

We believe we hold the world's school speed record in Typewriting.

We believe we hold the world's school speed record in Typewriting. Mrs. F. M. Conner, of the School Department of Mississippi, has a record of 100 words per minute. Mr. J. A. C. Clegg, of the State Normal School at Kutztown, Pennsylvania, holds the record for girls, which is 80 words per minute. These records were made by young girls who had been studying typewriting for only a few months. Mrs. F. M. Conner is now teaching typewriting in the public schools of Mississippi. Mr. Clegg is now teaching typewriting in the public schools of Pennsylvania. Mrs. Conner is now examining the Mississippi schools for typewriting teachers. Mr. Clegg is now examining the schools of Pennsylvania for typewriting teachers. Both of these records are held by girls who have been studying typewriting for only a few months. They are the best records ever made by girls in the world.

Mrs. T. G. Davis, long engaged as a typographer with the Sutherlin Co., of this City, over sixty years ago,

Is our record not the world's school speed record in Shorthand?

We believe we hold the school speed record of the continent, if not the world, possibly the world's record.

240 Words per Minute

Miss Mary E. White, of White Sulphur, West Virginia, made a record of 240 words per minute. This was made by the White Sulphur Shorthand School. Miss Mary E. White is a well-known teacher. Her pen has never been applied to any other shorthand school in the continent.
