

he includes diabetes, chronic nephritis, obesity, and colica mucosa. His opinions are entitled to much weight, and physicians will no doubt welcome the presentation of his opinions in English form. We can say that under the direction of Dr. Boardman Reed the translation has been excellently done. We have read this little book with much pleasure, and feel sure it will not disappoint those who turn to its pages for advice on the question of obesity and reduction cures.

Thoroughly Revised.* Handsome 12 mo. of 458 pages, fully illustrated, including 8 colored and half-tone plates. Philadelphia, New York, London: W. B. Saunders & Company, 1903. Toronto, Canada, J. A. Carveth, & Co., Limited, 413-415 Parliament St. Cloth, \$1.75 net.

The continued and increasing popularity of this little volume has placed the publishers under the obligation of keeping it abreast of the times, of making it reflect the latest advances in the progressive profession of nursing. The revision has been extensive, every page showing evidences of careful scrutiny. Considerable portions of the work have been either amended, modified, or amplified in accordance with the progressive spirit of medicine and its indispensable handmaid, nursing. The sections treating of certain diseases, especially the infectious diseases, as well as the treatment of the common poisonings, have been in large part recast and rewritten. By the extensive revision the usefulness of the book has been greatly extended and its trustworthiness enhanced. There is no doubt that the work in its third revised form, will maintain the popularity justly won by the earlier edition.

THE CARE OF THE BABY. THIRD EDITION, THOROUGHLY REVISED.
