CANADA WILL BE KEPT BUSY

The British War office evidently does not look for an end of the war for at least another year, as orders are being placed to keep every munition factory in Canada busy until June 30, 1917. It was announced by the Imperial Munitions Board that the orders placed or authorized for all classes of shells will keep the munition plants in the Dominion busy until this date.

The Board states in a memorandum issued recently that all necessary raw material to maintain the deliveries required are contracted for well ahead, and particular mention is made of the very favorable position the Board is in in respect to steel supply. The present report shortage of steel in the United States, is not causing the Board any uneasiness, in view of the purchase of steel the Board made last spring and summer.

The policy adopted some time ago, whereby Canadian manufacturers would supply fuses, primers, brats disc, cartridges, case, and the many smaller components, is now well established, and supplies of this nature which came from the United States in large quantities in the past will to a very great extent be secured from Canada. It is stated many of the parts heretofore either purchased entirely or in part from the United States will now be secured exclusively from Canada, and Canadian manufacturers are showing every disposition and bending their best energies to give the Board the deliveries required to enable the Board to carry out the important programme it has undertaken.

NOTED MUSICIAN OF MONTREAL

Advices The Use Of "FRUIT-A-TIVES", The Famous Fruit Medicine.

MR. ROSENBERG 589 Casgrain St., Montreal.

April 20th, 1915. "In my opinion, no other medicine in the world is so curative for Constipation and Indigestion as 'Fruit-a-tives'. I was a sufferer from these complaints for five years, and my sedentary occupation, Music, brought about a kind of Intestinal Paralysis—with nasty Headaches, belching gas, drowsiness after eating, and Pain in the Back. I tried pills and medicines of physicians, but nothing helped me. Then I was induced to try 'Fruit-a-tives', and now for six months I have been entirely well. I advise any one who suffers from that horrible trouble—Chronic Constipation with the resultant indigestion, to try 'Fruit-a-tives', and you will be agreeably surprised at the great benefit you will receive". A. ROSENBERG. 50c. a box, 6 for \$2.50, trial size, 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

DR. EATON'S STRONG WORDS

(Editorial from the New York Sun.)

It is not necessary to recall that the Rev. Dr. Charles A. Eaton is a Canadian by birth to account for the strong language for using which in his pulpit on of The Sun's correspondents takes him to task this morning. Dr. Eaton said no more than thousands of men born in the United States would have said. He expressed a conviction that is shared by multitudes of those whose ancestors came here so long ago that the fact they were immigrants is forgotten. He put in vigorous phrases thought that no attempt to attain official neutrality can strife.

Nor is it plain that Dr. Eaton should be censured for his beliefs or his methods of proclaiming them. To him, as to hosts of others, the course that should have been followed by the United States seems plain. The failure to pursue it appears to them not as an example of political inexpediency, or shortsighted statesmanship, but as an immoral, unchristian and indefensible default in the performance of duty, to be accounted for only on the ground that the United States is spiritually unfit either through cowardice or blindness. Obviously a preacher holding these opinions would be untrue to his mission if he did not give tongue to them; his obligation is personal and professional, and of compelling force.

Moreover, it is not true that preachers of an earlier generation shirked discussion from their pulpits of worldly affairs; for example, did not Henry Ward Beecher sell a slave girl in his church to bring home with crushing emphasis to his great following the reality of a terrible moral and political vice in the struggle to suppress which he was enlisted?

Dr. Eaton's critic reminds us of several of the great and good men who preceded Dr. Eaton and his contemporaries in ministering to the spiritual wants of New York. They and those who labored with them make an impressive showing as they are marshalled in the corridors of memory. But did all of them abstain from the application to pressing civic problems of their power and authority? Were they all at all times impassive and unresponsive to those move-

ments and menaces that, while not originating in religion, inevitably reacted upon Christianity and the work its propagandists and defenders have undertaken?

It is not within our recollection that such was the case. We remember them as virile, bold men, whose sympathies were easily aroused, whose strength was gladly expended for what they conceived to be the good of humanity, and who established a precedent of public service that Dr. Eaton in his passionate appeal has not violated. As to the soundness of his conclusions, every man may pass judgment, but as to the propriety of his expressing them, there seems to us to be no question.

At the annual meeting of the Nova Scotia Carriage Company held in Amherst on the 3rd, the shareholders, after hearing the report of the directors, strongly recommended that the company go into liquidation.
