THE DISEASE THAT IS VERY HARD TO CURE

There is one disease that is hard to cure, but it cannot be cured by the medicine or work of any doctor. It is the mania people have now-a-days from buying away from home. Many folks buy from the bright pictures that fill the catalogues. Here they see things as they really ought to be, but few realize fully on their expectations. Yet, with the burn of the last goods still fresh, the same mistake will be made again.

More hard times are caused from the disease that has' affected so many people of this country than of any other contagion. Why not try and see what a difference it would make to the community, if every one would try their home town merchants first. They can see what the home town merchant has to offer. They can feel it, look at it, smell it and see whether the value is there or not and not have to wait for the goods to arrive.

Did you ever stop to realize that the local merchant could not stay in business if he were to carry the kind of goods many people pay good money for, and at the same time think they are getting a bargain.

The local merchant supports your schools, helps your churches, pays taxes, helps charity, buys produce, and assists to build up the community in many different ways. The catalogue houses are not in the same class in this respect, and therefore are not entitled to a share of this community's business. Let the cities keep up the establishments that are in there, midst; and let us care for our own.

Take your local paper, read the advertisements and see what your own merchants have to offer. Go to their stores and see the goods. You'll find that the local merchant's goods

have value for every cent asked. At any rate compare, and then use your best judgment.

All things considered, better times will result from home buying, because our local buying keeps your cash in the vicinity, and in the course of time it reverts back to you—but send it away, and you might just as well "kiss your dollars good bye."

Start your Christmas buying now; don't wait until some day you have a moment to spare to read the glaring bargains offered from the highly colored illustrations. Buy at home and do it now. You will save money in the long run, and you will be sure of real value. Think it over and give the idea a fair show. You will be surprised how quick times will improve.

Read the ads. each week and take your time to shop. It will mean money in your pocket.

When in need of credit, ask the big mail order houses for accommodation and see how quick they will be to refuse you; but on the other hand they will take your cash, and do it quick.

—OO—
CAVE WOMAN OF 20

Lives all Alone Except for Her Cat

BRADFORD.—The midnight appearance of a twenty-year-old girl cave-dweller in the Shipley Glen Ravine, near here, have caused considerable comment at Elfrick, a village on the other side of the ravine.

She is a pretty girl, about 5ft. 3in. in height, and wears a smart brown costume. She has been given the name of "Florrie All Alone," because her only companion in her cave home is a cat.

During a recent bad rainstorm she asked for shelter at the home of a local shopkeeper, but disappeared with her cat, a day later. Villagers returning late to their homes have been startled by the sudden appearance of the girl, with her hair dishevelled and her eyes staring wildly.

ANTS THAT WORK FOR MAN

Most people regard ants as a nuisance, especially in a garden or at a picnic, but the natives of Burma have found a use for them.

This country grows and exports sandal-wood, one of the most valuable and beautiful timbers, in the world. The greater part of every tree felled is useless, however, for only the fragrant scented heart has any commercial value, and to transport the whole log would make even that not worth the cost of removal.

So the trees, after being stripped of their branches, are allowed to lie where they have fallen. The soft, sappy wood, which is useless in commerce, attracts the billions of ants who inhabit the forest, and to whom it is a tit-bit.

In helping themselves the ants help the sandal-wood merchant for they leave the hard heart of the trunk stripped of all its worthless integument, and thus do for nothing the work of many human laborers.

Here and There

A contract has been let in Alberta for the erection of fifty cottages for Hebrideans who are coming in the spring, on the main line of the Canadian Pacific Railway, between Edmonton and Red Deer, and on the Hardisty line, as far east as Stroms.

The dances, customs and folklore of Old Quebec are still alive and show no signs of decline. Thousands of persons recently witnessed a performance of these at the Monument National, Montreal, and joined heartily in the well-known choruses which have made the picturesque aspect of Quebec world-famous.

The piledriver Tarzan is rapidly nearing completion at the B.C. Marine, Vancouver, B.C., and will be ready for launching soon. This piledriver will be the largest in the world. It is being built for the Sydney Jenkins Company for use in the construction of the new pier B-C for the Canadian Pacific Railway.

Erected at the cost of \$200,000, one of the handsomest marine terminals of the Canadian Pacific Railway was recently completed at Victoria, B.C. The terminal houses the general offices of the British Columbia Coast Service of the Canadian Pacific. The main building is 122 feet long, 54 feet wide and three storeys high, with a fourth storey erected centrally over the structure.

Russia will never again rival Canada as a wheat exporter, according to L. W. Lyde, Professor of Geography at London (England) University. He believes that grain growing in future lies with the Canadian farmer. Russia cannot properly supply its own needs. Pre-war export of wheat was purely artificial, drawn, not from a natural surplus, but from the needs of a very poor and ignorant peasantry.

A twenty per cent increase in the business over the Dominion Atlantic Railway, serving Nova Scotia, was the approximate summary of the summer's travel recently given by F. G. J. Goss, General Traffic Agent of the line. This is attributable to the growing appreciation of the beauties of the Annapolis Valley and the charm of the Evangeline county among tourists everywhere.

An extensive programme is being prepared in connection with the winter sports activities of the Chateau Frontenac, the Canadian Pacific Railway's famous hotel at Quebec. E. Des Balleis, newly appointed sports director for the hotel, is planning the formation of the Frontenac Winter Club and the holding of competitions in curling, skiing, ski-joring, skating and other pastimes of the season.

Surprise packets in the shape of crates containing two lions, a male cub and a full grown female, constituted the most interesting shipment handled by the Montreal and Toronto offices of the Dominion Express Co. this year. The animals, exchanged for specimens of Canadian deer, recently arrived from Dublin and were dispatched over Canadian Pacific lines to their destination, the zoological gardens at Toronto. Needless to say, they were carefully handled.
