Wednesday, March 8, 1905. Hay and oats were about the only products of the farm offered today. There were 26 leads of hay offered to day; sales were brisk, as all of the leads were sold by 11:20 o'clock, the sales being made at \$8 50 and \$8 75 per ton for the majority of the loads, Several loads of oats went at \$1 15 per cwt. Hay and Straw-Although the supply of hay has been large, amounting to over 200 loads, there has been a good demand, as a number of the pro-prietors of hotels and liveries have been laying in a stock in expectation that the roads would soon break up. Most of the loads sold at \$8 50 and \$9 per ton for the best hay. Inferior loads went at \$7 to \$8 per ton. the Toronto market there is a difference of \$2 to \$3 between the price of good hay and the inferior loads, while on the local market there is but 50c to \$1 between the price of choice and inferior hay. Dressed Hogs—The market is firmer, owing to the light supply; the demand is brisk, and prices have advanced about 50c per cwt for light hogs which weigh from 125 to 140 lbs; most of the sales were made at Tuesday's market at \$7 75 per cwt; heavy hogs of about 200 lbs sell at 13½e for common, 10 at 13½; Toledo Railway, 25 at good to cho do cho Ib for hens, and 12%c to 13%c made at Tuesday's market at \$7 75 per cwt; heavy hogs of about 200 lbs sell at \$7 25 per cwt; fat sows at \$5 to \$5 50. One of the most generous offers ever sumption, and I thought the establishing of a hospital in London would be a his fellows was made a short time ago by Mr. Thomas McCormick, sen., when that gentleman proposed to hand over his beautiful residence on Grand avenue to the Women's Christian Association of London for a hospital for consumptives. "Yes, I offered the building and land to the Women's Christian Association. I have taken a deep interest in the work of preventing the spread of conmove along the right line. I am sorry the offer could not be accepted.' It was said today that certain prom inent citizens, who are anxious to

have a contagious hospital established in London, have approached Mr. Mc-Cormick with a view to having him amend his offer so as to convert the Grand avenue residence into a hospital for children.

As yet the board of health has not taken up the matter. Today a physician told a reporter that every day the matter is allowed to hang fire it means probably death to the little pa

It is said that if the board does call a meetlews would not allow of such a hospital being conducted within the city limits. Thus Mr. McCormick's munifi- will astonish that body.
