His son, in middle age, was killed in the civil war.

The Newfoundland people are much interested at the prospect of a revival of trade between St. John's and Bristol, England, as advocated by Premier Morris, at a banquet in Bristol. Formerly there was very considerable trade between the two places and it is likely that Bristol will send a commission to investigate the possibility of such revival.

A mysterious shooting occurred in the village of Vaux, near Ottawa. Dr. Empey, a prominent physician, was summoned to the residence of a friend named Blonnie. While attending the slain Blonnie discharged a shot gun at the doctor. The latter died shortly after, but previous to his death made a statement that Blonnie shot him deliberately. Blonnie claims no shooting was intended. He was arrested and after preliminary examination was sent up to the Supreme Court for trial.

A dead mule from Chicago, attending the World's Congress of the Deaf at Colorado Springs, climbed to the summit of Pikes Peak, 14,177 feet above the sea, fell a peculiar buzzing in his own. He declared to his companions that he heard all sounds; but could not distinguish any words. He heard the noise of tramping and conversation and an engine and finally the braying of a burro which he imitated. As they descended the partial hearing left "Haley," and at 5,000 feet below he was as deaf as ever.

Late editions of the Japan newspapers, announce that under the Treaty of Portsmouth, Japan has today annexed Korea, thus adding a territory as large as England and fourteen million people to the Mikado's Empire. Korea has been named the "Hermit Nation." It is mainly a peninsula and figured to quite an extent in the late war. It has been noted for its volcanoes. It became independent of China in 1895. It also includes numerous islands in the Yellow Sea and Strait of Korea and the island of Quinsai 90 miles south of the peninsula.

The Championships athletic sports on the Abegweit athletic grounds on Wednesday evening last were a splendid success and were attended by an immense crowd of people. Special and regular trials as well as steamer brought a vast concourse of visitors. The Grand Stand was crowded as it had never been crowded before and all around the field the people stood in rows. The sports began at six o'clock and all could see the sports from every part of the enclosure. When night came the place was lit up with innumerable electric lights so that no inconvenience was caused to spectators. The gathering was most orderly and creditable in every respect, and under the electric light the ground presented a beautiful appearance. A great amount of interest was centered in Fred Cameron, the Amber champion runner. He won the one mile race in 4 minutes 34.5 seconds, a second behind the record for the Maritime Provinces. In the five mile race he was never headed and finished in 26 minutes 18.5 seconds; 17.25 seconds behind his own record. Michael Thomas was a good second, and Sigling of St. John third.

Cholera Recors.
ST. PETERSBURG, Aug. 20.—One week's cholera record for Russia shows 23,944 new cases of cholera and 10,726 deaths, bringing the total number of cases in Russia this year up to 115,905. Of these, 50,287—or nearly half—have died, the exact percentage of mortality being 44.5. The figures are those furnished by the Sanitary Bureau, covering the week from August 7 to August 15, inclusive, and are therefore fully official.

Reports from Red Cross sources indicate that the actual figures are somewhat greater, so it is impossible to register every case in an epidemic of such proportions. Of the deaths last week 1,675 were reported from the district of Don Coosaca, 1,018 in the district of the Kuban Coosaca, 789 in Samara province, 416 in Voronezh, 411 in Terek Coosaca district, 393 in Ekasov province, 304 in the Crimea, where Russian troops for these summer months, 293 in Tumbor province, and 235 in Kherson province.

The epidemic in St. Petersburg shows a considerable decrease, only 295 cases and 136 deaths having been reported for the six days ending yesterday. In comparison to the 577 cases and 293 deaths reported the previous week. The sanitary authorities believe from now on the epidemic will continue its natural decrease. The total figures for St. Petersburg since the case were reported (from 29) show 2,678 cases and 976 deaths.

Improved Conditions in Ireland.

Much has been accomplished of late years in the way of improving the housing of agricultural laborers in Ireland. A traveller who has visited the Emerald Isle this summer writes of "the enormous change that has recently been wrought owing to the erection of cottages." Reviewing what has been accomplished in this way, Chief Secretary Birrell pointed out not long ago that the Laborers' Acts between 1883 and 1896 resulted in the building of 91,000 cottages. They were built on certain terms of current rates of interest, and undoubtedly made a heavy addition to the burdens of the ratepayers.

The Bryes Act of 1906 placed at the disposal of the rural district councils \$21,250,000 on land purchase terms—namely, 2 3/4 per cent. interest, or 3 1/2 per cent. annuity. Under that Act up to the present time 23,000 cottages have been built. More cottages have been built since 1906 than were built in the thirteen years between 1883 and 1896. This great increase indicates very

clearly the improvement in the financial terms, and it is reasonable to assume that not only in Ireland, but in any other country, if the terms are made easy enough the result in view can be secured. The British government has decided to advance another \$5,000,000 on precisely the same terms as regards the rate of interest as in the first instance. The provision for the laborers and the distribution of the great estates among the tenants, who thereby become proprietors, have effected a revolution in less than a generation. Ireland now bids fair to rival Denmark, Holland or Belgium as an agricultural country.—St. John Standard.

Tailors and Gents' Furnishers.

To Be Well Dressed at a Reasonable Cost
Let Us Make Your Suit!

Have you been giving your money away to a poor tailor for clothes that did not satisfy you? or worse still have you, thinking you were saving two or three dollars on your suit, paid your good money for a "Ready-Made"—a suit that stays good only until you wear it, and instead of adding to your appearance, will by its bad fitting qualities make you appear poorly dressed. Have you ever thought that a "Ready-Made" was the most expensive suit you could buy. Do you know that one good Tailor-Made Suit at \$20.00 to \$25.00 will outwear any two Ready-Made at \$15.00, and that the made-to-order suit will hold its shape and its good looks until the cloth is worn out, while a Ready Made will only look good for a short time. Isn't it cheaper for you to invest \$25.00 for a good suit once a year, than to invest \$15.00 for a poor one, twice in that period? You will agree with us in that, wont you? Then our proposition is this: We keep a stock of all the best cloths made—we have Worsteds, we have Tweeds, in all the leading shades; we have Serges and Venecias in blue and black—in fact we have everything that's made for men's clothes. We have expert cutters, men who have spent years in studying the art of designing men's clothes, and we have a staff of workmen trained in every branch of the trade, men who put into a job work of the highest order.

You can select a suit at any price from \$18.00 to \$30.00. We will make it to your individual measure, we will put the best of trimmings into it, and we give you good style and the best of workmanship. In short, your money is not ours until you are satisfied with the suit in every particular.

Don't you think it will pay you to leave your order with us?
