Chicago Wheat.

Chicago, June 7.—Holders of wheat showed an increasing desire today to convert profits into cash before the government crop report Monday.

Drenched fields in southwestern Kansas, where absence of rain has been noted, formed a decided incentive.

The market, though steady at the close, was 1-8 to 1-4 under last night. Oats finished off 1-4 to 3-8 to 1-2.

Besides good rains in Kansas and elsewhere in the winter crop belt, bearish news on wheat included reports of heavy cargo arrivals at Liverpool and a notable gain in the English visible supply.

Furthermore, domestic primary receipts were more than double those of last year, being 41,000 bushels against 23,000. At the same time export clearances of flour and wheat were light, equalling only 274,000 bushels.

Inspection in the 72 spring crop territory had a tendency to prevent any important wheat rallies in this country in the immediate future.

July and October oats were a shade easier and closed 1-8 to 3-8 lower. Flax closed unchanged to 1-4 lower.

Cash oats closed 1-4 lower to 1-4 higher.

Cash flax closed unchanged.
