ditions have changed and I suppose it has become more or less dangerous to attempt navigation in the floating ce with a canoe. Of course, you nderstand there are two sides to ery question and not having talked ith the contractors upon the matter I do not know what excuse they may have to offer for having so grossly disregarded the provisions of their Much Long r Must the contract. If the upper river is, as you say, open and free from ice there certainly can be no excuse for allowing a vast, amount of mail to accumulate at Whitehorse. I shall talk the matter over thoroughly with Postmaster Hartman this afternoon and shall send a wire to Mr. Pulham manding an explanation. Our postal service must not be interrupted unless there is ample cause for it, and it seems the contractors have one Con ignent Reached not and are not making any very strenuous efforts to fulfill their ogree-

ments." Postmaster Hartman was seen shortlay after his interview with the commissioner busily engaged in pre-paring a report of the mails arriving and departing since October 1, which had been asked for by the governor, and which was to be submitted immediately upon its completion.

"There is some excuse for the delay in the transmission of the mail at present, but there was surely none From Thursday's Daily.

during the fore part of October before any ice whatever made its appearance and professional men of the then, too, look at the outbound mail today concerning the mail quest still lying on the Emma Knott. which left here October 27. The reveals a state of mind in each steamer is tied up at Sleepy Hollow 15 miles below Selwyn, and as far as It is the most unpardonable, we know there has been no effort graniable state of anairs, so made to forward it. It is but 59 ar they all, that has ever occurred miles from there to Selkirk, and it it a the plantile, and the point at reaches the latter point it could be reaches uppermost is, when, where taken overland with comparative ow s a going to end, and case as far as lower Lebarge, where the people of the Yukon terri it could be jut in canoes and for is carmly and patiently by an. warded to Whitehorse! And this mail so far as is known at the white Pas. which left Ogilvie this morning, it should have arrived here last night there was no excuse for its lying at there is no other mail at there was no excuse for its lying at n route from Whitehors Ogilvie nearly 30 hours. There are mail teams there and also here, and hey could have been started out at ford's wigwam was fostered upon the Man Named Matter Goes to after it if he were in town at the fire ordinance. ime. In regard to the departure of he mail I might say that the Indian ive him the mail without an order rom the contractors or under the diection of the commissioner. The resent state of affairs in my departnent seems to me to make it all the nore imperative that the overland oad to Selkirk be built at the carlist opportunity. Even if it cost 150,000 it would pay for itself in ve years in the saving effected upon mail contract alone, to say othing of the many other advantages o be derived from its construction. ram of inquiry to Superintendent ulham will be eagerly awaited. In e meantime Dawson will twirl her humbs and continue, like Patience,

LOOKING

Pittsburg Syndicate Will Prospect at Skagway,

Seattle, Oct. 22 .- J. M. McCreery a letter to his nephew, J. M. Diven, of Skagway, has announced that he will send an expert to Skagway to investigate and report on that region from an oil producing standpoint The writer states that on account of the ground freezing and not being soft until so late in the spring the expert would be sent north immedi ately, in order that a test might be made before the freezeup. Thus plans could be laid this winter for the development, if reports proved satisfactory, early next summer. For some time the existence of oil

in the Skagway valley has formed a firm belief in the minds of many. () the railroad track along the bluff, and in the land near Eighth avenue. in Skagway, running along the ravine oil has been seen. "It formed on both sides of the swamp water, a sluggish blue, dark and heavy.

When the oil wells of Cook inlet were first talked of and examination made, the Klondike rush had set in through Skagway. The experts sent to Cook inlet went to Skagway and stopped for several weeks, as old- contemporary has another guess comtimers well know. At that time the ing. probable existence of oil in the valley was noted. Along the river oil stone credit, by mere guesswork and supwas found in several places and it is undoubtedly these reports renewed that have made Mr. McCreery anxious tery surrounding the disappearance of o see if there was any truth in them.

SHE FOUND THE MONEY

Blackma'ling Scheme That Failed to Work.

Just before navigation closed oung woman of the town made complaint to the police that she had beer robbed of \$700, naming a well-known young man as the object of her susicion. But as she could not supply ufficient evidence to warrant the young man's arrest, nothing was one in the matter and the woman eft for the outside leaving the mar under a cloud, she having generally spread the report that he had robbed her cabin while she was absent. Evidently she repented the damage she had done by her talk for at White horse she wrote a letter which was Her purpose, therefore, is to use the Rhone which in its course will furmoney in her trunk. The young mar says the woman never had \$700 but The house of lords has alredy sane- was attempting to work him for hush money by means of blackmail.
