

Necessary Farm Equipment

MORE and more the Ford car is looked upon by progressive farmers as necessary farm equipment, the same as the plow, the hay-rake, the drill, the mower, the harrow and other labor and time-saving machinery.

A farmer with a Ford car can dispense with one or two of his horses and make the trips to town, railway station, creamery, or to the neighbours in one-third the time. In fact there is no farm machine made that will save the busy farmer and his busy wife so much valuable time as a Ford. And it's so easy to take care of—far easier than a horse. No bed to make, or hay and oats to get, no harnessing and unharnessing, and no stables to clean. The Ford practically takes care of itself.

Ask any farmer who owns a Ford if he would ever again try to get along without it. His answer will hasten your decision to own one.

FREE—Hallam's Sportsman's Supply Catalog—32 pages illustrated—write for your copy to-day.

John Hallam Limited
81 HALLAM BUILDING, TORONTO.

The exterior walls of this neat Ottawa garage were built with Bishopric Stucco Board, which was then stuccoed over. The result is shown above. Perfect interior dryness is assured, at lowest cost.

BISHOPRIC STUCCO BOARD

comes lower in cost than sheathing lumber, furring strips and lath, which it replaces. Also, it is simple to work with, saving labor and time.

Made of heavy sheets of sized sulphide fibre board, surfaced on one side with asphalt mastic, it is reinforced on the other side with bevel edged lath, which holds stucco or plaster firmly. It comes in panels 4' by 4', but if longer lengths are required, same will be run on request.

A happy combination—cheapest and best, simple, solid, permanent, sanitary.

The saving over ordinary stucco construction averages over 25%. Write for samples and full information to

BISHOPRIC WALL BOARD CO. LIMITED
529P Bank Street, Ottawa, Ont.

Wood Stave Silos Are Best

Wood meets the two chief requirements of a silo perfectly. Wood will keep in the heat of fermentation that is necessary for the ripening of the silage. And wood keeps out the excessive cold, reducing freezing to a minimum. Cement, tile or brick are all porous, consequently heat or cold will pass through quickly and the silage is partly spoiled.

BURLINGTON CABLE BAND SILO

is the product of 18 years' experience in silo-building and practical farming. Over three thousand are in use throughout Canada, and their owners are well satisfied.

The seven-strand Cable Band, which hoops this silo, is used exclusively by us. It gives and takes up as the silo expands or contracts when full or empty. It is stronger than iron and insures rigidity of construction.

These silos are easily erected, require no special skilled help, and may be put up in 10 to 15 hours. Buy Direct from the Maker. Get our price list. Everything supplied complete, with simple instructions for erection.

THE NICHOLSON LUMBER COMPANY, LIMITED
Burlington Ontario
