CURE SICK HEADACHE.

THE RUSSIAN SITUATION.

Grows No Better As the Days Go By—Czar and Goremynkin.

St. Petersburg, June 9.—According to reliable reports from Peterhof, Emperor Nicholas has about decided to retire Premier Goremynkin.

A sensation has been caused by the disclosures of M. Radimirov, a correspondent of The Twentieth Century, formerly The Russ, who declares that six out of the eight men executed at Riga were innocent, and adds that they were forced to confess by tortures which put the Spanish Inquisition to shame.

In the Lower House of Parliament yesterday M. Siplaguine of Sebastopol, a nephew of the late Minister of the Interior of that name, proposed a resolution instructing President Mourmou to go to go to Peterhof in the name of the House and request the Emperor to suspend all death sentences.

After an exciting debate the House rejected M. Siplaguine's proposition and passed the Constitutional Democratic resolution offered by M. Naoukoff.

BEWARE OF OINTMENTS FOR CATARRH THAT CONTAIN MERCURY.

As mercury will surely destroy the sense of smell and completely derange the whole system when entering it through the mucous surfaces. Such articles should never be used except on prescriptions from reputable physicians, as the damage they will do is tenfold to the cure they may possibly derive from them. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, O., contains no mercury, and is taken internally, acting directly upon the blood and mucous surfaces of the system. In buying Hall's Catarrh Cure be sure you get the genuine. It is taken internally and made in Toledo, Ohio, by F. J. Cheney & Co. Testimonials free.

Sold by Druggists. Price 75c. per bottle. Take Hall's Family Pills for constipation.

DOMINION PARLIAMENT.

Ottawa, June 9.—On motion to go in to supply yesterday afternoon Mr. Clements introduced a resolution in the House on the tariff question, and these members followed him: Mr. Martin (Wellington), Mr. Henderson (Halton), Mr. Clark (South Essex), Mr. McKenzie (North Bruce), and the House then went into supply on the Marine and Fisheries estimates.

FIVE YEARS' DYSPEPSIA CURED.
"No one knows what I suffered from stomach trouble and dyspepsia," writes Mr. A. B. Agnew, of Bridgeville. "For the last five years I have been unable to digest and assimilate food. I had no energy, my strength ran down and I felt miserable and nervous all the time. I always had a heavy feeling after meals and was much troubled with a dizziness and specks before my eyes. Dr. Hamilton's Pills were just what I needed. They have cured every symptom of my old trouble. My health is now all that can be desired." By all means use Dr. Hamilton's Pills; 25c. per box at all dealers.

Indiana For Bryan.

Indianapolis, Ind., June 8.—Democrats of Indiana, in convention yesterday, adopted a platform strongly endorsing W. J. Bryan for the presidency and selected a state ticket for all officers except governor.

Pangs of Despair Love.

Victoria, B. C., June 8.—Insane with jealousy, Gunner Butler of the Work Point Garrison yesterday shot twice at Irene Halliday, who had rejected him.

TO CURE FEVER, CHILLS, AGUE.

We know of no remedy so reliable as Nerville's. Twenty drops taken at water three times daily not only tops the chills but destroys the disease completely. Nerville's is a direct action on ague and chills and removes their exciting causes. In stomach and bowel disorders Nerville's has held first place for nearly fifty years. It is powerful, swift to act, thorough, and perfectly safe, being pleasant to taste it is popular everywhere. Your druggist sells Nerville's in large 25c. bottles; satisfaction guaranteed.

DITTO IMPERIAL LIFE

Amounts Taken From Books and Then Put Back Again.

Some Juggling With the Accounts to Deceive Government Inspectors—Making Things "Seem"—"A Generous Act" of Which the Like Was Never Before Done in Canada—Dummy Shareholders.

Toronto, June 9.—The Imperial Life Insurance Co., which Hon. George A. Cox said has brought into existence so that his son, Frederick W. Cox, might be general manager of an insurance corporation, is now under investigation by the Dominion Insurance Commission. Mr. Thomas Bradshaw, the actuary of the company, has been summoned to appear before the commission on the stand through-out yesterday. A large number of members of the staff of the different Cox financial corporations were set down as shareholders in the Imperial despite the fact that all of the dividends were paid to the Central Canada Loan and Savings Co., which owned a large percentage of these shares.

