CAR MAKERS ARE AFTER US. BUT STILL BEHIND US.

Auto manufacturers are working hard on rustproofing. New primers. New application processes.

But no factory rustproofing is as effective as Ziebart rustproofing.

Because Ziebart rustproofs where the factory can't. In the hidden, boxed-in areas created on the assembly line. In places where bolts and welds break the pre-applied primer coat. In the places where rust can get started.

And our unique sealant covers your car's rust-prone metal. It even penetrates welded seams. And it fights rust for years.

We use our patented Ziebart spray tools to get it inside every hidden section the car makers can't reach.

Come to Ziebart for real rustproofing. We will finish the job the factory started.

IT'S US. OR RUST.
