

pared to make a night attack on the Scottish forces. There lay the camp, all silently sleeping in the star-light, never dreaming that danger was so near. The Danes, to make their advance more noiseless, came forward barefooted. But as they neared the sleeping Scots one unlucky Dane brought his broad foot down squarely on a bristling thistle.

A roar of pain was the consequence, which rang like a trumpet blast through the sleeping camp. In a moment each soldier had grasped his weapon, and the Danes were thoroughly routed. The thistle was from that time adopted as the national emblem of Scotland.

A ROBBER OVERCOME.

FOR many years, a very lovely young Christian was laid on a sick bed. She was often unprotected and alone. On one occasion, late at night, as she was lying awake on her bed, her family all asleep in their rooms around, a man was seen by her entering her door.

He stopped a moment after he had gained entrance, her little night lamp shining on them both, from the stand by her bed-side. He looked at this calm and lovely girl, surveying him with perfect tranquility.

She raised her finger, pointing upward, and said, "Do you know that God seeth you?"

The man waited a moment, but made no reply, and then turned and walked immediately out, having opened no other doors than the street door and the door of her chamber.

Thus God interposed and defended by the weakest instrument, but with the mightiest power. What an illustration it was of the forgotten presence of God!

THE TONTINE INVESTMENT
POLICY of The North American Mutual Insurance Company combines in one form the greatest number of advantages attainable in a Life Insurance Policy. It appeals at once to the intelligence of all who understand the principles and practice of Life Insurance.

All Policies whether on Life or Endowment Rates, are subject to no higher charge in Premium Rates, in taking the "Tontine Investment" form.

The extra benefits of this are conditioned only upon continuance of the Policy for a certain specified term or Tontine period of ten, fifteen or twenty years, selected by the insured himself.

Two things most desired in Life Insurance are the certainty of protection in early death, and profit in long life. These are combined in the "Tontine Investment Policy" of the North American Mutual Life Insurance Co., which also issues Annuities and all the ordinary approved forms of Life Policies.
