THE FARMERSVILLE REPORTER.

BRIEFLETS.

A Northern Texas editor complains that the number of marriages is ridiculously small when compared with the time squandered in buggy riding.

A story is told of a lawyer in Athens, Georgia, who was employed to defend a suit against a narrow gauge railroad, and who took the road as his fee.

The first church erected on American soil is still used as place of divine worship. It is situated just outside of the City of Mexico, and was built by Cortez during his second visit to that coast.

A Kingston young man named Murphy, on Saturday last, threw a paint brush at a young man named Martin. The handle of the brush struck Martin in the left hand, going completely through.

Mr. N. G. Sherman, of Iroquois, was relieved of \$60 by a pick-pocket at the Brookville Oddfellows' demonstration. We would advise Mr. N. G. to take less money with him or else walk with his hands in his pockets.

The first bag of flour ever made of California wheat and exhibited at a public fair was the one made by John M. Horner, of Horner's mills, at Union City, Alvarado, in 1850, and shown at a fair in the Music Hall, San Francisco, in that year, and to which was awarded the highest premium of \$50. That bag of flour is now on exhibition at the rooms of the California Farmer in San Francisco.

Money is so plentiful in London that it fails to find employment at 1 and 1½ per cent., wherefore many wonder at the recent disasters and panics on this side of the water, imagining that they indicate a scarcity of money. This is a mistake. There is no scarcity of money, rather an excess of it; and the disasters arise from reckless efforts to make more than a normal profit from it, rather than from any other cause.

A New York dentist worked three days repairing the teeth of the wife and daughters of President Blanco, of Venezuela, and put in a bill for \$7,000. The president thought \$1,000 should pay very well for the work done, and offered that sum. But the dentist would not take it and talked about suing, whereupon the president referred the matter to his lawyer and turned upon his heel and left the dentist's office and also the United States. The chances are now that the dentist will have to be satisfied with a good deal less than the \$1,000 offered him.

The schooner M. B. Millen, from Savannah, reports that on June 20th, in latitude 34.50, longitude 74.14, while in a dead calm in a smooth sea, she was surrounded by a school of whales as far as the eye could reach. Several came within a few feet of the vessel, spouting water against the side, and lying perfectly still for several minutes at a time. They would then roll over and sink down tail foremost until they would stand perpendicular in the water. They swam around the vessel three hours, and were not in the least shy. They averaged from thirty-five to forty feet in length.

The following is a sample of the many letters we receive for our Lamb's Lubricating Liniment, and shows to the public its fame is fast becoming known abroad as well as home. One bottle will convince the most incredulous of its wonderful curative powers:

LANCASTER, June 20th 1884.

Mr. J. P. Lamb,

DEAR SIR:—Please send me one dozen of your L. L. Liniment as soon as possible, as I intend going away soon and I want to take some with me, it is such a good medicine to keep in the house for almost every complaint or accident. We think it will cure almost anything, and have, as you know, used it a long time, always giving the best satisfaction.

Mother is troubled with the rheumatism and it always helps her and the only thing she ever got to give her relief. We would not be without it for a good deal and hope it may become widely known that it may give relief to many sufferers.

Yours truly,
ANNIE J. NICHOLSON.
