SPECIAL TO THE DAILY BRITISH COLONIST.

Europe.

LONDON, Feb 25.—Midnight.—It is now thought that Disraeli will resign his position as Chancellor of the Exchequer. Sir Stafford Northcote will take his place. Nobody is yet named to succeed Northcote as Home Secretary of State.

Official despatches from General Napier say the envoys sent to Prince Cassai were well received. The Prince has 2000 warriors assembled at Edmar.

PARIS, Feb 25.—Parker, the American who took part in the alleged disturbances at the performance of Victor Hugo's "Ruy Bias" in the Odéon Theatre, has been sentenced to six days' imprisonment and a slight fine.

BERLIN, Feb 25.—The new treaty provides that the Germans must obtain a license to emigrate, which shall be returned when those who, after taking out naturalization papers and residing in a foreign country five years, shall be released from militia service in Germany.

LONDON, Feb 25.—The House of Lords has agreed to a bill renewing the suspension of the writ of habeas corpus in Ireland. BARRIS, Feb 25.—The report that a treaty had been signed between the United States and the North German Confederation relative to the rights and privileges of naturalized American citizens of German birth, exempting them from home military service, which has heretofore been claimed, is premature. The debates, however, have been fully arranged, and it is expected that the document will be officially signed on Saturday.

LONDON, Feb 25.—Lord Derby has resigned the Premiership and his resignation has been accepted by the Queen. It is ascertained that Disraeli succeeds as Prime Minister, retaining his present office of Chancellor of the Exchequer.

Lord Stanley announced Earl Derby's resignation in the House of Commons, and Gladstone responded and with much delicacy expressed his sorrow at the causes which compelled his resignation.

LONDON, Feb 25.—Lord Chelmsford has resigned the position of High Chancellor and Lord Cairnes will be his successor.

The Times, commenting upon Cabinet changes, says Derby's resignation was a foregone conclusion, so also was the accession of Disraeli to the premiership. No other man has an equal right to the Tory lead, and it sees no reason, under present circumstances, why the Ministry should not be permanent.

The Morning Post declares that Disraeli becomes Prime Minister less on account of merit than because there is no one else fit for the place.

The Standard says Disraeli's task as Chancellor of the Exchequer was a great difficulty but he was best fitted by courage, tact, experience, and close relation with Earl Derby to succeed in the still more difficult task devolving upon him as Premier.

The Telegraph intimates that Disraeli cannot expect the same indulgence shown his veteran predecessor.

A great meeting of the friends of the United States was held last night at St. James' Hall. John Bright was chairman and made a speech arousing the sympathy of the audience for the American people by an eloquent allusion to their conduct during the rebellion. Rev. Newman Hall followed the chairman with ability on the American side of the Alabama controversy. He carried the vast assembly with him. The meeting was very enthusiastic and dispersed with repeated cheers for America.

The authorities have decided to withdraw the remainder of the suits against Irishmen indicted for walking in mock funerals at Dublin recently.

The Daily Times has an editorial on the resignation of Minister Adams. It says all England will lament his departure.

Disraeli has gone to Osborne, where the Queen is now stopping.

Parliament will probably adjourn for a week to await the action of the Cabinet.

The Times says the minister who succeeds Minister Adams should not have an easier or more gracious task than the settlement of the question concerning the rights of naturalized citizens.

It is thought the appointment of Lord Cairnes as Lord Chancellor will defeat all previous engagements between the two countries in regard to extradition, and that a renewed treaty will be made, terminable at the end of ten years.

BERLIN, Feb 25.—The obligations of the new treaty apply with reciprocity to the Germans and Americans. Engagements between the two countries in regard to extradition are renewed. The treaty is made to terminate at the end of ten years.

FLORENCE, Feb 26.—Some Italians, commenting on the remarks alleged to have been made by Seward in relation to Garibaldi, think the words must have been, incorrectly reported. They hope the American Government has not been secretly using Garibaldi as an agent of dissension, and trust the Americans only desire the unity of Italy.

The Paris papers report that the Italian Government is about to send Gen. Buxit to

Vienna to negotiate a treaty with Austria. LONDON, Feb 27.—The royal assent is given to the bill for the suspension of the habeas corpus. G. W. Hunt, Under Secretary of the Treasury, is appointed Chancellor of the Exchequer. Lord Stanley, in the House of Commons to-day, said an adjournment until Thursday was desirable to afford the Government an opportunity to complete the Cabinet.

Gladstone said such delay in the proceedings of Parliament was unprecedented. In the present case it might be justifiable.

Lord Wellesley Dale is dead.

The Cork parsonage, the residence of the Rev Mr. Lietie, near the city, was attacked last night. The assailants were driven off. DUBLIN, Feb 27.—General Nagle and his fellow prisoners were indicted for treason at Sligo. Heron, counsel for the defence, moved to delay the trial. The Court reserved its decision.

Eastern States.

WASHINGTON, Feb 24.—The impeachment resolution was adopted in the House by a vote of 125 against 47.

