J. J. Dixon & Co. received the following from Counselman & Day of Chicago: Wheat got active enough to-day to suit the most fastidious bull. Receipts were 140 cars under estimates. Liverpool cables were 14 to 1 penny higher, and brought buying orders for spot and futures. The opening price of December was 1/40 to 1/40 over price of cails, and sellers of privileges competed with a general outside order demand for wheat. Local shorts were demoralized and advance of 11/40 occurred later, after which some realizing by long element influenced by lower quotations from London, Berlin and Paris caused a decline of 3/50 to a steady closing. Net gain of 3/50 to the day. New York and Baltimore reported the general acceptance of cargoes offered to foreign ports yesterday and charters here aggregated 65,000 bushels. The advance today has been rather large and we expect some setback, but don't think top prices yet reached. Corn and oats were active and under good shipping demand, Near deliveries were materially higher, but late futures neglected. We think that receipts are liable to grow somewhat higher and that higher prices will be reached this week. Provisions were steady at generally higher prices. Receipts of hogs are still small and in long run we feel bullish on product.

NEIL J. SMITH. R. Cochrane received the following from Kennett, Hopkins & Co., New York: This has been a dull day with narrow fluctutations in prices. The specially weak spot has been sugar. Their certificates have been dull a long time, and activity to-day resulting in lower figures is significant. The announcement in Wall-street papers that St. Paul Company had borrowed a large sum of money to meet its interest payments on July I caused that stock to open weak, notwithstanding London bought them some. There is little speculative feeling in street. Market dull. Total sales 90,000.

Toronto. John J. Dixon & Co. received the following despatch over their private wire from Henry Allen & Co. of New York: The market is still dull. All the activity is upon the bear side, and such stocks as are active are weak. An illustration of the way in which certain stocks are held was found to-day in the antics of the Linseed Oil Company, which closed at 21 yesterday and opened to-day offered at that price. Then it was offered one point at a time and went to 20 before a bid could be found for it. There is absolutely nothing like a bond market in any quarter.
