Invalid LadieS This Is For You.

There are thousands of females who suffer intold miseries common to their sex. This is largely due to the peculiar habits of life and fashion, and the improper training of girlhood. Then, too, the physical changes that mark the three eras of womanhood (the maiden, the wife, and the mother) have much to do with her sufferings, most of which are endured in silence, unknown by even the family physician and most intimate friends.

To all such whose hollow cheeks, pale faces, sunken eyes an feeble footsteps, indicate nervousness, palpitation of the heart, weak, faint and dizzy spells, we would earnestly recommend a course of Milburn's Heart and Nerve Pills.

Mrs. Jos. Sharp, Brighton, Ont., writes:
"I was troubled with palpitation of the heart, weak spells and nervous trouble, and found no relief until advised to try Milburn leart and Nerve Pills. I got one box and that helped me so much I sent and got five more. I am now cured completely."

INTERCOLONIAL OFFICIALS PLEASED

MONTREAL, Nov. 27 .- The Intercolonial freight officials in this city are greatly pleased at the results which have been attained as a result of their efforts to ensure the fastest possible service between Liverpool and Montreal via Halifax. That freight should be delivered in the city within twelve days after leaving Liverpool is certainly a record of which both the shipping and railway men should be proud.

The Allan line steamer Tunisian left Liverpool on her first winter trip on Thursday evening, Nov. 14th, arriving at Halifax on Friday, 22nd. She landed a large lot of freight at that port, seventeen cars of which were delivered to the Intercolonial for Quebec, Montreal, nerce. He was born in East Gore, N. day, 23rd, and arrived in Montreal o'clock, only forty-eight hours from Halinax. From the time this fragut was put on heard the Tunisian at Liverpool until it was delivered at Montreal, it took less than twelve days, a remarkably quick dispatch both on the part of the Tunisian and the I. C. Railway. W. H. Olive, assistant general agent of the I. C. R., with headquarters in Montreal, has paid special attention to the encouragement of import shipments in the winter season via Halifax, and this re-

markably good service via the Tunisian is justification of the route. It is the claim of the Intercolonial officials that import freight can be handled by the Halifax route and delivered as promptly as by any other route, either through Canada or the United States. as proof that the Intercolonial is as efficient in freight carrying as in catering to passenger business.
