FORTY SECOND YEAR

Repulsed at Tien Tsin

Allied Forces Obligated to Retire From First Attempt at Relief.

The Foreigners at Tien Tsin Are Making a Gallant Resistance.

Another Attempt to Reach the City Was Made Last Night.

London, June 24.—(3.30 a. m.)—The only despatches from China received last night are those which give further details of the repulse of Thursday's attempt to relieve Tien Tsin.

According to a despatch from Chee Foo, holders of Chinese with well posted artillery block the way of the allied forces. The guns of the allies could make no impression, and it was found impossible to shift the enemy's position. Nothing could be done except to fall back, and this was accomplished in good order. It was ascertained that the foreigners in Tien Tsin were making a gallant defence.

The French concession buildings had been vigorously attacked with fire, and in all probability have been reduced to ashes.

After the force retired, an armored train attempted to reconnoitre, but was derailed. More troops are arriving at Taku, and another attempt at relief with a force of much greater strength was to have been made last (Saturday) night.

Chang Kai, the Chinese minister, received another telegram, dated last (Saturday) night, stating that all the legations in Peking were safe, and that no foreign ministers at that place were all well.

Hankow, June 23.—The British transport Hannon, with 12 surgeons and 1,000 tons of stores and ammunition, leaves here immediately for Taku.

The British cruiser Pique and the transport boat doctor Hart sail for Shanghai Wednesday.

The British gunboat Rodghe has sailed suddenly for Chefoo. The steamer received orders from the British naval authorities. She was taking arms.

Shanghai, June 23.—It is officially said that the Dowager Empress has issued emphatic instructions for the extermination of all foreigners in Tien Tsin.

Large numbers of refugees are arriving here from the north. All is quiet here and in the Yangtze Kiang valley.

Washington, June 23.—The following cablegram from Admiral Kempff was received late this afternoon at the navy department.

Chee Foo, June 23.—Proclamation issued 20th: The admirals and senior naval officers of the allied powers in China desire in the name of their governments that the Chinese military and naval forces be known to all the viceroys and the authorities of coast and river provinces and cities in China that they intend to march into Tien Tsin only against the Boxers and those people who oppose them in the march to Peking for the rescue of the international legations.

Berlin, June 23.—The following cables have almost completely cleared the South African war from public attention.

Political circles here are hoping that foreign offices were quite surprised by the increasingly serious character of the Chinese uprising. While this is true, Baron von Ketteler, the German minister at Peking, sent two months ago a detailed report from Peking containing all the latest news from the German legation.

Through the German legation, the British and American consuls in Peking were informed that the Chinese government had decided to send 1,000 regulars to Taku to within 15 kilometres of Tien Tsin.

Pei Tai Ho, the great watering place north of Tien Tsin, where 200 prominent foreigners had their summer homes, has been abandoned.

The governor of Shan Tung province, in which Chee Foo is situated, after consulting with his subordinate mandarins, decided not to join the rebels, and issued a proclamation declaring that all Europeans and Americans should be protected.

Admiral Kempff held a conference on Sunday at the American consulate with Consul Fowler and the captains of the Nashville and the Yorktown. The local commander of Chee Foo was present, and promised that there should be no uprising here against the foreigners, and gave other assurances which seemed all right on the surface.

The British expressed confidence in the goodwill of the American government toward China, and said the feeling was reciprocated.

Captain Edward Bayley of the British armored cruiser at Taku, signalled the American captain yesterday: "Thank God the Russians were here, otherwise we would all have been murdered."

San Francisco, June 23.—An order from Admiral Dewey, dated June 22, has been received by the Presidio directing that the troops of the sixth cavalry shall be recruited to their full strength, and sent to Taku.

Berlin, June 23.—An unfavorable impression is caused here by the statement that the German government is in connection with the Chinese question. The inspired German newspaper press in Berlin does not regard the news of the German reinforcements to the Chinese empire, and that the culture war is clearly demonstrated Germany's part in the East.

St. Petersburg, June 23.—A St. Petersburg despatch says that the new Russian minister, Varla, will go direct from Peking to Port Arthur.

Paris, June 23.—An official despatch received here from Saigon, the capital of French Indo-China, says the French armored cruiser Vauban and the transport Chavanne have gone north with 500 marines and a battery of artillery.

