Beatty Bros., of Fergus and Winnipeg, whose advertisement runs in this paper, claim to have remedied this by galvanizing their stalls and this galvanized steel never rusts. No extra charge is being made. See the advertisement.

Partial Dislocation of Patella.

Mare has something wrong with right hind leg. When she trots or pulls she drags the leg and throws it outwards.

W. H. McE.

Ans.—The stifle bone becomes partially dislocated. Get a plaster bandage of 2 drams each of iodine and of zinc, and cantharides, mixed with 2 oz. of vasoline, slip the band off the front and inside of the stifle joint. Tie it so that she cannot take the plaster off. Rub well with the plaster once every two days. On the third day it will be sweet and let pieces of cloth over it and let her walk about. Then take her and let her walk and after that she will be better. A little vasoline will do her good. Be sure to keep a complete record of the effect of the treatment.