The complaints of policyholders of the Canada Life were confined to certain subjects, and Mr. Shapley selected several of all the rest. He said that the grievances of policyholders were set forth in hundreds of letters which had reached the commissioners. These complaints could not be investigated individually, but he thought those selected would cover the entire ground. The first selected was that of Policyholder Keenan, who in 1887, at the age of 65, accepted \$5,000 insurance, paying annual premiums of \$449.60. When the amount paid reached \$6,752.90 the policy was surrendered for \$2,049.

Another man wrote that within six months the Canada Life had offered him three different surrender values. Mr. Sanderson said that in this case the company was charged by the policyholder with making misrepresentations, and the company was anxious to settle.

The salary list. On the stand in the afternoon, Mr. Bradshaw told the duties of the executive committee, which met three times a month. They looked after investments, etc.

The salary list was taken up by Mr. Tilley. F. G. Cox, managing director prior to 1905, received \$36,000, and in that year his salary was raised to \$3,000. Mr. Bradshaw, secretary and actuary, received \$2,500 from 1897 to 1899; \$3,500, 1899 to 1902; \$5,000, 1902 to 1905, when it was raised to \$6,000, his present salary. The directors received \$7.50 for each meeting they attended but no other fees.

Mr. Bradshaw explained their agents' balances in Mr. Blackadar's report. At the end of 1901 there was \$3,412.44 agents' balances, but this was taken off the books by Vice-President Ames giving his cheque for the amount. At the beginning of the next year this was transferred back. The result was to keep the item out of the blue books. At the end of 1902, over \$8,000 was advanced to agents. In 1903 the agents' balances amounted to \$11,404.03. Mr. Ames, however, had dropped out of the company and witness said that Senator Cox took his place and paid the cheque, to square the books.

"Was this paid back to Senator Cox at the beginning of the year?" asked Mr. Tilley.

"No, it was not paid back until Aug. 3, 1904," answered Mr. Bradshaw.

"Why was this?" queried Mr. Tilley.

"The minutes will show that," said witness.

Mr. Tilley read the resolution of a meeting of the executive, held Aug. 3, by which Senator Cox was paid back his loan with interest.

"How was that money treated in the books after Senator Cox was paid?"

"An individual account was opened, and later written off as an expenditure."

The item then appeared in the blue book of 1904 amounting to \$95,127," said Mr. Tilley.

"What happened in 1905?" asked Mr. Tilley.

"The account was considerably reduced," to \$6,646.85," said witness, "of which the company had a paid-up life policy of \$5,000, and two other policies amounting to \$3,000."

"Is that shown in the annual statement?"

"Yes, it was written off. Other houses would treat them as bad debts."

Commissioner Kent wanted to know if no returns were required by the Government, would these transactions have taken place?

Mr. Bradshaw admitted that they would not.

Would It?

"Would it be fair to call this 'juggling'?" laughed the commissioner.

S. H. Blake, K. C., appearing for the Imperial Life, asked witness, through Mr. Tilley, if he considered Mr. Ames' guarantee in 1901 was flimsy. Witness answered that it was the best guarantee, as Mr. Ames was a man of wealth.

Mr. Tilley then asked witness of further payments made to the company by Mr. Ames.

Mr. Bradshaw said that Mr. Ames gave \$25,000 to assist the company to meet expenditures in 1901. He explained that when the company commenced business, Messrs. Senator Cox, A. E. Ames and J. W. Flavell paid amounts to the company from time to time to assist in the establishment of business.

For these payments the company was under obligation. The amounts were as follows: In 1898, \$7,000; in 1899, \$10,000; in 1900, \$5,000; in 1901, \$10,000; in 1902, \$35,000; in 1903, \$24,000.

Mr. Tilley could not find these amounts in the returns. Mr. Bradshaw explained that these were gifts to the company.

"Was the object to keep down these items in the company's accounts?" asked Mr. Tilley.

Mr. Bradshaw became excited. He leaned far over the edge of the witness box.

A Generous Act.

"It was an exceedingly generous act. We were proud of it. It was never done in Canada before. It was all done for the benefit of the policyholders."

"Now, will you answer my question?" Mr. Bradshaw admitted that the

money was received to help the company keep down its expenses.