Silence Unbroken

Outside World Knows Naught of What is Doing at Peking.

Native Rumors Tell of Mysterious Tragedy at the Royal Palace.

Chinese Director of Telegraphs Wires That Foreign Legations Are Safe.

London, June 23.—(3 p.m.)—The silence of Peking continues unbroken. Four thousand men of the allied forces were having sharp defensive fighting at Tien Tsin Tuesday and Wednesday, with a prospect of being reinforced Thursday. This is the situation in China, as set forth in the British government despatches.

"Eight hundred Americans are taking part in the fighting at Tien Tsin," says the Shanghai correspondent of the Daily Express, writing last evening. "And the apparently part of the supplementary force, arriving with the German and British navy, the whole of the number of the Chinese there, but they had a surprising number of guns."

The United States gunboat Nashville to Chee Foo and telegraphed thence to Shanghai. The Chinese telegraph station in large numbers, and going to the interior.

Reports from native sources continue to reach Shanghai of a massacre in Peking. According to the statements, the streets are filled day and night with Boxers, who are wholly in control of the city. They are working themselves up to a frenzy and clamoring for the death of all foreigners.

The Chinese consulate at Shanghai is said to have received from influential native reports of a tragedy in the palace at Peking, though present at the scene. The consulate thinks that Admiral Seymour, commanding the international relief column, was killed by the Boxers in large numbers, and consequently underestimated the difficulties in the way and the Chinese power of resistance with machine guns and shells.

The consuls at Shanghai still believe the foreign missionaries at Peking safe, although Japanese reports from Peking show that on June 5, 100 foreigners had been killed in Peking.

The Daily Express says: "The British ambassador at Washington, Sir Claude Martin, has just received from Sir Claude's recall is the break down of his health."

A despatch from Vienna says: "The Hungarians have wired the various Chinese legations in Europe, directing them to inform the governments to which they are accredited that the British minister at Peking is being held prisoner by the Boxers, and that the British government is sending a force to his rescue."

The British government has immediately sent 1,200 marines to China, and possibly, according to some reports, 1,000 of the regulars now with Lord Roberts.

London, June 23.—A special despatch from Shanghai dated June 22, received at Tien Tsin on June 16, reports that the soldiers were killed very hard. Already the dead number 100. Relief is being rushed from Taku, but the coming of the relief force is being held up by the Chinese army.

The British steamer Hummer arrived at Chee Foo, bringing 30 refugees from Taku, including Messrs. Kinross and Parson and Mrs. Parson.

Pei Tai Ho, the great watering place north of Tien Tsin, where 200 prominent foreigners had their summer homes, has been abandoned.

The governor of Shan Tung province, in which Chee Foo is situated, after consulting with his subordinate mandarins, decided not to join the rebels, and issued a proclamation declaring that all Europeans and Americans should be protected.

Admiral Kempff held a conference on Sunday at the American consulate with Consul Fowler and the captains of the Nashville and the Yorktown. The British expressed confidence in the goodwill of the American government toward China, and said the feeling was reciprocated.

Britain's Problems

The Great Events That Are Happening in China and Africa.

Transvaal Annexation Is Expected to Be Proclaimed Very Shortly.

Governor Hodgson Expected to Hold Out in Kumasi Till Relieved.

London, June 23.—The death of Count Muraviev, the Russian minister of foreign affairs, evoked no eulogistic outbursts or expressions of regret here from the British press. "To quote a staid and humane weekly, 'The death of Russia's ambassador removes an obstacle to the cordiality between Russia and England,' and though this sums up the comment of the leading papers, there is little hope expressed that Russia's aggressive policy towards China will be much modified."

Lord Loch's death, almost coinciding with Count Muraviev's, has also received more interest here than it has elsewhere. Before he became a colonial governor, Lord Loch assisted in the negotiations which resulted in the cession of New Tain in 1890, and only escaped execution at the hands of the Chinese Emperor by 15 minutes' grace.

Lord Salisbury's entry this week to the House of Commons to-day Mr. Wainwright's statement on the foreign affairs had no news from Peking or Vice-Admiral Seymour.

He added that news by rumour, on June 18, from Tien Tsin, arriving at Taku on June 21, announced that several attacks had been made and repulsed.

