George's Sabbath School, delivered on New Tear's eve:

My Dean Children — Your excellent superintendent has requested me to say a few words to you on this occasion, which I trust is a pleasing one to you all. As these social meetings of the children of this Sunday School recur in summer at the annual school festival, and in winter to celebrate the joyous Christmastide, I trust that these gatherings evoke in your minds feelings of gratifude to your teachers and others, who with so much pains and labor, prepare and carry out for your gratification and pleasure the social entertainments to which you are invited; and also that you are grateful for their kindness and patience. Sunday after Sunday, in instructing and teaching you in the truther of God's Holyword. I feel and trust that you are so. You have all Joined in singing those beautiful carols appropriate to this Christmas season, which tell of God's fove to us in sending us a Saviour to save us from our sins, and who has promised to receive us into His heavenly mansions, if we believe in Him, and obey His holy word; and that He was born into this world and lived in great humility. For although He was the son of God, and King of heaven and earth, yet as a child he was subject to, and obedient to His example, and be kind loving and obedient to your parawis. What a lesson this is for you, my dear children? That you should follow His example, and be kind loving and obedient to your parawis and keep constantly in mind the fithe sappoints. and keep constantly in mind the fifth commandment, the only one withwhich Godgives a promise.
Now, children, I want you to keep always fin
mind that all good things we have and enjoy
come from God; He gives you loving parents
and friends, who care for you and love you,
numes you in sickness provide, you happy homes,
your food, and clothing, and the pleasures you
enjoy. God gives you health and vigor, eyesight,
hearing, and intelligence, that you may have
now, God gives you health and vigor, eyesight,
hearing, and intelligence, that you may
have health and the pleasures you
enjoy. God gives you health and vigor, eyesight,
hearing, and intelligence, that you may
list the flowers, the birds, and all objects
that he has created for your enjoyment; and by
His Holy Word, and through the instruction of
your minister and teachers, He tells you of that
blessed home in heaven, purchased through
you when life on earth is ended—all those who
love Him and keep His commandments. You
will, I know, ask how you can show your gratttude for all the goodness which your Heasenly
will, I know, ask how you can show your gratttude for all the goodness which your Heasenly
will, I know, ask how you can show your gratttude for all the goodness which your Heasenly
will, I know the how the house the house
you more than any earthly father can to
give you strength to obey His commandments,
and to pardon your sins; to be kind and loving
to your brothers, sisters, and playmates; obedint beyour parents; dutiful and attentive to
your teachers, endeavoring to recolled and bear
in mind the instruction in God's Word you redelve in section. I am not going to detain your
more than any give has been said
to you, and recove that through the coming
year, by God's grace, to keep the pattern and
loving example of our Saviour before your eyes,
and in your thonghts, so that if you and we are
spared to meet on another Christmas festival,
your teachers will have the mind what has been said
to you, and we reter the pleasure and gratifleation to r

Whiskey or Water. To the Editor of the Mercury.

To the Editor of the Mercury.

Sin,—The question whether Guelph is in such a financial position as to justify the expenditure of \$70,000 in the construction of water works for the protection of the town, in case of fire's now being fully lebated. There cannot be anyquestion that there should be the greatest economy practised in the management of municipal matters, especially during this time of commercial depression; but in the matter now under consideration it is very possible to be "pennywise, pound foolish," and I am inclined to thick that in the event of water works not being configuration unforts: structed, and a sweeping conflagration un nately occurring, the men who are now works, will not be very forward to mount to platform to justify the line of action they a

platform to justify the fine of action day on now taking.

But, Mr. Editor, is there no way out of the financial difficuma? I think there is, the cas spent in two years by the people of Guelph for intoxicenting liquors (that do no good to body c Sod,) but a terrible amount of harm would pe

spent in two years by the people of the consumers, and the toys would be richer in property to that amount as an offset to the cost; to say nothing of the additional socurity from the ravages of the firedomon, that we should then enjoy.

1-is to the continuous, animal missapplication of thousands of millions of dollars by the people of North America and Great Britain for such fiquors, the manufacturing of which give but Little employment, compared with what would be given if the same amount of money were spent in the purchase of really useful articles such as better dwellings, better furniture, more clothing, boots, shoes, &c., &c., that the prescipt hard times is greatly to be attributed; and while the people of these countries spend their money to recklessly for things for which they do not got an article equivalent in value in return; but which is also a curse to the consumer, and the community where they are useful world in the sheerest folly to be surprised as being short of funds for the prosecution of really useful world and the community where they are useful works. If a man earns say solt, and then throws one dollar into the stove, or into the river, he has one dollar less to spend for really useful articles; and his purchasing power being, by his folly, cuttailed one tenth, there is one tenth less goods required to be made and sold; consequently, working men, invertants and the ramily of the things of this life as ting of the properties of the same intapplication of money by a multitude of persons produces on large scale the same results as in the case of the intervious, the same intapplication of money by a multitude of persons produces on large scale the same results as in the case of the intervious has purchasing power between the same intapplication to money by a multitude of persons produces on large scale to the same intapplication to money by a multitude of persons produces on large scale to the same ones also an early the case of the intervious has produced to the same intapplication to money
