"There is nothing to report on the  
remainder of the front."

## CASUALTIES

Ottawa, Aug. 9.—The noon casual-  
ty list contains 147 names, of whom  
22 are killed in action, 6 died of  
wounds, one missing, and the others  
wounded.

Infantry.  
M. J. Gayton, Milltown, N. B.  
S. Burlock, Picton, N. S.  
Capt. A. B. Donald, Fredericton,  
N. B.  
H. A. Tucker, Truro, N. S.  
Lieut. J. A. Bruce, Truro, N. S.

ARTILLERY  
Gunner W. H. MacKenzie, Frederic-  
ton, N. B.

Infantry.  
Died of Wounds.  
H. B. Sweetman, Moncton, N. B.  
Presumed to be dead.  
Lance Corporal G. W. Boone, St.  
John, N. B.

Wounded.  
E. Baker, Woodstock, N. B.  
Lance Corporal F. R. Moffatt, River  
Hebert, N. B.

ARTILLERY  
Gunner H. G. Turner, Hillsboro, N. B.

SOLDIERS WANT  
CONSCRIPTION

Sydney, C. B., Aug. 9.—Police Officer  
Carmichael is in receipt of a letter  
from Corporal William Ross who is  
overseas with the 18th battalion.  
Corporal Ross writes in very opti-  
mistic tones as to the certainty of  
victory for the allies. He thinks that  
the enemy cannot hold out much  
longer. He says that all the boys are  
praying for the time to come when  
conscription will be enforced in Can-  
ada.

FORMER PRESIDENT  
TAFT QUITE ILL

Clay Centre, Kan., Aug. 9.—The con-  
dition tonight of former President Wm.  
Howard Taft, who is ill at a hotel here,  
was announced by the attending physi-  
cians as "not so good as yesterday."  
While he did not consider the illness  
dangerous, the physician thought quiet-  
ness advisable and forbade callers.  
This was the first day since Mr. Taft  
was stricken, with intestinal indiges-  
tion that the physician's report had  
been unfavorable.

Fred Fitzpatrick was arrested yester-  
day morning at 11.45 for the alleged  
theft of milk cans from the door-  
way of Mrs. Bartlett's store on Car-  
marthen street.

## CANADA THISTLES

TEACHING THE GERMAN PROFESSOR A LESSON IN BOTANY

ENLISTS TO  
SEARCH FOR  
MISSING MAN

Special to The Standard.  
Montreal, Aug. 9.—Clairvoyants  
whom he consulted told Andrew E.  
Raiston, of Knowlton, that his soldier  
son, of whom he has heard nothing  
for a year, is still alive, so the father  
has enlisted in the Canadian Forces  
Medical Corps in order to get overseas  
and search the hospitals for his missing  
son.

The circumstances which led Pte.  
A. E. Raiston to enlist in the Cana-  
dian Army Medical Corps are prob-  
ably unique in the Canadian forces  
even about a year ago Pte. Raiston's  
only son was reported missing at the  
front, and the militia department at  
Ottawa notified him to that effect he  
at once got into communication with  
his son's companions at the front and  
discovered that no man had seen his  
son wounded. He had disappeared.  
The father and mother refused to be-  
lieve their son was dead, and as he  
was not reported a prisoner in Ger-  
many, they became confirmed in their  
conviction that he was still alive,  
perhaps in some hospital in France  
under another name with a louse of  
mind and unable to recall the past  
owing to wounds.

The father saw several clairvoyants  
and they all informed him that his son  
was still living, but could not tell him  
of the son's location or condition. He  
of the son's location or condition. He  
of that branch of the service is higher  
than in the other branches.  
The recruiting officer of the C. A.  
M. there is a St. John man, Lieut.  
Frank J. Scully.

TEN LOST WHEN  
STEAMER SINKS

Newport News, Va., Aug. 9.—De-  
struction of the British steamer Atrila,  
with forty African natives on board,  
by a German submarine, was re-  
ported by cable today to the ship's  
agents here. Captain Morris and ten  
of the crew were lost, the survivors  
were landed at Glasgow. No details  
were given.

The Atrila left here July 18 for a  
British port with a cargo of horses.  
She was sunk, and it is believed that  
she had landed her cargo and was en route  
to Glasgow.

## NEUTRAL CONFERENCE.

Christiania, Aug. 9.—The Swedish  
government, according to the Aften  
Posten, has invited all the European  
neutrals to participate in the approach-  
ing conference of Scandinavian min-  
isters of state at Stockholm, at which  
the difficulties neutrals have been sub-  
jected to through America's entrance  
into the war will be discussed. It is  
said Sweden has received favorable re-  
plies.

## RECOGNIZES PRESIDENT.

Peking, Aug. 9.—The foreign min-  
isters in Peking, including Paul May,  
the new Belgian minister, have all  
renewed the Peking government by  
calling on Feng Kwo Chang, in re-  
sponse to an invitation issued by the  
foreign office, which designated Peng  
Kwo Chang as president. Official  
documents now call him president.

London, Aug. 9.—The Earl of Derby,  
secretary of state for war, was in-  
formed today by the Central Medical  
War Committee that no more medical  
men are available for army commis-  
sions without "seriously endangering  
the supply of doctors for the civil  
community."

The committee's announcement was  
made after a thorough canvass con-  
ducted to through America's entrance  
into the war will be discussed. It is  
said Sweden has received favorable re-  
plies.

ed the hope that the solution of the saying that they believed that thous-  
difficultly will be found in a supply and of medical men there are willing  
of doctors from the United States, to come to Europe.

Take Your Music  
With You This Summer!

in the canoe—on the yacht—to the camp  
—and on the motor tour—you will enjoy  
it immensely. Try it! The Victrola  
and Victor Records furnish all the enter-  
tainment required
