at the B. C. Marina Ways, is ready for launching. Every portion of her hull, housework and fittings has received a fresh coat of paint, and she looks like a new boat. She is owned by the B. C. Packers' association. The Kincaid, owned by the Standard Fish & Fertilizer company, is tied up at the ways, and is having its hull scraping and painting done. The J. M. Boyden, which has been having a little repainting done by her machinery, will also be ready to take her departure today. The Mary Dier, altered to become a trussure-scraper, is still tied up at the ways, and her capture seems to be a foregone conclusion.

trouble, covering her well-scrubbed floor with snow and mud, all unwitting of the trouble they gave. It was, however by such patience, that she was able to bring her little mother to know her to bring their little ones from their crowded, dirty homes to the hospital where recovery was possible. Nurses had to be prepared for any emergency and instances were given where precious lives were saved by their skill and presence of mind.

At Sarnia on the Canadian Northern, she met a young man who not satisfied with practicing their profession had a mission house where they opened a Boys' Club and a Girls' Sewing Circle. Here they taught little Galician boys English, and citizenship at once by organizing a debating club.

Dr. Hunter, who was a graduate of Knox College, as well as a physician, was doing a great work at Walkow in overcoming the two well-grounded suspicions of the Galician settlers, who very often fell a prey to unprincipled dealers, who sold them inferior animals for high prices. Mrs. Macdonald went on to tell of the work the woman's society was doing in educating young

Passing on to tell of the work of the organization, the speaker said that in eight years there were 550 committees at work and she hoped that before the cent year there would be a thousand such organizations.

work awaiting it on Vancouver Island. The women of Victoria must set to work to found societies in the surrounding towns and settlements. Accordingly passed unanimously that the following be the secretaries of the three branches of the Women's Missionary Society in Victoria: be appointed a committee to look after the organization of other societies. The first meeting of the committee was afterwards held at the residence of W. L. Clay, to which all persons were very kindly invited by Miss Leitch. A very pleasant hour was spent by the ladies, and each of themselves of the organization, and Mr. Macdonald, who presided, was as charming socially as he is interesting and practical as a speaker. The ladies present were: Mrs. J. G. Macdonald, Mrs. Michener, Miss Campbell, Mrs. Geo. Robson, Mrs. Campbell, Mrs. H. E. Young, Mrs. Macdonald, Mrs. Wood, Mrs. Forman, Mrs. Frank

Bennett, Miss Lillian Smith, Mrs. Angus Smith, Mrs. Wm. Archibald, Mrs. Brown, Mrs. P. D. Johnson, Mrs. H. Hardie, Mrs. Geo. Thompson, Miss Robertson, Mrs. Small and Miss Lawson. Mrs. Bennett, Miss Clay and Miss Smith assisted the hostess in serving refreshments.

from the great centres where medical research work is carried on, to write in defence of those who are devoting their own lives to conserving those of others. And yet, it is always well to propose, if ever so feebly, the great current of prejudice. It is constantly asserted that those who practice what is called vivisection are heartless and cruel. The following rules, which are taken from the committee on Research

1. Vagrant dogs and cats brought to this laboratory and purchased here shall be held at least as long as the city pound and shall be returned to their owners if claimed and identified.

II. Animals in the laboratory shall receive every consideration for their physical comfort; they shall be kindly treated, properly fed, and their surroundings kept in the best possible sanitary condition.

the animal responsible for the importance of the problem studied and the propriety of the procedures used in the solution of these problems. V. In any operation likely to cause greater discomfort than that attending anesthetization the animal shall first be rendered incapable of perceiving pain and shall be maintained in that condition until the operation is ended. 7. Exceptions to this rule will be made by the director alone, and then

when anaesthesia would defeat the object of the experiment. In such cases an anaesthetic shall be used so far as possible and may be discontinued only so long as is absolutely essential for the necessary observations.

VI. At the conclusion of the experiment the animal shall be killed painlessly. Exceptions to this rule shall be made only when necessary.

be only when continuance of the animal's life is necessary to determine the result of the experiment. In that case, the same aseptic precautions should be observed during the operation, and, so far as possible, the same care shall be taken to minimize discomforts during the convalescence as in a hospital for human beings.

steamer Roman, which has been
having a cleaning and overhauling

"My wife was troubled for three years with Eczema on the hands which made her hands almost useless. The doctor gave her several ointments to use, none of which had any effect. He also advised her to wear rubber gloves (she wore out three pairs).
"I persuaded her, as a last resort, to try 'Fruit-a-tives.' The effect was marvellous. Her hands are no longer weaned.
"We both attribute our present health to 'Fruit-a-tives.'"

N. JOUBERT.

Eczema, Rash, Pimples, Itching and Burning Skin are always caused by impure blood—due to chronic constipation, indigestion or some weakness with the kidneys.

"Fruit-a-tives" is a positive cure for all Skin Troubles. It is the greatest blood purifying medicine in the world—and is the only remedy made of fruit juices.

50c. a box, 6 for \$2.50, trial size 25c.

Trained Nurse on Zam-Buk

Read What She Has Found.

Miss J. Keith, of Olds, Alta.

trained nurse, who has had a wide experience of Zam-Buk, speaks of it as follows: "I wish to express my high appreciation of Zam-Buk. I have been using it for a great number of years to treat all the common skin diseases and find it excellent. I have introduced it to several patients, with highly satisfactory results. Indeed, in many cases I have been warmly thanked for its introduction.

"Speaking professionally, I would give it to all sufferers from skin disease, the following being the most important parts affected and apply Zam-Buk frequently and regularly. Use clean Zam-Buk and cleanliness will be found sufficient for the most stubborn case of skin disease.

Zam-Buk will also be found a sure cure for shingles.

varicose ulcers, scalp sores, eruptions, children's rashes, piles, cuts, burns, abrasions, scratches, scalds, and all skin injuries and diseases. 50c. box, all druggists and stores. Try Zam-Buk soap, too; 25c. per tablet.

BORN.

BAGSHAW.—On the 29th inst to Mr. and Mrs. E. C. B. Bagshaw, a son.

DIED.

BUSCOMBE.—At the Royal Jubilee Hospital, on the 26th inst., Joseph Henry Buscombe, aged 57, a native of Cornwall, England.

NAGLE.—At Halifax, N. S., on March 4th after, a short illness, Walter Nagle, aged 35 years. He leaves a wife and three children.

JOHNS.—At St. Joseph's Hospital at

o'clock a. m. on Sunday, Fred A. Johns, 1125 Yates street, deceased, was a member of the F. O. E. and also of the H. and R. E. I. A. He had resided in this city for the past fourteen years and was a native of British Columbia. He leaves a wife and two children to survive him.

HENDERSON—On March 24th, 1911, in the Straits of Juan De Fuca, John T. Henderson, accidentally drowned in the wreck of S. S. Sechart, aged 26

years, and a native of Leeds, England.
