## Your Furs are Safe in our Vaults!

Why send them out of town when they can be stored just well in Brantford?

Furs are so highly prized by everyone, it follows that great care must be taken to protect them from the ravages of moths. It is a fact that more furs are ruined by these pests than by actual wear.

The cold, dry air system of storage is a positive safeguard against moths. Much work and worry can be avoided by simply telephoning us at 619, and we will call for your furs and other winter apparel. You place your own valuation on each article, and we are responsible to you for that amount in case of loss by fire or moths. Our charge for storage and insurance is 3 per cent. of the value—a moderate charge when it is remembered that we carefully dust each article, and hang them in a vault that is intensely cold.

Nothing is packed or folded. Everything is kept on hangers, so that the most delicate article will not become creased or muddled, and will carry no odor of moth preventatives.

Given a Week to Pay.

DUBLIN, May 8.—Miss Geraldine Manning who amused herself to-day by painting green broad arrows on the bust of J. Redmond in the Royal Hibernian Academy, a vengeance for the vote of Irish-Nationalist members of the House of Commons against the Woman's Suffrage Bill on Tuesday was allowed a week in which to pay a small fine inflicted on her by the police magistrate. She said she would not pay and was warned that the consequence would be detention in jail. She had attached a card to John Redmond's bust bearing the word's: "A traitor's face is no ornament to our picture gallery."
