

the past ten years. These have all now been well nigh studied and determined. The bulk of the fossil collection, consisting of crinoids and cystideans, on which Mr. Stewart had spent a great deal of time, were purchased by Mr. J. H. R. Molson for the Peter Redpath Museum of McGill College, Montreal, and is now on exhibition in the cases of that institution.

A small collection was sent to Prof. F. A. Bather and Dr. Henry Woodward, of the British Museum, who expressed themselves as highly delighted with the specimens sent.

Dr. Ami is preparing a list of the species of fossils in the Stewart collection. Besides those from Ottawa and its environs there are not a few from Belleville, Hastings, Madoc, Havelock, and from other localities in central Ontario.

The discovery of a *gouge* by Mr. J. Ballantyne or stone implement belonging to the aborigines of this portion of Canada in Mr. Graham's brickyard at Archville (Ottawa East), led to an interesting examination of the circumstances attending the finding of it. Amongst the fossil remains collected in the beds of clay and sand; were the following :

1. *Leda* (*Portlandia*) *arctica*, Gray, abundant.
2. *Macoma fragilis*, Fabricius
3. " *calcareo*? Chemnitz.
4. *Natica affinis*, Gmelin.
5. *Cylichna alba*, (Brown.)
6. *Balanus crenatus*, Bruguière.
