Basketball team a tale of recruitment

By Laura-Lee Mackeral

A long time ago, on a University Campus in Hollywood far, far away there lived a Basketball team made up of the stars from various T.V. shows & movies who decided that they'd had enough of their losing record, so it was time for a few changes.

Coach Don Johnson scoured the Networks in search of new bright stars to complete his roster, stumbling upon the talents of seven, new but shorter recruits who had to first get permission from a certain raven-haired beauty to play; eventually having to quit due to the poisoning of Miss White.

In the meantime these Seven plus the additions of the Jolly Green Giant; an import from up north, Konan the destroyer, a second year veteran of the team, and Mad Max a last minute acquisition, worked together to be an unbeatable team.

They swept the country soundly defeating all opposition; even scheduling home tournaments inviting such big teams as - the "No-Namers", "Boony-town Rats" and the "Down and Out Dodgers".

Yes, just when things looked promising for Coach Don Johnson disaster struck! The Jolly Green Giant decided that it was time to go home and look after the Little Green Sprout; so he said his sad good-byes and left.

Mad Max had been having too much fun playing basketball to worry about academics so 'round about exam time he decided to hit Palm Beach in all its *Glory*. Konan finished out the season but was being sued by various other teams for dislocating plastic nose jobs and bruising sun-tanned limbs.

Finally Sneezy, Dopey, and Grumpy weren't sure if they would play next year because their backsides were too sore

from sitting on a wooden bench all year.

Coach Johnson was optimistic though just a few days before he'd heard about three new promising stars who went by the name of Joe, Moe and Curly. Time to sign them up for next year.

Even if Basketball with the stars didn't go well Don Johnson knew he still had his life long contract with Miami Vice; security is bliss.

New Sport hits
UNB like a Brick

By HASH BROWNS

The newest university team won their first game last night at the Ferdinand Boznitch Sports Complex. They defeated St. Francis Excaliburs 110-2 before a packed house. The Zoomers held period leads of 10-0, 50-1 and 90-2.

So, what is this new university sport which is sweeping the university scene? Super Sonic Roller Derby!!! As far as entertainment value goes, it is by far one of the best sports on campus. For those of you who enjoy physical violence, this is the sport for you.

At first, the rules seem to be confusing but that is quickly

cleared up as the game progresses. Two teams made up of nine players attempt to knock opponents to their knees or out of the playing area. The scoring system goes that if you put an opponent to his knees, two points are scored and knocking them out results in twenty-five points.

Team Captain, J. Colbary was satisfied with the team's performance as was Coach James "Bunny" Alpine.

Equipped with jet propelled roller skates, capable of attaining speeds in excess of 100 mph, it may replace hockey as "the fastest game on earth". By the way, the players do wear sufficient padding.
