GERMANY TOLD ALLIED CONTROL TO REMAIN London Girls Are Invited To Special Theatre Party

AMENDMENT TO BANK ACT WOULD WARN DEPOSITORS

G. G. Coote Submits Changes
To Protect Interests of
Customers.

GOOD SEEKS FACTS

General Manager of Royal
Bank Testifies Before
Committee.

Canadian Press Despatch.
Ottawa, May 29.—G. G. Coote, general manager of the Royal Bank and acting president of the Canadian Bankers' Association, was the chief witness before the banking and commerce committee of the House of Commons this morning. Before he was examined, however, two proposed amendments to the bank act were put before the committee by G. G. Coote, Progressive, Macleod. The first of these was that a notice should be displayed in each bank warning the public that the government does not assume any responsibility for deposits. The other was a requirement that each bank should post up in its premises within the first 15 days of a month a statement of the deposits and loans outstanding at the end of the preceding month.

Mr. Coote said at the outset that he had already been before the shareholders of his bank and stated that he should be only too glad to submit to any reasonable inspection, be it government or otherwise, so long as it was efficient.

In reply to a question by W. C. Good, Progressive, Brant, he said he did not consider the liabilities of Canadian banks excessive in proportion to capital. As to the value of bank buildings as an asset in case of failure, he expressed the view that what could be recovered would be not nearly as much as had been invested.

Precipitates Discussion.

Mr. Good precipitated a discussion in the committee by questioning Mr. Coote regarding the transfer of deposits from smaller to larger banks. "Do you think it well to discuss this?" said Mr. Coote.

Hon. S. H. Stevens (Conservative, Center, Vancouver), thought such a discussion "a frightful injustice to the smaller banks."

Mr. Coote, a little later, to bring the matter to a conclusion, asked if Mr. Coote had any proposal to make "to save banks in danger of disaster through no fault of their own."

"I cannot admit that there is any danger," said Mr. Coote. "The only danger," he suggested, that it might be well to hold a sitting of the committee in camera to get information. "I am not prepared to let matters drift," declared Mr. Coote. "I think the committee should have the facts in order that it may take the appropriate remedies."

In reply to L. J. Lader (Conservative, South Vancouver) Mr. Coote said he regarded the Lader proposal for a guarantee of savings deposits in excess of \$2,000, as "impracticable and misleading."

HOBBY FAIR CUP WINNER IN SCHOOLS ANNOUNCED

Lord Roberts Is First, With
Wortley Road Close
Second.

DECIDE ON POINTS

Pottersburg School Has Splen-
did Showing, Standing
Third On List.

Lord Roberts School wins the sil-
ver trophy donated by The London
Advertiser to the school winning the
largest number of points in the Ro-
tary Club Hobby Fair, held in the
armories the week of May 12. Wort-
ley Road School ran a close second,
and Pottersburg a smaller school,
did remarkably well to come third.

Lord Roberts School achieved its
success through the large number of
prize winning exhibits which found a
place in practically all of the twelve
big departments in the fair. Wortley
Road School made higher averages
in some departments, but lost out on
the average.

The points decided on by the judges
were: Gold medal, 100 points; silver
medal, 75 points; bronze medal, 50
points; first, 50; second, 40; third,
30; fourth, 20; honorable mention, 10.
Cash prizes were allowed no points,
as they were only to prize winners.
The winner was decided upon by
striking an average with the number
of pupils on the enrollment of each
school. In this way the Hobby Fair
committee felt that the small and the
large schools were each given a fair
show.

Lord Roberts School had an aver-
age of 3.33 points per student for the
total number of nearly 500 stu-
dents in the school. Wortley Road
averaged 2.87 from 526 students, and
Pottersburg 2.56, with attendance of
219 pupils.

High Averages.

Following points by departments
show Lord Roberts' consistently high
averages: Boats, 75 points; art, 150
points; collections, stamps, etc., 480
points; stock, 500; mechanical
and wood working, 400; sewing, 210;
electrical, 20; pushmobs and miscel-
laneous, 130. A grand total of 1,665
points.

The medalists ran up high scores
for their schools.

They were fairly well distributed
through all the schools, the silver
medal won by T. Wrenshall for the
best boat was won by a pupil of
Lord Roberts' school, as were the two
bronzes contributed by Eleanor McNeill,
who scored high in art, and by Ben Hig-
gins, winner of a household depart-
ment, were however lost in other
departments as in art, where Wortley
gained but 10 points. The seven
medalists of Wortley Road ran up a
high average, but as the school did
not have as large a number of ex-
hibits they went behind.

Bill Walker of Pottersburg scored
high for his school and won the sil-
ver third place. In addition to winning
the bronze medal, he won the Wil-
liam McNeill special silver medal and

GERMAN LABOR MINISTER RULES AWARD BINDING

Associated Press Despatch.
Berlin, May 30.—Despite the coal
operators' declaration that the award
in the mining dispute is unacceptable,
and although only the Christian
miners' unions approve, while the
Socialist unions are against it, the
labor department today ruled that the
award is binding on both parties.
This means an end of the conflict,
provided the operators and radical
unions bow to the decision.

The labor minister holds that the
award points to the only way for the
resumption of production urgently
needed in the interests of Germany's
economic life.