The revelation of investments was touched upon. Mr. Bradshaw said that in reference to Sao Paulo bonds, he considered these bonds a perfectly authorized investment, for the reason that the company was incorporated in Canada. In December, 1900, \$30,000 was advanced on Sao Paulo bonds; also, Jan. 2, another loan, through the National Trust Co., of \$70,000. The \$100,000 was paid back in July, 1902.

Mr. Tilley went over all the dealings of the Imperial Life in the Sao Paulo Light and Tramway stocks. The stocks were kept out of the return by the transfer of cheques as per usual.

Mr. Tilley asked if any other stocks had been treated in the same way. Mr. Bradshaw did not know of any.

Unauthorized Investment.

In 1903, the Imperial made a loan of \$152,758.87. This was shown in the minutes as the purchase of \$38,742 Twin City, \$18,165 Dominion Coal, \$9,945 British America, \$25,024 Western Assurance, \$60,181 Ontario Bank.

"Of these, Dominion Coal and Twin City were unauthorized," asked Mr. Tilley.

"Yes," answered Mr. Bradshaw; "but we had bought some Dominion Iron and Steel and some Dominion Coal before this."

"You knew they were unauthorized?"

"Oh, yes."

Mr. Bradshaw showed Mr. Tilley how the transaction was treated in the company's books. Mr. Tilley read the changed minute, which made the \$152,758.87 a loan to George A. Cox.

Mr. Bradshaw explained that the loan was to Senator Cox on Mr. Ames' securities, and that the Senator hypothecated these to the Imperial Life. The securities had a market value of \$170,000.

Mr. Tilley spent considerable time before adjournment in dissecting the minutes to find out where the mistake had been made. Mr. Bradshaw would give no information. Mr. Bradshaw will be in the witness box on Monday.

None Too Generous.

Major Moodie Tells of the Provisioning of the Arctic.

Ottawa, June 9.—The commander of the Hudson Bay expedition, J. D. Moodie, of the Mounted Police, gave evidence before the committee yesterday morning.

The only thing he had bought for the Arctic expedition was police food and clothing. He was going to buy 100 good cigars for himself, but had been told they would be provided. The provisioning of the Arctic was none too generous for the length of trip and kind of work.

It would be a criminal thing to send men north without properly providing for them. Men sitting around for eight or nine hours a day would be very unhappy without a pipe. The cigars and cigarettes were only issued on holidays.

Liquor Saved Man's Life.

"Did you consider it a wise precaution to take a supply of liquor?" asked Mr. Macpherson.

"I would not have gone without it," replied Major Moodie.

"Would a man who took liquor stand more hardship than one who did not?" asked Dr. Stockton.

"If we were travelling in the winter liquor would be the worst thing a man could take, but I have in the season liquor save a man's life. On the Arctic expedition, we did not give men liquor when on land trips. It was a different thing with men cooped up on shipboard," was the reply.

Major Moodie said almost all the rum, whiskey and whiskey was brought back and returned to the stores. The gin was not touched.

In answer to a question, Major Moodie said the crew of the boat was not supplied with clothing enough to protect them from the Arctic climate. They had to have garments issued to them from police supplies.

TWO REGISTRARS REMOVED.

Charges Were Made and Were Held to Be Proven.

Toronto, June 9.—Premier Whitney yesterday announced that two county registrars had been removed from office for cause. In both cases the charges were investigated and found to be proved.

The removed officials are: Charles Edward Whelan, registrar for South Perth.

W. W. Brown, registrar for East Northumberland.

In their places these have been appointed: H. Frederick Sharpe of St. Mary's, registrar for South Perth.

Arthur Gordon Willoughby of Colborne, registrar for East Northumberland.

HIS LIFE ENDANGERED.

Sir Henri Joly Suffered Stroke of Apoplexy in British Columbia.

Victoria, B. C., June 9.—The statement is made by intimate friends of Sir Henri Joly de Lotbiniere, now on his way to Quebec, his term as lieutenant-governor of British Columbia being completed, that the reason for the peremptory cancellation of all ceremonies in the nature of a public farewell was a dangerous stroke of apoplexy which his honor suffered, and which rendered any excitement dangerous in the extreme.

Sir Halliday Macartney Dead.

