A DOUBLE MEANING.—An auctioneer, speaking to a horse dealer about the situation of the estate he was to sell, in a level neighborhood, said: "The country is exceedingly beautiful, and I do so admire a rich flat." "So do I, sir," said the grinning jockey.

CONSOLATION IN GRIEF.—A very covetous man lost his only son James. The minister came to comfort him, and remarked that such chastisements of Providence were mercies in disguise; that although in the death were mercies in disguise; that although in the death of his son he had suffered a severe and irreparable misfortune, yet undoubtedly his own reflections had suggested some sources of consolation. "Yes," exclaimed the weeping but still provident father, " Jim was a monstrous enter !"

Some mathematical genius, after a laborious research, has demonstrated the following facts:—The cost of washing linen that might have been worn one day longer just as well, amounts to enough in this country to more than defray the expenses of the American Board of Foreign Missions! The expense of buttons worn on the backs of our coats, where they are of no earthly use, is equal to the support of all our orphan asylums! The value of tails to dress coats (of no value in reality for warmth or convenience) is actually greater than for common schools.-N. Y. paper.

A farmer was once asked what inference he could draw from the text in Job, "And the wild asses snuffed up the wind." "Well," hepreplied, "the only inference that I can draw is this, that it would be a long time before they would grow fat upon it."

PROSPECTUS

在ETTERN COMMAND (p) 1 . p : NEW TRI-WEEKLY MONTREAL NEWSPAPER, DEVOTED TO

News, Literature, and General Politics,

TO BE CALLED . "THE NEW ERA." EDITED BY THOMAS D'ARCY McGEE.

MANY friends of the gentleman who is to be the principal Editor of "The New Eda" having strongly encouraged him to enter the field of Journalism, in Canada, it devolves on him briefly to explain on what principles the new Paper is to come before the

It is to be called "THE NEW ERA," as an indication of the time of its birth. This magnificent Province has evidently arrived at such an era; - steam by land and sea; the sub-Atlantic Telegraph; the probable annexation to Canada of a habitable region, larger than France and Austria combined; are facts which must give their own character to the times in which they occur. In the onerous future, which is to see the fair promises of the present fulfilled or marred, Journalism will play an important part; and we desire to have some share, however small, in the labors and duties it imposes.

Public interests are, commonly, either of a religious or of a political nature, and we shall briefly state our views of both:-

Questions strictly, or mainly, religious—unless forced upon the Press, under political or partizan pretences,—ought, it seems to us, to be carefully avoided by the secular journalist. But, as of all Freedom's gifts to man, none is so dear as the free domain of his own conscience, we shall cordially concur with whatever party in the Province can give the best guaranty that the freedom of conscience, which now so happily characterizes Canada, shall

be perpetually preserved.

For the Politics of "The New Era," we can only say, in general, that we mean to make them such as may best harmonize with the interests of United Canada. Independence of dictation is essential to the credit and usefulness of Journalism, and we shall not hesitate to approve, nor to oppose, particular measures, because of the personality of their authors, whether in or out of office. To be governed by a genuine liberality, and to cultivate the same feeling in the hearts of our readers, will be our chief aim in dealing with every question of the day. By this declaration we desire to be judged hereafter.

Although the salutary custom of the Canadian Press preserves the anonymity of its writers, it may not be unbecoming for us to say that our readers may expect regular, or occasional, contributions from Dr. Shelton Mackenzie, now of New York; Mr. EDW. WHITTY, of the London Press, author of "Political Portraits"; Mr. EDWARD HAYES, Editor of the "Irish Ballads," now in Australia; and some other MESSAS. FLEMING BROS.—Please send the Vermifuge for us as soon as possible, as we are nearly out, and the demand for it is very great. We believe it to be

We might add volumes of evidence, but the most convincing proof of the virtues of this remedy is found in its effects upon

Doctor Ayer, Lowrell, I feel it a duty and a pleasure to inform you what your CHERRY PECTORAL has done for my wife. She was steadily failing, until Dr. Strong, of this city, where we have come for advice recommended a trial of your medicine. We bless his kindness, as we do your skill, for she has recovered from that day. She is not yet as strong as her was the labority of the last trial but for the last trial with the control of the last trial but tr

THE sciences of Chemistry and Medicine have been taxed their utmost to produce this best, most perfect purgative which is known to man. Immunerable percent purgative which is known to man. Immunerable percent percent these Rules have ritues which surpass in excellence the ordinary medicines, and that they win unprecedentedly upon the esteem of all men. They are safe and pleasant to take, but powerful to cure. Their penetrating properties stimulate the viral activities of the body, remove the obstructions of its organs, purify the blood, and exped disease. They purge out the foul humors which breed and grow distemper, stimulate sluggish or disordered organs into their natural action, and impact healthy tone with strength to the whole system. Not only do they ome the everyday complaints of every body, but also formidable and dancerous diseases that have builded the best of human skill. While they produce powerful effects, they are, at the same time, in diminished doses, the safest and best physic that can be employed for children. Being sugar-coated, they are pleasant to take; and being purely vegetable, are free from any risk of harm. Cures have been made which surpass belief were they not substantiated by men of such exalted position and character as to forbid the suspicion of untruth. Many entinent clergymon and physicians have lent their names to certify to the public the reliability of my remedies, while others have sent me the assurance of their conviction that my Preparations contribute immensely to the relief of my afflicted, suffering fehlow-men.
