

Cholera Infantum

We respectfully call the attention of the Medical Profession to the great value of

NESTLE'S FOOD AS A DIET

in connection with the successful treatment of Cholera Infantum. It is considered indispensable in this connection by such authorities as Professor W. O. Leube, Sydney Ringer, J. Lewis Smith, Prof. Henoch, C. F. H. Routh, and many others.

Manufactured only at Vevey, Switzerland.

THOS. LEEMING & CO., Montreal, Sole Agents for Canada.

CH. MARCHAND'S PEROXIDE OF HYDROGEN

(MEDICINAL) H_2O_2 (ABSOLUTELY HARMLESS.)

Is rapidly growing in favor with the medical profession. It is the most powerful antiseptic known, almost tasteless, and odorless. Can be taken internally or applied externally with perfect safety. Its curative properties are positive, and its strength and purity can always be relied upon. This remedy is not a Nostrum.

A REMEDY FOR DIPHThERIA; CROUP; SORE THROAT,
AND ALL INFLAMMATORY DISEASES OF THE THROAT.

OPINION OF THE PROFESSION.

Dr. Geo. B. Hope, Surgeon Metropolitan Throat Hospital, Professor Diseases of Throat, University of Vermont, writes in an article headed, "Some Clinical Features of Diphtheria, and the treatment by Peroxide of Hydrogen" (*N.Y. Medical Record*, October 13, 1888). Extract:

On account of their poisonous or irritant nature the active germicides have a utility limited particularly to surface or open wound applications, and their free use in reaching diphtheritic formations in the mouth or throat, particularly in children, is, unfortunately, not within the range of systematic treatment. In Peroxide of Hydrogen, however, it is confidently believed will be found, if not a specific, at least the most efficient topical agent in destroying the contagious element and limiting the spread of its formation, and at the same time a remedy which may be employed in the most thorough manner without dread of producing any vicious constitutional effect.

"Inasmuch as the efficacy depends upon the ozonized oxygen in solution, it has seemed desirable to rely on the full strength of the official preparation of fifteen volumes, especially when used in the fauces, where any slight irritation from its acidity is not apparent. In all the cases treated (at the Metropolitan Throat Hospital), a fresh, standard Marchand preparation of fifteen volumes was that on which the experience of the writer has been based.

"An equally important element is in making the application in such a manner as to produce the most determined effect on the diseased tissues with as little local disturbance as possible. . . . A steady, coarse spray, with an air pressure of twenty pounds or more, will, in a few moments' time, produce a more positive action than prolonged efforts to reach the fauces by means of cotton applicators. . . . How frequently the treatment is to be followed up depends to a considerable extent on the density, as well as the area, of the surface involved."

CAUTION.—By specifying in your prescriptions "Ch. Marchand's Peroxide of Hydrogen (Medicinal)," which is sold only in $\frac{1}{4}$ -lb., $\frac{1}{2}$ -lb., and 1-lb. bottles, bearing my label and signature, you will never be imposed upon. Never sold in bulk.

PREPARED ONLY BY

A book containing full explanations concerning the therapeutical applications of both CH. MARCHAND'S PEROXIDE OF HYDROGEN (Medicinal) and GLYCOZONE, with opinions of the profession, will be mailed to physicians free of charge on application.

Mention this publication.

SOLD BY LEADING DRUGGISTS.
