ALLIANCE CONTEMPLATED

Better Understanding of Russian Situation.

Washington, Jan. 27.—Germany's appointment of Dr. Wilhelm Solf as charge d'affairs, and eventual ambassacharge d'affairs, and eventual ambassador at Tokio, is accepted here as an indication that a close understanding with Japan is to be a feature of the new German foreign polley, now that it is permitted the German republic to re-open diplomatic relations with other governments. That Dr. Solf should be sent to Tokio is regarded here as highly significant, for one thing, because the anglo-Japanese alliance expires by limitation at the end of this year and there is said to be some division of sentiment both in Japan and Britain over its renewal.

It has been the feeling in diplomatic circles for some time that the Germans, once they had established their diplomatic standing again would move diplomatic standing again would move diplomatically toward the east and that a German-Japanese-Russian understanding or alliance would be their ultimate objective. Dr. Solf, representing the Wilhelmstrasse of the old days as well as the new, is one of Germany's greatest living experts on eastern affairs and has spent much of his life in the Orient. It is the belief of some persons cognizant with the international situation that Dr. Solf will encourage that party in Japan which is opposed to a renewal of the Anglo-Japanese alliance as a preliminary step to a Japanese-German understanding on Russia.

In official circles here there is considerable doubt whether Great Britain is anxious to renew the Japanese agreement, the treaty being tremendously unpopular with the people of Australia and New Zealand.

WORST SLEET STORM IN YEARS CRIPPLES **NEW YORK TRAFFIC**

Trains Run Late While Pedestrians Slip and Slide.

New York, Jan. 27.—Transportation in New York was crippled early today by a severe sleet storm. Electric trains from outlying districts were hours late and service on the elevated and trolley lines was considerably below normal. As a result, many thousands of persons were late for work. Streets and sidewalks were a glare of ice, making the walking perilous.

Weather sharps said the storm was the worst of its kind since 1902. The greatest tie-up was on the Canarsie-New York line to Chambers street, where only three trains were operated between 1 a.m. and 6 a.m. Trains from Jamalca were nearly three hours in making the trip to New York, the ordinary time being 45 minutes.
