A Problem to Solve

Reference was made in this paper few days ago to the effect that the industrial awakening of China and Japan would have upon the business of the world at large, says an exchange. On this point the Toronto News, with special reference to China says:-"The Celestial Empire is rich in coal and iron, and other natural esources. Once these begin to be developed Chinese manufactures will be ound in the markets of the world. Indeed, it is doubtful whether or not the high priced products of Canadian, United States, English and German J. J. RITCHIE, K. C., factories will be able to compete with those turned out by the Oriental industries."

which could only be offset by more rapid and skiltul work in competing countries. One is amazed at; the figures quoted to represent the cost of living and the wages paid in some parts of China. We quote further Barrister, &C from the News:-

"Private letters from China speak of the cheapness of living in that country. In the province of Hunan. he winter price of new laid eggs is dian money, peanuts cost ten cents a bushel, poultry is plentiful and cheap, and other foodstuffs are quoted at very low prices.