Stevens of N. H. moved to reconsider the vote and lay the motion on the table.

The latter move was agreed to, this being a parliamentary mode of making the decision.

Finally, Stevens then moved the following: Resolved—That a Committee of two be appointed to go to the Senate, and at the bar thereof, in the name of the House, and of all the people of the United States, to impeach Andrew Johnson, President of the United States, of high crimes and misdemeanors in his office, and to acquiesce in the Senate that the House will in due time exhibit the particular articles of impeachment against him, and make good the same; and that the Committee demand that the Senate make an order for the appearance of said Andrew Johnson to answer the said impeachment.

Resolved—That a Committee of seven be appointed to prepare and report the articles of impeachment against Andrew Johnson, President of the United States, with power to send for persons and papers, and take testimony under oath.

The resolutions were adopted. Stevens of Pennsylvania and Bingham of Ohio were appointed as the committee of two, and a committee of seven was appointed.

Chicago, Feb 25.—The President sent to the Senate yesterday a lengthy message, giving his reasons for the removal of Stanton. It is based on Acts of 1789 and 1795, and also on the unconstitutionality of the Tenure of Office law. It concludes—'I earnestly protest against the resolution of the Senate which charges me in what I have done with violation of the constitution and laws of the United States. (Signed.)

ANDREW JOHNSON.

WASHINGTON, Feb 25.—Stevens and Bingham appeared at the door of the Senate at one o'clock. Stevens, after recognition by the presiding officer, said—'In obedience to the order of the House, we appear before you and in the name of the House of Representatives, and of all of the people of the United States, we do impeach Andrew Johnson, &c. Presiding officer Wade replied that the Senate would take action in the premises. Howard offered the following:

Resolved—That the message from the House relating to the impeachment, be referred to a committee of seven. Resolution adopted.

WASHINGTON, Feb 26.—Justice Carter has fully discharged Gen. Thomas, giving as his reason that it is well known that Thomas did not seek to evade the press of law in any regard, and will be ready to answer when called upon.

The Herald's special says General Thomas has sued Stanton for false imprisonment, laying his damages at \$250,000.

WASHINGTON, Feb 29.—In the Senate Thayer introduced a bill to abolish the office of Adjutant General of the Army. Referred.

The Senate proceeded to the consideration of the action in relation to impeachment.

A motion to delay the trial until all the States are represented was lost.

The Senate then considered the rules, section by section, and adopted several of them.

In the House, after some preliminary business, Bostwell, chairman of the select committee, presented articles of impeachment against the President. They consist of ten articles.

Article 1st reiterates former suspension of Stanton, August 12th, and the re- of the Senate to concur therein; charges the President with high crimes and misdemeanors in issuing the order for the removal of Stanton, on February 21st.

Article 2nd states that the President appointed Thomas to be Secretary of War and

interim without the authority of law, the Senate being in session at the time.

Article 3rd states that the President, without the authority of law, while the Senate was in session, had appointed Lorenzo Thomas to be Secretary of War, ad interim, without the advice and consent of the Senate, and in violation of the Constitution, no vacancy having happened in said office during the recess of the Senate, and no vacancy existing at the time.

Article 4th recites that the President, mindful of his office and oath of office, and in violation of the Constitution and laws, did unlawfully conspire with Adjutant General Lorenzo Thomas, and other parties unknown to the House of Representatives, with intent by intimidation and threats to hinder and prevent Edwin M. Stanton, the duly appointed Secretary of War, from holding said office, contrary to and in violation of the Constitution of the United States and the provisions of the Act to define and punish certain conspiracies, approved July 31, 1861.

Articles 5th reiterates previous article, but charges the President with conspiracy with Thomas and others by force to prevent and hinder the execution of the Tenure of Office Act, and attempting to prevent Stanton from being Secretary of War.

Article 6th says the unlawfully conspired with Lorenzo Thomas by force to seize the property of the United States in the War Department. Remaining articles similar to these.

WASHINGTON, Feb 2.—Baronoff telegraphs to the State Department that the treaty with the North German Confederation was signed and mailed February 22d via England. It provides that emigration shall be free, and that naturalization changes the nationality of the subject. It is believed that similar treaties will soon be negotiated with other foreign powers.

CHICAGO, Feb 2.—Washington special says the President has begun to prepare for his trial.

NEW YORK, Feb 28.—The Herald's London despatch states that at a meeting on Tuesday evening John Bright spoke strongly in favor of the Government policy and power of the American people, and the duty of England to cultivate friendly relations with them. If the British Government and the English press would concur in expressions of hearty good will towards America, and pledge to support any movement at home in efforts to effect a prompt, righteous and pacific settlement all international differences would be settled, especially those connected with the Alabama claim. The question was put and the resolution adopted unanimously, amid loud cheering, with every person in the hall standing.

Nova Scotia.

NEW YORK, Feb 25.—Despatches from Halifax state that the debate on the resolution to remove the capital was considered yesterday, and an address to the Queen embodying a resolution was sent to the Lieutenant Governor to be submitted to the Queen.