London, June 9.—Sir Halliday Macartney, counsel and chief counsel to the Chinese legation since 1885, died suddenly yesterday at his residence in Kentish Town, Scotland. Sir Halliday retired in December last and went back to Galloway, to his native Scotland, in which he had lived since 1858—when he took his M.D. degree at Edinburgh University. He was 72 years of age. For the past 45 years no student in England has thought seriously upon China without identifying his subject with the name of Halliday Macartney.

Church Union.

London, June 9.—At the Presbyterian General Assembly yesterday, the Anglican deputations, headed by His Lordship the Bishop of Huron, visited the assembly to assure hearty support in the church union movement.

Twenty Minutes Time Enough?

To Cure the Worst Headache From Any Cause—New Reduction Method.

Most headaches and pains yield instantly to the new Reduction Method—Dr. Shoop's Twenty Minute Headache Cure. The cause for these pains is congestion—a rushing of blood to the nerve centers—which distends the veins to nearly the bursting point. Swollen and enlarged, these veins and capillaries exert an irritating pressure on the myriads of nerve branches and fibres. Then there is a pain, and finally the excruciating, ceaseless ache. This new Reduction Method—disperses the blood, distributes the congestion, and finally the pains and aches disappear. It is a simple and easy method, and it is the only way to thoroughly overcome these attacks of Headache and Neuralgia. The effect of Dr. Shoop's Twenty Minute Headache Cure is prompt—perfectly suited to all forms of Headache and absolutely cures every type of Headache. For sale and recommended by

C. H. GUNN & CO.

Solder For Aluminum.

A solder for aluminum has been invented, says Consul Atwell of Roubaix, by Fernand Hecht, a mechanic of that city. With a soldering iron he can join together two pieces of the metal or join aluminum to copper, brass or iron. The invention is simple, no acids or salts being used.

ARE GOOD LOOKS VALUABLE?

If nature had her way every complexion would be clear and delightful. But many allow their blood to become weak—hence pimples, sallow skin, dark circles under the eyes. To have a beautiful complexion use Ferreroz regularly. It brings a rich, ruddy glow to the cheeks, nourishes the blood and thereby destroys humors and pimples. For beauty, health and good spirits use Ferreroz. Your appearance will improve. A hundred fold. Fifty cents buys a box of fifty chocolate-coated Ferreroz tablets. Don't put off—get Ferreroz today.

Connaught Not Coming.

London, June 9.—(C. A. P.)—Yesterday Sir John Maxwell said that the Duke of Connaught had not the slightest intention of visiting Canada. Sir John Maxwell is the inspector general of the forces and the Duke of Connaught's chief officer.

A MILLION DOLLARS SQUANDERED.

It is estimated this sum was wasted last year by people trying to find a cure for cataracts. Foolish for sufferers to experiment when it's so well known that Cataracthoxone is the only remedy that cures permanently. Other treatments only relieve, but Cataracthoxone cures and prevents the disease from ever returning. "I had Cataract in its worst form," writes G. F. Fadden, of Royan, France. "I was so blind that ordinary medicine didn't even relieve; but Cataracthoxone cured perfectly." No chance of disappointment with Cataracthoxone—it's certain as death to cure your Cataract—just try it.

More Land For Fruit Farm.

Toronto, June 9.—M. F. Rittenhouse, a Lincoln County "old boy," who has made millions in Chicago, who some time ago presented a fine school to his native village of Jordan, has recently acquired an experimental fruit farm to the Provincial Government, has purchased the fifty acres of Oscar Harris of St. Catharines, and makes it an additional present.

Good looks bring happiness. Friends care more for us when we meet them with a clean, smiling face, bright eyes sparkling with health, which comes by taking Hollister's Rocky Mountain Tea. 35 cents, Tea or Tablets.

A. I. McCall & Co.

Long Terms For Robbers.

Toronto, June 9.—Douglas Dyson, for highway robbery in Stanley Park and shooting at a G. T. R. constable, was yesterday sentenced to five years in Kingston Penitentiary on each charge. James Douglas, for assisting in the hold-up said "Thank you, sir," for a sentence of three years.

Have you been betrayed by promises of quacks, swallowed pills and bottled medicine without results? Get a damaged stomach? To those we offer Hollister's Rocky Mountain Tea. 35 cents.

A. I. McCall & Co.

Many a reputation has received a severe fracture from a slip of the tongue.

