A dastardly attempt was made on Sunday night last to fire a vessel lying near the south, belonging to Captain Nicholas Fitzgerald. It seems that on the arrival of the "Vanguard" on Sunday night, two of Capt. Fitzgerald's brothers, who were in her, were proceeding home, and when in the vicinity of the vessel discovered her on fire. After some difficulty the fire was extinguished. The damage done is estimated at £50. No clue has yet been obtained of the perpetrators of this unlawful act.

A considerable number of Wolves were seen in the neighborhood of the 'Hard Path' to the north of the River Head during the week. We learn that some of our bush rangers went forward in pursuit of the animals, but have not heard up to this time of the number captured. These wild visitors very rarely venture out so near the town.

The Gander Bay Company Limited, of whom mention was made in our columns some time ago, have thrown the project overboard. We learn that some of the 'schemers' were forming with rage at our remarks about the affair, and were so determined to proceed with the movement that the government was at once communicated with and a grant of the whole of Gander Bay and Bay together with a charter of incorporation demanded within a certain time. The government was, however, on the alert and met these gentry with a gentle rebuke, and also told them in a straight forward manner to go home and attend to their own business. The hint was accordingly taken and the consequence is that the 'worthies' will be allowed to remain in the place and all that band of utopian 'schemers' will be left to ponder over their foolish notions, and quietly content themselves by knowing that the STAR never sets, but peeps out at intervals and spots all who require to be spotted.

[TO THE EDITOR OF THE STAR.]  
SIR,—  
Will you do me the favor of inserting

ing the following communication, and oblige,  
OBSERVER No. 2.

(To the Standard's Correspondent Caracas.)

SIR.—I beg to return you my very sincere thanks for the valuable information with which you have been so graciously pleased to proffer in the "Standard" of Saturday last, relative to the feline. It is evident that you are perfectly at home with the subject of 'catology'. You bear impress of having been reared from your infancy amongst the feline tribe, and if I am permitted to judge aright, there exists a very close resemblance indeed betwixt this animal and yourself, especially about the smelters. It is also only reasonable to conclude from various others tokens which both of you possess, that you must be closely related. I intend advertising shortly for a suitable being to act in the capacity of keeper for this animal, and I think, seeing your knowledge and inclinations you might prove a very efficient being indeed to discharge the duties of tutor and keeper. You would require to take out the animal once every morning for exercise; and to hold you parading Water Street with "Mitchell's Maritime Register" in your right paw proclaiming the weather statistics, and in your left the chain with you fellow creature attached to the opposite extremity, accompanied by about 100 boys in your rear, hallowing and shouting at you; talk of Typhoons in the Indian Ocean, and Earthquakes in Sumatra, why! these would be no comparison whatever. Any day during the present week by your calling at my residence I will allow you an interview with the animal, which I have secured by the neck and attached to a ponderous chain in my conservatory, and then if you turn out to be a near relative, and the animal takes well with your appearance, I might engage you with without further delay.

OBSERVER No. 2.

On Monday last while devising an article for our columns who should put in an appearance in our sanctum but our esteemed countryman, Skipper Has. After viewing his appearance for a short time, and feeling certain that a pugilistic encounter would undoubtedly take place, we posted our devil in his rear, with instructions to watch his movements. We politely wished him good-morning, hoping by this means to extract a Three Pence, for a copy of the STAR. In this we were disappointed. After viewing us for a short time he said—"I am commissioned by the folks who is building the new church, which you have christened Starrigan wordies, (At this stage our devil struck up "Then hurrah! for the Starrigan Church, &c., and make his exit followed by Skipper Has. The boy made for the ice, and the Skipper in endeavoring to reach him fell through. This created a great confusion among the boys who quickly commenced the new song, where upon Has returned to our office.) They told me to call on you and request that you will let us alone, and to mention that they will subscribe to the STAR if you will let the matter drop. There is plenty of room for two churches for at the last 'sentiments' there was two thousand church people in the district and that and there is no room for that lot in the old one." We asked him where he had seen the Star, and was informed that he borrowed it from Steven who borrowed it from Nat, who borrowed it from John William, who borrowed it from Pago, who borrowed it from Joe, who borrowed it, we are sorry to say, from one of our subscribers. One worthy, in the presence of a number of ladies, declared that he would sacrifice the common necessities of life, such as his watch and chain, with ornaments attached, studs, ring, and other preliminaries to advance the undertaking.

DIED.

NOTICE!

THE Public are respectfully informed that the object for which their assistance is solicited in an advertisement in the Standard of the 10th inst., in no way deserves their countenance or support. The proposed erection of an Episcopal Free Church in this town is intended by its projectors to be in opposition to their own Parish Church and Minister. The Church-of-England members of this community are a ready provided with sufficient accommodation in their own place of worship.
