STOCK MARKETS. H. C. Becher, stock broker, Bank of Commerce building, received the follow-ing by private wire from Bartlett, Frazier & Carrington today:

New York, Aug. 30.-Noon.-London as an important factor to the market at the opening of business. Foreign first-class security at the highest houses took large amounts of United States Steel, S. Railway and other stocks. It looked a good deal as if a big short interest had been run in steel preferred, although that stock has been widely advertiser in the past days for a rise of 10 or 15 points. It ns a rather curious time to start a novement, as this quarter's earnings will undoubtedly make a very poor showing, and if so that will excite some doubt as to the dividend. The movement in B. R. T. was the most striking feature of the market after the opening, but as is nearly always the case nowadays, there was no particular rumors accompanying the rise in the stock. The Metropolitan stocks Corn, futures firm, spot dull, with buyhave been comparatively heavy, although it is believed that Mr. Skitt's prices. return to this country on Thursday will dealings in local traction situation. St. Paul has not acted very well since the

posed, and it looks as if the process was continued this morning. Still stocks: Wheat, 3,278,000 bushels, in-there is a fairly active borrowing de-creased 591,000: corn, 2,802,000 bushels, mand for stocks, and in fact the loan narket last night suggested that there increased 2,000,000. had been considerable increase in the short interest.