Continuing, Mr. Broderick said that on June 17 the Chinese shelled the foreign settlement and the Chinese military column was attacked by a mixed force of 150 Russians, British, Germans and Italians. They destroyed the guns and burned the magazine, which contained a considerable store of ammunition, and killed its defenders.

The Russians, with four heavy field guns, did excellent service. The British loss was one man killed and five men wounded. The Germans had five men wounded and the Russians had seven men killed and five men wounded.

During the night of June 17 the Chinese tried to seize the Bridge of Boats, but were repulsed with loss, including, it is reported, a Chinese general.

Mr. Broderick also said: "We have further heard from Admiral Bruce, dated Taku, last night, and Chee Foo, the British expedition with a company of white troops, will probably be sent. The mortality among the officers of Col. Wilcox's staff is terrible, and it will be some time before any white troops will be sent."

Kumasi still awaits relief. Governor Hodgson is expected to hold out, but it is reported that he has arranged to go to the interior to be relieved by the British troops.

French Exhibition Now Complete and the Judges Are at Work.

Paris, June 23.—The exposition can now be described as finally completed. Everything is ready, and the exhibits are all installed. Juries are hard at work in all of the sections, with the usual amount of grumbling and discontent on the part of those not getting prizes. Insurance policies of the official exhibits against fire and robbery reach in value over \$400,000. The largest portion is naturally absorbed by the fine arts section.

Winnipeg Regatta at the Prairie City.

Winnipeg, June 23.—A big rowing regatta will be held here about July 24, during the week of the Winnipeg exhibition. A telegram from Capt. James Bays, whose last visit to Winnipeg was with the Toronto Argonauts, crews from St. Paul and Duluth are also expected.

New York, June 23.—Joe Bernstein of this city, met Solly Smith of Los Angeles, at the Broadway Athletic Club to-night, and after fighting 14 rounds, the Smith was knocked out by the Bernstein.

From the outset Smith seemed inclined to lose on a foul.

Dull in London.

Khadive's illness Hobs the City of Expected Festivities.

London, June 23.—The Khedive's unfortunate illness has robbed London of much of the expected festivities and in some respects has made the visit somewhat of a fiasco. Some such ailment of the Khedive is not unusual, and the trade is really none the less, the season is dull in the extreme.

The Chain Complete

Dundonald's Arrival at Standerton Separates Transvaal From Steyn's Force.

The Net Around Free Staters Is Drawing Closer and Closer.

General Dewet's Buildings Are Being Burned to the Ground.

London, June 23.—(3.45 a. m.)—Gen. Steyn's force in the Orange River Colony is for the time being drawing most of the attention of Lord Roberts rather to the neglect of Commandant-General Louis Botha and President Kruger. The severance between Transvaal and the Orange River Colony was completed yesterday, as Lord Roberts said it would be on the arrival of Gen. Buller's advance, under Lord Dundonald, at Standerton.

The wide net around the 6,000 or 7,000 men under Mr. Steyn will contract, and brisk fighting is likely to take place, because all resistance south of the Vaal is necessary to be swept away to make it safe for a line of communication. President Kruger's grandson, who surrendered to Gen. Buller, is back on his farm working peacefully.

Gen. Buller's force with only 300 men last week of the Orange River Colony, only 35. Lord Roberts met him on the outskirts of the town and escorted him to the presidency. Gen. Buller has issued a special order engaging the services of the Strathcona Horse.

Capt. Jones and the brigade from H. M. S. Forte have been ordered back to the ship, at the admiral's request.

Mr. Reid, the contractor, has thus far been unable to induce Mr. Bond, the premier, to reconsider the government's refusal to permit him to transfer to a joint stock company his railway and other interests in the colony.

The Fighting at Tien Tsin

Alarming Report That Fifteen Hundred Foreigners Have Been Massacred.

Allied Forces Stated to Have Inflicted Heavy Losses on Chinese.

London, June 22.—A special from Shanghai says that it is reported from Japanese sources that 1,500 foreigners have been massacred at Tien Tsin.

In the House of Commons to-day Mr. Wainwright's statement on the foreign affairs had no news from Peking or Vice-Admiral Seymour.
