Brs : Thiving read in your last issue, the very able letter and resmarks on the subject of the mean extraordinary appointment lately held by Paymaster Macdonald — it has strack me as no less singular, that the Members of the Royal Highland Society, have quite overleaked one of the unoit cogent reasons, why Mr. Macdonald should not held any appointment in this or any other Militia — which is neither more nor less, than that by Her Majesty's Royal Warrant, Paymasters are positively forbidden to exercise, hold or assume, any military

While on this subject, I may take leave to remark, that had the late difference with our neighbours ended as at one time was surmised, and a descent been made in St. Poter's Bay-sending on a little Pic Nic excursion to Charlottetown, a couple of pieces of light Artillery, a rocket gan, and a few Blae Jackets and Marines, we might have ind a still more forcible argument, why our once excellent and zelously commanded Militia, should no longer be kept so much in the background as it must have been, to allow of one of the principal appointments being made a plaything of, for the long period of twelve years.
