NEW-YORK TRIBUNE. 1873.

Now, as heretofore. The Thinuxh strives that of all and preeminently a news paper.

France a Republic—England and Germany gradually permeated with Republican ideas—Spain swaying in the nervelees grasp of a ruler too good for as Kug and too wask for a Republican, who is unable to govern the great island that blocks the entrance to our Gulf of Microto, and equally unable to give it ni—the German-apeaking peoples agitated by a new Protestantism, separating from the Sec of Rome on the dogma of Papal Infallability and assuming to recognize the "Oid Catholica"—the whole Continent pervaded by the intellectual ferment that comes of the conflict between oil ideas, philosophical, theological, material, and the advance of physical Science—Russia and Great British running a face tor the mal gains that shall determise Asiatic coprenacy—China seconing ready to abandon her advances and reclese her half opinicit gates—Japan abolishing requalism and inviting Western civilization to irradiate Western commerce to enrich her long-hidden empkessuch are phases of the news from abroad which the mails over all Continents and the wires under all Seas are daily bearing to us. With able and trusted correspondents in the leading capitals, and whorever great changes are in progress, Thir Thiruna aims, at whatever cost, to in before its readers the most prompt, completing novements, through all of which, as it fondly trusts the toiling inases are everywhere struggling up toward larger recognition and a brighter future.

At home the struggle for freedom seems over. The least sleve has long them a cliften the last envosation

At home the struggle for freedom seems over. The last slave has long been a clitzen the last opposition to eman-ipation, enfranchisement, equal civil rights, has formally been abandoned. No party, North or South, longer desputes the result of the War for the Union; all declare that these results must never be undone; and, with a whole people thus united on the gram platform of All Rights for All, whereto our bloody struggle, and the prolonged civil contests that followed, have led us, the lespublic closes the records of the bitter, hateful Past, and turns peacefully, hopefully, to the less alarming because less vital problems of the Future To whatever may a busidate the general discussion or action on these. The Thibung gives amplest space and most impartial record. Whatever parties may propose, whatever political leadors may say, whatever officers may do, a fairly set down in its columns, whether this news helps or hinders its own view that says and this they always facts.

The Webkly Tribune, how more than thirty years old, has endeavored to keep up with the progress of the age in improvement and enterprise. It devotes alarge share of its columns to Agriculture as the most essential and general of human pursuits. It employs the ablest and most successful cultivators to set forth in brief clear essays their practical views of the Farmer's work it reports public disscussions which elucidate that work, gathers from every source agricultural news, the reports of the latest experiments, the stories of the latest accesses and failures, and whatever may tend at once to better Agriculture, and to commend it as the first and most important of progressive Art, based on natura science.

The Werrly Triaune appeals also to Teachers Students, and persons of inquering minds, by the character of its literary contents, which include reviews of all the works proceeding from the master minds of the old or of the New World, with liberal extracts from those of especial inforest. Imaginative Literature also claim attention, but in a subordinate degree. "Home Interests "are discussed weekly by a lady specially qualified to instruct and interest her own sex, and the younger portion of the other. No column is more eagerly sought or persuod with greater average profit than hers. The News of the Day, elucidated by brief comments, its so condensed that no reader can deem it diffuse, while given sufficiently in detail to satisfy the wants of the average reader. Selections are recularly made from the extensive correspondence of The Dally Transvis from every country, and its editorials of more permanent value are here reproduced. In short, The Wyrkly Transvis commends tracif to Millions, by ministering to that intellectual wants more fulls than they are met by any other fournal, while its regular reports of the Cattle, Country Produce, and other Markets, will, of themselves save the farmer who regularly notes them far more than his journal's price. THE WEEKLY TRIBUNE appeals also to Teachers

For the Smith circle of the educated farmer or artisan. The Werkly Thinning has no superior, as to proved by the bundred of thousands who, baving read it from childhood, still theirsh and enjoy it in the prime and on the down hill of life. We respectfully urge these who know its worth to commend The Weekly Thinning to their friends and neighbors, an we profer it to clubs at price which barely pay the cost of paper and press work.

HASTY CONSUMPTION CURED BY FELLOWS HYPOPHOSPHITES.

HASTY CONSUMPTION CURED BY FELLOWS

CIRBOREAR, NEWPOUNDLAND, Jan. 3 1871.

Mr. James I. Fellows.

Dear Str.: I came to this country in May, 1869. I found a countryman of mino laboring under some affection of the lungs. I recommended your Syrup, tried at the Druggists in Harbor Grace, but they thought I was inventing the name at their expense. However, in April, 1870, Mr. Edgar Joyce rapidly wasted away with every symptom of quick consumption, so that he was unable to walk across the room having no appatite, pains in the left side, nervous system unstrung, dry, hacking cough, &c. Fortunately Hearned that your Syrup could be obtained at Mr. Dearin's. In St. John's, and immediately procured some (showed one to W. H. Thompson, who ordered a supply from you at once. This was Tuesday afternoon; at hight be took the prescribed dose, and in the morning he described the very results notified on the wrapper. His appetite soon began to return, and a veracions one it was, too; the dry, hacking cough changed into loose but violent attacks, finally disappearing altogether; pains left his side, his hand assumed its usual steadiness, and before he finished ton bottes his health was quite restored, and to-day not an order health person is to be found on our atrocks; and it is the opinion of all, had he not been fortunate in getting your valuable Syrup of Hypophosphites, he would now be in his grave.

Ho happened to be in W. H. Thompson's the day your first shipment arrived, and took at once four hottles to the Labrador, which he was very anxious to do, but had no occasion to use them himself. No other incelline will be over prescribe, recommend, or give, but yours.

GOOD THINGS

GOOD THINGS of all ages, from the little beginner, who can just road a picture, to the blg boys and girls who study at the deak or shout in the playground; and so onwards up to the veterans who, after all their learning, turn to the children for a fresher wisdom, and after all their work, sit in the shedy corner and past the old genes over egain in their measts. GOOD THINGS "hopes, as a periodical, to have its margins well thumbed and dog-cared; and when the binder has rimmed these and made it fit for the library, the volume and ity for a head place there in good company. The avors of a multitude of assorted "goodless" cannot be utinted a prospectus; but the WILL SPEAK FOR ITSELF.
