HAPPY THO' MARRIED?

There are unhappy married lives, but a large percentage of these unhappy homes are due to the illness of the wife, mother or daughter. The feelings of nervousness, the befogged mind, the ill-temper, the pale and wrinkled face, hollow and circled eyes, result most often from those disorders peculiar to women. For the woman to be happy and good-looking she must naturally have good hea/th. "I suffered greatly for a number of years and for the past three years was so had that life was a misery to me," writes Mrs. B. F. Dick-over, of Utica, Ohio. Route 4. "The doctors told me I would have to go to a hospital before I would ever be better. A year mgo this winter and spring I was worse than ever before. At each period I suffered like one in torment, I am the mother of six children. I was so bad for five months that I knew something must be done, so I wrote to Dr. R. V. Pierce, telling him as nearly as I could how I suffered. He outlined a course of treatment which I followed to the letter. I took two bottles of 'Favorite Prescription' and one of 'Golden Medical Discovery' and a fifty-cent bottle of 'Smart-Weed,' and have never suffered much since. I wish I could tell every suffering woman the world over what a boon Dr. Pierce's medicines are. There is no use wasting time and money doctoring with anything else or any one else."

urgent necessities of Life, and it is an extraordinary thing that in each case our thoughts turn to Gas; this, after all, is but natural. We want Light, gas gives us the best, cheapest and healthiest artificial light known. Again, we want Warmth, and the gas fire is at hand to give it in its best form; and, lastly, we must have Food, and here the gas cooker never fails us. All this is absolutely true, as we have shown over and over again.

If, however, any of our customers

are in the least doubtful on any of these points, we cordially invite them to consult us. In the meantime, our advice is to get good burners and buy mantles of well-known makes, to use modern gas fires and cookers, and, above all, to keep your gas appliances (whether old or new) in good order, for in this is the true secret of efficiency and complete satisfaction.
