FARMERS READ

McCORMICK CORN HARVESTERS GIVE PERFECT SATISFACTION.

This is to certify that we witnessed the operation of one of your Corn Harvesters on the farm of Mr. James Holmes, and are pleased to say that it is one of the most perfect pieces of machinery that we ever saw for cutting and handling corn, and in point of making an even but and tying. The sheaf carrier works to perfection, there not being any ears knocked off. It is very easy draft, has no side draft, and two horses haul it with ease.

We would recommend the McCormick Corn Harvester to any persons wishing to purchase a corn harvester.

APPRECIATED ABROAD.

Miss Pearl White, a talented pupil of Miss Elda Idle, has returned from spending her vacation with friends in London and Exeter. While away Miss London and Exeter. While away miss
White sang the beautiful solo "Children's Home," in the Methodist
churches at London and at Exeter.
Her rendition of the song was so perfect that the clever Maple City young
lady was requested to sing it in other
of the London churches, but owing to the fact that she was leaving the city she was unable to accede to the re-quest. Miss Allie Humphrey, anoth-er of Miss Idle's pupils, sang a solo in one of the leading Detroit churches

while on her vacation. He Fooled the Surgeons 80 cents for one doz. quarts of Walker's superior lager, to-morrow only, at F. A. Robert's.

THIS WON'T SPARE ONE Barrister W. F. Thrasher is Going to Wipe Out

The Entire Tory Party-He Would Like to Get Their

Photos First, However. It is often a pleasant thing to hear a gentleman express, his true and unbiassed opinion of the chances which the party politically opposed to him will have in an election. Moreover, if the aforesaid gentleman be a man of experience it often saves his opponents a lot of useless worrying over the result.

w. A. Thrasher, who lacks nothing of the required experience, has been doing some figuring on the coming election, even though he did lose some sleep in the attempt, and the result of his explorations unto the unknown realms of the fu ure hearened. The Placet this morning as follows: gave to The Planet this morning as fol-

"After the next election there won't be a Tory left in the whole of Western On-tario," he said. "Gordor will carry Bothwell and Archie Campbell will sweep Kent with the utmost ease. I have already conceived a scheme whereby I shall make enough money to retire in opulence. I daren't give the whole bonanza away just now or there would be a whole mob applying for patent rights, but I will outline it for you. This is the way in which I shall scoop in enough dough to wipe out the Ou-tario Government deficit:"

tario Government deficit:"
"I have purchased a kodak of strong staying powers. Now, I shall advertise for those of the Tory persuasion to call upon me and have their mugs shot, free of course. Thousands will avail themselves of the golden opportunity and two years hence when the entire Tory race has been obliterated, the rising generation will hear about these strange creatures who formerly existed in strange creatures who formerly existed in Ontario and on all sides the question well be asked, 'What was a Tory like'.' Then I shall step in with a business-like air and say, I can't produce a living specimen of the extinct species but here is a photograph of James Clancy whom David Gordon wiped out of existence by a majority of 5000, or of T. A. Smith who once held a civic post of honor among those who have passed into political outer darkness, er of any other prominent Conserva-tive whom I may have in stock. Those photos will sell like circus lemonade and I

shall be a rich man in no time."

Mr. Thrasher desired that his prognostications should be published in The Planet in order that this great family journal might open its columns to the ante-mortem state ents of the decaying race.

Manufacturers are Kicking on the Present Tariff.

Their Association Passes a Resolution Condemning the Government for Breaking its Promises.

Toronto, Aug. 31 .- At the annual meeting of the Canadian Manufacturers' Association yesterday, the report of the tariff committee was presented by George Hees. It states that when the new tariff was announced the association forwarded to the Government a resolution favoring a reason-able preference on goods imported ture came along and swiped the bunfrom Great Britain, so long as the minimum tariff was high enough to afford adequate protection to existing Canadian industries. It was urged that as the increase in the preference would affect some industries injuri-ously, the duty should be raised on products competing with them. Lat-er, recommendations urging certain tariff changes were made, and two delegations waited on the Government to urge their adoption. The report concludes thus: - "Your committee, however, regret to report that, although a promise was received from the members of the Government of careful attention to this matter, nothing has been done, although in many lines the redress asked for could have been got by lowering the duties without injuring any other Canadian in-dustry. The Government's policy evi-dently is that they will watch the ef-fect of the tariff for at least a year without making any change, unless it is found, as an actual fact, that some industries are being injured." Mr. Hees explained that the changes asked for affected the woollen indus-

K. McNaught added that the Gov-ernment had been informed that the ernment had been informed had the manufacturers wanted adequate pro-tection against not only every coun-try, but even against the motherland. Samuel Coulson, of Montreal, ex-pressed himself as well satisfied with the tariff on iron, and said the Mon-treal manifacturers if they had griev-ances would have been at the convention in large numbers. His house had been in business for forty years, and never had the tariff worked so smoothly as at present After some further debate, the tariff resolution was adopted unanimous

The great amount or design work done at the Victoria Avenue Green House is sufficient proof of the excellence of the work. Nothing but the best at the lowest prices. Telephone

THIS SHIRT WAIST

Get Little Sacie Crosby late Serious Trouble

Though it was Only Valued at 25c —The Sad Result of Going Into a Onurch.

New York is not the only city that can boast of trouble with the shirt waist fad. Magistrate Houston sat on his bench this morning in judgment upon a case in which one of these

shirt waists played a very prominent

Sadie Crosby, a 12-year-old colored assie occupied the dock and this is the why and the wherefore of the connec tion between Sadie and the shirtwaist: It appears that Sadie, who looks particularly "fetching" in one of those feminine requisites, was caught in a rainstorm on Aug. 3rd, and in order that she might not be forced to appear on the stueets in dampened raiment, appropriated a shirt waist be longing to Flossie Dungby; value thereof, 25 cents. She intended to re-store the article of apparel to Flossie and told her so when they met on the street. Miss Crosby was on her way to Miss Dungby's with the shirt waist tied up in a bundle when her religious fervor overcame her maidenly discretion and she stepped into Elder Blake's church, leaving the parcel on the die while Sadie performed her devo-tions. Mrs. Crosby paid for the shirt

waist, but still Sadie was arrested on a charge of theft. At the police court to-day the lit-tle victim of circumstances was oblig-ed to plead guilty, but the Crown instructed her to change the plea, and accepted her explanation of the affair The Crown offered no evidence, and Magistrate Houston dismissed the youthful offender with a severe lecture upon the advisability of always keeping hands off other people's property, even though her own clothes may be damp. Mrs. Crosby thanked the Magistrate for his lamency and led the hopeful Sadie out of the court