People who are clean inside will look like it and act it. They will work with energy, think clearly, act clearly and have healthy thoughts. Hollister's Rocky Mountain Tea. It makes clean people. 35 cents, Tea or Tablets.

A. I. McCall & Co.

A man's home is his castle, but he needn't get up in the air about it.

Useless Labor.

CONTROL OF ENERGY.

Is It Possible For the Human Race to Avert Extinction?

The only conceivable way in which the human intelligence can ever succeed in averting the "procession of the great year" is not by postponing the issue, but by reversing the process.

The question is this: While energy is being dissipated in accordance with the natural law, can we so manipulate things as to accumulate energy, making the unavailable available—notwithstanding the fact that cosmic processes seem to be essentially irreversible? Now there is assuredly no inherent reason why we should not accomplish this. It is true that hitherto all the atomic evolution that has been observed is atomic disintegration. We may speak now indeed, of the analysis of the elements. But so it was, we may remember, that the older chemistry began, and yet analytic chemistry was the precursor of synthetic chemistry. We began by breaking up compounds, but now we can make them—can, indeed, make compounds hitherto unknown in nature. Similarly, it is more than probable that we shall ere long learn to achieve the synthesis of the elements as well as their analysis. No energy is ever lost. Even when the radium atom, itself the child of the uranium atom, breaks down and dissipates its energy, ending, it is supposed, as the dull atom of lead, the original energies are not destroyed. Why should they not be gathered up again and thus again become available? Are matter and energy to go on their way, ultimately destroying the human race? For myself, I incline to the view that victory will rest at last with "man's unconquerable mind."

C. W. Saleeby, F. R. S., in Harper's Magazine.

LIZARDS OF BARBADOS.

They Can Change Color and Drop Their Tails at Will.

The green lizards which swarm on every tree certainly have the hardest life of any creatures in Barbados, since their flesh is so delicate that everything eats them which can catch them. Cats, owls, birds, monkeys and snakes all devour the poor lizards, which have only two methods of defending themselves, both very inadequate for the purpose. One is their power of changing their color, whereby they can appear bright green at one moment on the leaf of an aloe and then dark chocolate brown on a piece of damp earth. If this does not conceal them from their enemy they drop their tails. The caudal appendage jumps from the ground and makes a frantic dance all by itself, and if the pursuer is deluded into seizing it the lizard avails itself of the chance to escape and grow another tail.

For the rest the poor lizards are harmless things, with pathetic eyes, in which lurks an expression of weariness and disillusion, as though they were as old as the world itself and had found it all vanity and vexation of spirit. They are fond of plaintive music and will enter at the open windows when a piano is playing and sit listening and nodding their queer flat heads and looking out of those wistful eyes at the player till he or she, if of an imaginative temperament, might fancy they were playing to an audience of transmigrated souls.—Chambers' Journal.

Cigar Smoke and Love.

In Slam the lighting of a cigar indicates a betrothal. In that country a person wishing to become betrothed to the girl of his choice offers her a flower or takes a light from a cigar or a cigarette if she happens to have one in her mouth, and thereupon, provided there is no impediment in the birth months and years of the respective parties, steps are at once taken to arrange for the payment of the dowry. The families of the bride and bridegroom have each to provide at least \$1,000. In Calabria, as in certain parts of India, a lighted taper or a lighted pipe betokens the acceptance of the suitor for the hand of a lady in marriage. In Siberia it is the custom that when a suitor has been accepted by a girl she presents him with a box of cigars and a pair of slippers as a sign that he is to be master in the house.

An Oddity In Toes and Digits.

There is one curious fact respecting the animal creation with which you will never become acquainted if you depend on your text books for information. It is this: No living representative of the animal kingdom has more than five toes, digits or claws to each foot, hand or limb. The horse is the type of one toed creature; the camel of the two toed; the rhinoceros of the three toed and the hippopotamus of four toed animal life. The elephant and hundreds of other animals belonging to different orders belong to the great five toed tribe.

Fame.

Stranger (in Vienna)—Then this is the hotel which Beethoven used to frequent! I say, waiter, can you not show me the table at which Beethoven used to sit? Waiter—Beethoven? Stranger—Why, he very often came here! Waiter (rethinking himself)—Ah, yes! The gentleman is out of town.

Useless Labor.
